REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Participants and Board of Directors
Parker-Hannifin Corporation
Parker Retirement Savings Plan
Cleveland, Ohio

We have audited the accompanying statements of net assets available for benefits of the Parker Retirement Savings Plan as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Parker Retirement Savings Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying schedule of assets (held at end of year) as of December 31, 2014 has been subjected to audit procedures performed in conjunction with the audit of the Parker Retirement Savings Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but includes supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Parker Retirement Savings Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated in all material respects in relation to the financial statements as a whole.

/s/ McGladrey LLP

Parker Retirement Savings Plan

Notes to Financial Statements (Dollars in Thousands)

1. Summary of Significant Accounting Policies

Investment Valuation

The Parker Retirement Savings Plan's (the Plan) investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 7 for discussion of fair value measurements). The Plan presents in the Statements of Changes in Net Assets Available for Benefits interest and dividend income and the net appreciation or depreciation in the fair value of its investments which consists of the realized gains and losses from the sale of investments and the unrealized appreciation and depreciation of investments held by the Plan.

Purchases and sales of securities are reflected on a trade-date basis.

Dividend income is recorded on the ex-dividend date. Interest and other income are recorded as earned on the accrual basis.

Costs incident to the purchase and sale of securities, such as brokerage commissions and stock transfer taxes, as well as investment advisory fees, are charged to the investment fund to which they relate and are netted against dividend and interest income. Certain costs and expenses incurred in administering the Plan are paid out of the Plan's assets and Parker-Hannifin Corporation (the Company) pays the remainder.

Risks and Uncertainties

Management believes that the Plan's investments are well diversified and do not create a significant concentration of interest rate, market or credit risk. However, due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the Statements of Net Assets Available for Benefits. Participants assume all risk in connection with any decrease in the fair value of any securities in all the funds. Although the annual rates of return with respect to the contracts held in the Contract Income Fund are guaranteed by major insurance companies and banks, the Company does not make any representations as to the financial capability of such companies or their ability to make payments under the contracts.

Subsequent Events

The Plan has evaluated subsequent events that have occurred through the date these financial statements were issued. No subsequent events occurred that required disclosure in or adjustment to these financial statements.

Other

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

The financial statements of the Plan are prepared using the accrual method of accounting.

Benefit distributions are recorded when paid.

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." The guidance removes the requirement to categorize all investments within the fair value hierarchy for which the fair value is measured using the net asset value per share practical expedient and to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The guidance is primarily effective for annual periods beginning after December 15, 2015 although early adoption is permitted. The Plan Administrator is currently evaluating the impact this update will have on the Plan's financial statements. However, the Plan Administrator does not expect any significant changes in the Plan's financial statements as a result of applying this new guidance.

Parker Retirement Savings Plan

Notes to Financial Statements (Dollars in Thousands)

2. Description of the Plan

General

The following description of the Plan provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan available to all U.S. domestic regular full-time and part-time non-union employees, and some union employees (if negotiated). Employees are eligible for participation in the Plan the first day of the month following their date of hire and are generally automatically enrolled in the Plan 30 days after their date of hire or rehire. A separate Retirement Income Account (RIA) also exists within the Plan. Some of the Company's employees participate in the RIA in lieu of participating in a defined benefit plan. Similar to a defined benefit plan, participants do not make contributions to the RIA. The Plan is subject to Sections 401(a) and 401(k) of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect to contribute, through payroll deductions, not less than 1% nor more than 75% of their total compensation for a Plan year and may change such percentage upon request. Participant contributions are made either on a before-tax and/or after-tax basis. Employee and their associated Company matching contribution are primarily recorded in the period that payroll withholdings are deducted from participants. Contributions are subject to certain limitations.

Effective August 1, 2014, the Plan was amended to allow participants to direct their Company matching funds to any investment fund option within the Plan. Previously, Company matching contributions were invested solely in a non-participant directed Employee Stock Ownership Plan (the ESOP Fund), which holds primarily Company stock (see Note 5). The ESOP Fund remains the default option for Company matching funds, if no other investment fund election is made by the participant. Participants may diversify their shares of stock in the ESOP Fund at any time to any of the investment funds available within the Plan.

Participants may suspend their savings plan contributions at any time and may designate one or more of several available funds within the Plan in which their contributions are to be invested. Investment elections may be changed at any time. Employees have the flexibility to invest their RIA contribution in any investment fund (except the Parker-Hannifin Common Stock Fund) offered by the Plan. The available investment funds are:

- (a) Parker-Hannifin Common Stock Fund (Company Stock Fund): Invested primarily in common shares of the Company purchased on the open market. The Plan restricts participants from investing more than 50% of their account balance in the Company Stock Fund.
- (b) Vanguard Institutional Index Fund: Invested in stocks which comprise the S&P 500 Index.
- (c) Vanguard Extended Market Index Fund: Invested primarily in the Standard & Poor's Completion Index.
- (d) Vanguard Total Bond Market Index Fund: Invested in a sampling of assets in the Barclays Capital U.S. Aggregate Float Adjusted Index and maintains a dollar-weighted average maturity consistent with that of the index.
- (e) Vanguard Total International Stock Index Fund: This mutual fund employs an indexing investment approach designed to track the investment return of stocks issued by companies located in developed and emerging markets, excluding the United States.
- (f) Contract Income Fund: A separately managed fund invested primarily in high-quality fixed income investments such as contracts issued by insurance companies and banks which provide a return guaranteed by the issuer, and debt securities such as notes and bonds issued by Federal agencies or mortgage and other asset-backed securities, with each of these investments typically providing a stable rate of return for a specific period of time. (See Note 6 for a further description of this fund.)

Parker Retirement Savings Plan

Notes to Financial Statements (Dollars in Thousands)

2. Description of the Plan (cont'd)

- (g) PIMCO Total Return Portfolio: A managed account invested primarily in securities which have a fixed rate of return such as U.S. government and corporate debt securities, mortgage and other asset-backed securities, U.S. dollar and foreign currency-denominated securities of foreign issuers, and money market instruments.
- (h) BlackRock Inflation Protected Bond Fund: Invested primarily in inflation-indexed bonds issued by the U.S. and non-U.S. governments, their agencies, and non-U.S. corporations.
- (i) JPMorgan Analyst Large Cap Core Fund: A managed account with an objective of outperforming the S&P 500 Index by approximately 2% annualized over a market cycle; generally three to five year time frame.
- (j) Dodge and Cox International Stock Fund: Invested primarily in equity securities including common stocks, preferred stock, and convertible securities issued by well established non-U.S. companies from at least three different foreign countries, including emerging markets.
- (k) Fidelity Freedom K Funds: Twelve mutual funds designed to help participants diversify their assets based on their life cycle. The Freedom Funds are invested in equities, fixed income, and money markets based on the participant's targeted retirement date. (These funds were liquidated and transferred to the equivalent Northern Trust Focus Funds effective February 1, 2014.)
- (l) Northern Trust Focus Funds: Eleven collective trust funds which provide a target retirement date investment option to help participants diversify their assets. The Focus Funds are invested in equities, inflation-sensitive securities and fixed income and US Government cash reserves. (These funds become available to participants effective February 1, 2014.)
- (m) Aberdeen Emerging Markets Fund: A diversified fund invested primarily in equity securities of emerging market country issuers.
- (n) Pyramis Small Company Commingled Pool: A fund invested primarily in equity securities of smaller, growing companies listed on national and regional exchanges.
- (o) RidgeWorth Mid-Cap Value Equity Trust: A fund invested in a value oriented portfolio of 60 to 80 stocks with emphasis on dividends, valuation and fundamentals.
- (p) GMO Global Equity Allocation Series Fund: A mutual fund which invests substantially all of its assets in the GMO Global Equity Allocation Fund. Normally, at least 80% of the fund's assets consist of equity investments.

Participant Accounts

The Plan utilizes the unit value method for allocating Plan earnings for all funds. Unit values are determined on a daily basis and exclude contributions receivable and benefits payable.

Parker-Hannifin Corporation Contributions

The Company generally contributes an amount equal to 100% of the first 3 percent of the before-tax participant contribution and an amount equal to 50% of the 4th percent and 5th percent of the participant's contribution. The Company may also match after-tax participant contributions, but matches only 25% of the 4th percent and 5th percent of after-tax participant contributions. Company contributions match the before-tax contributions prior to the after-tax contributions.

Additionally, the Company makes a contribution every year in February to the participants' RIA accounts. The amount of the contribution relates to the prior year and is based on a formula taking into account the participant's age and years of service.

Parker Retirement Savings Plan

**Notes to Financial Statements
(Dollars in Thousands)**

2. Description of the Plan (cont'd)

Notes Receivable from Participants

The Plan has a loan provision which allows an active participant to borrow a minimum of five hundred dollars and up to the lesser of (a) 50% of their account balance or (b) fifty thousand dollars less the largest outstanding loan balance he/she had in the last 12 months. Participants may not borrow or withdraw any funds from their RIA account. The loan must be repaid, with interest equal to the prime rate at the time the loan is entered into plus 1%, over a period from 1 year to 4 1/2 years for a general purpose loan and up to 10 years for a residential loan. Some participant loans have interest rate and repayment terms that differ from the Plan's loan provisions as some loans were included in the net assets of a plan transfer into the Plan. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Contributions Receivable

A RIA contribution receivable of \$26,890 and \$23,160, reflecting the contribution earned by participants in 2014 and 2013 but paid in 2015 and 2014, was recorded at December 31, 2014 and 2013, respectively. For the year ended December 31, 2014 and 2013, the Plan also recorded receivables for Company matching and participants' contributions relating to plan years 2014 and 2013 but credited to participant's accounts during 2015 and 2014 in the amounts of \$2,336 and \$930 and \$2,086 and \$375, respectively.

3. Vesting, Withdrawals and Distributions

Participants are fully vested at all times, except for the RIA. After three years of service, employees are vested in their RIA and may withdraw their RIA money only after termination of employment. In general, a participant's account is paid out after termination of employment, but under certain circumstances, a participant may withdraw in cash a portion of his/her before-tax and/or after-tax contributions, subject to certain limitations and restrictions.

After a participant terminates employment for any reason, all amounts are distributable to the participant or if the participant is deceased, to the participant's designated beneficiary. The distribution may be deferred until the age of 70 1/2 if the participant's account exceeds five thousand dollars. Distributions are made in the form of cash either in a single payment, quarterly installments, or by purchase of an annuity, except that amounts held in the Company Stock Fund and ESOP Fund may be distributed in the form of common shares. The Plan provides that mandatory or involuntary lump-sum distributions in an amount in excess of one thousand dollars but less than five thousand dollars shall only be made in the form of an automatic rollover IRA. Dividends received by the ESOP Fund are either paid to the participants quarterly or annually or reinvested quarterly, at the participants' election.

Parker Retirement Savings Plan**Notes to Financial Statements
(Dollars in Thousands)****4. Investments**

The following represents the fair value of investments held by the Plan at December 31, 2014 and 2013 (investments which exceed 5% of the Plan's net assets in 2014 or 2013 are separately identified):

	<u>2014</u>	<u>2013</u>
Money Market Fund	\$ 84	\$ 72
Mutual Funds:		
Vanguard Institutional Index Fund	294,032	254,654
Others	327,976	1,003,307
Common/Collective Funds	1,035,904	240,425
Contract Income Fund	488,505	525,587
Managed Accounts:		
JPMorgan Analyst Large Cap Core Fund	309,681	290,465
Other Fund	146,402	143,845
Company Stock Fund	321,246	336,980
ESOP Fund	1,125,645	1,217,397
Total investments	<u>\$ 4,049,475</u>	<u>\$ 4,012,732</u>

The following table presents the investment income for the Plan for the years ended December 31, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Net appreciation (depreciation) in fair value of investments:		
Mutual Funds	\$ 12,489	\$ 171,276
Common/Collective Funds	54,747	122,729
Managed Accounts	44,969	21,841
Company Stock Fund	8,362	124,698
ESOP Fund	(1,130)	420,169
Total net appreciation in fair value of investments	119,437	860,713
Interest and dividends	34,312	43,480
	<u>\$ 153,749</u>	<u>\$ 904,193</u>

Parker Retirement Savings Plan

Notes to Financial Statements (Dollars in Thousands)

5. Nonparticipant-Directed Investments

Information about the net assets and the significant components of the changes in net assets relating to the non-participant directed investments at December 31, 2014 and 2013 is as follows:

	2014	2013
ESOP Fund	\$ 1,125,645	\$ 1,217,397

	Year ended December 31,	
	2014	2013
Changes in Net Assets:		
Employer contributions	\$ 63,857	\$ 62,691
Dividend and interest income	12,074	10,960
Net (depreciation) / appreciation	(1,130)	420,169
Transfers to other plan funds	(84,961)	(82,032)
Distributions to participants	(81,592)	(65,382)
	\$ (91,752)	\$ 346,406

6. Contract Income Fund

The Contract Income Fund holds a portfolio of traditional, separate account and synthetic guaranteed investment contracts (GICs) and other short-term securities. All contracts are fully benefit-responsive.

As required by FASB Accounting Standards Codification (ASC) Topic No. 962, Plan Accounting—Defined Contribution Pension Plans, the Statements of Net Assets Available for Benefits presents the Plan's investments at fair value within the Plan at December 31, 2014 and 2013 as well as the adjustment of the Contract Income Fund investments from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

The average yields earned by the GICs are as follows:

	2014	2013
Average yield earned by entire fund	1.93 %	1.90 %
Return on plan assets for 12 months	1.96 %	1.96 %

Traditional GICs are unsecured, general account obligations of insurance companies. The obligation is backed by the general account assets of the insurance company that writes the investment contract. The crediting rate on this product is typically fixed for the life of the investment. Separate account GICs are investments in a segregated account of assets maintained by an insurance company for the benefit of the investors. The total return of the segregated account assets supports the separate account GICs' return. The crediting rate on this product will reset periodically and it will have an interest rate of not less than 0%.

General fixed maturity synthetic GICs consist of an asset or collection of assets and a benefit responsive, book value wrap contract purchased for the portfolio. The wrap contract provides book value accounting for the asset and assures that book value, benefit responsive payments will be made for participant directed withdrawals. The crediting rate of the contract is set at the start of the contract and typically resets every quarter. Generally, fixed maturity synthetics are held to maturity. The initial crediting rate is established based on the market interest rates at the time the initial asset is purchased and it will have an interest crediting rate of not less than 0%.

Constant duration synthetic GICs consist of a portfolio of securities and a benefit responsive, book value wrap contract purchased for the portfolio. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration, and assures that book value, benefit responsive payments will be made for participant-directed withdrawals. The crediting rate on a constant duration synthetic GIC resets every quarter based on the book value of the contract, the market yield of the underlying assets, the market value of the underlying assets and the average duration of the underlying assets.

Parker Retirement Savings Plan

**Notes to Financial Statements
(Dollars in Thousands)**

6. Contract Income Fund (cont'd)

The crediting rate aims at converging the book value of the contract and the market value of the underlying portfolio over the duration of the contract and therefore will be affected by movements in interest rates and/or changes in the market value of the underlying portfolio. The initial crediting rate is established based on the market interest rates at the time the underlying portfolio is first put together and it will have an interest crediting rate of not less than 0%.

Withdrawals and transfers resulting from certain events, including employer initiated events and changes in the qualification of the Plan may limit the ability of the fund to transact at book or contract value. These events may cause liquidation of all or a portion of a contract at market value. The Plan Administrator does not believe that the occurrence of any event which would limit the Plan's ability to transact at book or contract value is probable.

7. Fair Value Measurements

The following is a summary of the investments held by the Plan that were measured at fair value on a recurring basis as of December 31, 2014.

	Total	Quoted Prices In Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Company Stock Fund	336,980	336,980	—	—
ESOP Fund	1,217,397	1,217,397	—	—
Total at December 31, 2013	<u>\$ 4,012,732</u>	<u>\$ 3,134,148</u>	<u>\$ 878,584</u>	<u>\$ —</u>

Refer to Note 2 for information on the above investments.

Fair values are transferred between levels of the fair value hierarchy when facts and circumstances indicate that a change in the method of estimating the fair value of a financial asset is warranted. At December 31, 2014 and 2013, there were no transfers between levels of the fair value hierarchy.

The following is a description of the valuation methodologies used to measure the fair values in the tables above. There have been no changes in the methodologies used to measure fair value at December 31, 2014 and 2013.

Money Market Fund, Mutual Funds, Company Stock Fund and ESOP Fund: Measured at fair value using quoted market prices.

Common / Collective Funds: Measured at fair value using the funds' closing net asset values. The common / collective funds consist of common stocks and securities convertible into common stock. These investments can be redeemed daily and without any restrictions on the timing of the redemption. Redemption of the entire investment balance generally requires at least a 30-day notice. At December 31, 2014 and 2013, the Plan had no unfunded commitments related to these investments.

Parker Retirement Savings Plan

7. Fair Value Measurements (cont'd)

Contract Income Fund: The short-term investment fund is measured at fair value using quoted market prices. Separate account GICs, fixed maturity synthetic GICs and constant duration synthetic GICs are measured at fair value as provided by FT Interactive, insurance company and the external investment manager based upon the contracts' underlying securities. The underlying securities of separate account GICs primarily include fixed income securities consisting of government and corporate issued bonds and mortgage and asset-backed securities. The underlying securities of the fixed maturity synthetic GICs primarily include investments in commercial, mortgage and asset-backed securities, Freddie Mac and Fannie Mae securities, rate reduction bonds and GNMA project loans. The underlying securities of the constant duration synthetic GICs primarily include fixed income government bonds and asset and mortgage-backed securities index funds, some of which are held in collective trusts. The investments held in the collective trusts can be redeemed daily and without any restriction on the timing of the redemption. At December 31, 2014 and 2013, the Plan had no unfunded commitments related to the investments held in the collective trusts. The traditional GICs are measured at fair value by reference to third-party index rates for instruments with comparable durations.

PIMCO Total Return Portfolio: Measured at fair value using a net asset value per share. The account provides exposure to U. S. Government bonds, corporate bonds, foreign bonds and mortgage bonds. These investments can be redeemed daily and without any restrictions on the timing of the redemption. At December 31, 2014 and 2013, the Plan had no unfunded commitments related to these investments.

JPMorgan Analyst Large Cap Core Fund: Measured at fair value using quoted market prices. The fund holds equity securities, real estate investment trusts and cash (money market fund and collateral held for futures). At December 31, 2014 and 2013, the Plan had no unfunded commitments related to these investments.

The primary investment objective of all investment funds, except the Contract Income Fund, is to obtain a maximum total return and capital appreciation in an amount that at least equals various market-based benchmarks. The primary investment objective of the Contract Income Fund is to provide for a stable rate of return while preserving principal.

8. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated August 1, 2014, that the terms of the Plan and related trust comply with applicable sections of the Internal Revenue Code (IRC). Since receiving the determination letter, the Plan has been amended to provide for various administrative and investment fund changes. The Plan Administrator believes that the Plan continues to be designed and operated in compliance with the applicable provisions of the IRC.

United States generally accepted accounting principles require plan management to evaluate uncertain tax positions taken by the Plan. The Plan Administrator has concluded that as of December 31, 2014 and 2013, there were no uncertain tax positions taken or expected to be taken by the Plan. The Plan has not recognized any interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress.

9. Plan Termination

Although it has not expressed any intent to do so, the Company, by action of its Board of Directors, without further approval by the shareholders, has the right to amend, modify, suspend, or terminate the Plan in its entirety, or as to any subsidiary or operating location. No amendment, modification, suspension, or termination may permit assets held in trust by the trustee to be used for or diverted to purposes other than for the exclusive benefit of participants or their beneficiaries. If the Plan is terminated, all participant accounts would become fully vested.

**Notes to Financial Statements
(Dollars in Thousands)**

10. Party-In-Interest

Certain investments that are held by the Plan are investment funds managed by Fidelity Management Trust Company (Fidelity) and Pyramis Global Advisors Trust Company, a Fidelity Investment Company. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan also holds shares of Parker-Hannifin Corporation common stock. Investment activity related to these shares qualify as party-in-interest transactions.

11. Plan Transfer

As a result of the Company's acquisitions, a qualified defined contribution plan was merged into the Plan during the plan year ended December 31, 2013. The value of the individual participant accounts did not change as a result of the transfer of assets to the Plan.

Net assets of the plan identified below were transferred to the Plan:

<u>Plan Name</u>	<u>Merger Date</u>	<u>Net Assets Transferred</u>
PGI 401(k) Retirement Plan	April 11, 2013	\$ 9,798

12. Reconciliation of Financial Statements to Form 5500

Fully benefit-responsive GICs are recorded on the Form 5500 at fair value while in the Plan's financial statements these investments are presented at fair value with an adjustment to contract value. Notes receivable from participants are reported on the Form 5500 as participant loans and are considered to be plan investments while in the Plan's financial statements they are classified as receivables from participants. On Form 5500, the Plan recorded the fair value of \$93,497 for participant loans, less \$2,870 for deemed distributions to participants, at December 31, 2014.
