Year-to-Date Results

For the first six months of fiscal 2004, the company recorded net income of \$112.5 million, or 95 cents per diluted share on sales of \$3.21 billion. Net income is up 14.1 percent over last year's \$98.5 million, or 84 cents per diluted share on sales of \$3.10 billion.

The company again noted strong cash flow from operations of \$378.2 million, or 12 percent of sales, and will continue to look for growth opportunities, as evidenced by its recent tender offer for shares of Denison International plc, which is expected to close in the third fiscal quarter.

"Acquisitions are still an important part of our accelerated growth plan," said Washkewicz. "We're very excited about Denison's solid, profitable performance in Europe and significant presence in Asia, especially in China. We look forward to adding the Denison product line to Parker's and expanding our total systems capabilities."

Outlook

For the second half of fiscal-year 2004, the company said it expects sales in the Industrial and Other segments to increase modestly, with continued profitability improvements. Sales and margins are expected to be down slightly in the Climate & Industrial Controls segment. In Aerospace, the company said sales should stabilize, but it did not expect near-term margins to improve without a corresponding improvement in aftermarket volume.

"While we are pleased to see some improvement in this quarter's operating performance and in recent order trends, we remain hopeful market conditions will continue to improve," said Washkewicz. "Our balance sheet is getting healthier and we're staying focused on our Win Strategy to drive growth, profitability and cash flow."

NOTICE OF CONFERENCE CALL: Parker Hannifin's conference call and slide presentation to discuss its fiscal second-quarter results is available to all interested parties via live webcast today at 10:00 a.m. ET, on the company's investor information web site, www.phstock.com. With annual sales exceeding \$6 billion, Parker Hannifin is the world's leading diversified manufacturer of motion and control technologies and systems, providing precision-engineered solutions for a wide variety of commercial, mobile, industrial and aerospace markets. The company employs more than 46,000 people in 44 countries around the world. For more information, visit the company's web site at www.parker.com, or its investor information site at www.phstock.com.

Forward-looking statements contained in this and other written and oral reports are made based on known events and circumstances at the time of release, and as such, are subject in the future to unforeseen uncertainties and risks. All statements regarding future performance, earnings projections, events or developments are forward-looking statements. It is possible that the future performance and earnings projections of the company and individual segments may differ materially from current expectations, depending on economic conditions within both its industrial and aerospace markets, and the company's ability to achieve anticipated benefits associated with announced realignment activities, strategic initiatives to improve operating margins, and growth initiatives. A change in economic conditions in individual markets may have a particularly volatile effect on segment results. Among the other factors which may affect future performance are: changes in business relationships with and purchases by or from major customers or suppliers, including delays or cancellations in shipments; uncertainties surrounding timing, successful completion or integration of acquisitions; threats associated with and efforts to combat terrorism; competitive market conditions and resulting effects on sales and pricing; increases in raw-material costs that cannot be recovered in product pricing; and global economic factors, including currency exchange rates, difficulties entering new markets and general economic conditions such as interest rates. The company makes these statements as of the date of this disclosure, and undertakes no obligation to update them.

- Fiscal Year 2004 Outlook
- Questions & Answers

Non-GAAP Financial Measure

This presentation reconciles sales amounts reported in accordance with U.S. GAAP to sales amounts adjusted to remove the effects of acquisitions and divestitures made within the prior four quarters as well as the effects of currency exchange rates on sales. The effects of acquisitions and divestitures and currency exchange rates are removed to allow investors and the company to meaningfully evaluate changes in sales on a comparable basis from period to period.

EPS - 2nd Quarter

Note: FY04 2Q EPS was reduced by \$0.02 for business realignment charges. FY03 2Q EPS was reduced by \$0.03 for business realignment charges and \$0.02 for an equity investment adjustment.
