Parker Reports Record First Quarter Sales and All Time Quarterly Records for Income from Continuing Operations and Earnings per Share
CLEVELAND, October 18, 2006 - Parker Hannifin (NYSE: PH), the world leader in motion and control technologies, today reported record first quarter sales and all time records for income from continuing operations and earnings per share.

For the first quarter of fiscal-year 2007, sales were $\$ 2.6$ billion, up 20.7 percent, as compared to sales of $\$ 2.1$ billion during the same period last year. Income from continuing operations was $\$ 210.6$ million, an increase of 46.4 percent from the $\$ 143.8$ million posted in the same period last year. Earnings per diluted share from continuing operations were $\$ 1.75$, an all time quarterly record, versus the $\$ 1.19$ reported in the same period a year ago. Cash flow from operations was $\$ 114.5$ million after discretionary contributions of $\$ 111.0$ million to the company's employee pension funds. Total segment operating margin was 14.9 percent.
"Clearly, our current results are demonstrating that Parker's Win Strategy is working," said Chairman and CEO Don Washkewicz. "Our employees around the world have fundamentally changed the company through their continued dedication and hard work. Our
focus on premier customer service, financial performance, and profitable growth continues to deliver powerful results for Parker shareholders."

## First Quarter Segment Results

In the North American Industrial segment, first quarter operating income improved 11.7 percent over the prior year to $\$ 153.1$ million, on sales of $\$ 1.0$ billion.
In the International Industrial segment, first quarter operating income increased 58.5 percent over the prior year to $\$ 127.5$ million, on sales of $\$ 877.7$ million.
In the Aerospace segment, first quarter operating income increased 25.3 percent over the prior year to $\$ 68.6$ million, on sales of $\$ 402.4$ million.
In the Climate \& Industrial Controls segment, first quarter operating income increased 65.6 percent over the prior year to $\$ 30.8$ million, on sales of $\$ 270.7$ million.

## Highlights

"The 14.9 percent operating margin we produced this quarter is right at our corporate goal, and is a level we have not seen in almost ten years," said Washkewicz. "On a year over year basis, the Climate \& Industrial Controls and the Industrial International segments improved their margins substantially, while the North America Industrial and Aerospace segments also improved on what were already very strong performances. We attribute our margin improvement to the relentless global execution of our Win Strategy."

Washkewicz also noted strong sales in Europe and Asia coupled with solid growth in North America. "We continue to grow the company at a double digit rate through our proven mix of globalization, organic growth and strategic acquisitions," said Washkewicz. "We generated organic growth of over eight percent this quarter. Customer service, innovative products, system solutions and our global network of thousands of distribution partners continue to be the drivers of our successful revenue growth."

The company completed two strategic acquisitions during the quarter, Acofab, a leading European supplier of EMI shielding and thermal management products, and Acal Air Conditioning and Refrigeration, a global sales and service organization.
"Our cash flow from operations remained strong, enabling us to make discretionary contributions of $\$ 111.0$ million to our employees' pension funds," Washkewicz continued. "Cash was also used to repurchase $\$ 195.7$ million of stock during the quarter."

## Outlook

The company raised its annual earnings guidance for fiscal year 2007 to a range of $\$ 6.05$ to $\$ 6.45$ per diluted share.
"Ultimately, it is our ability to partner with our customers to increase their productivity and profitability, in hundreds of markets and thousands of applications, that bodes well for our continued success," said Washkewicz.

In addition to this information, Parker advises shareholders to note order trends, for which the company makes a disclosure several business days after the conclusion of each month. This information is available on the company's investor information web site, at www.phstock.com.

NOTICE OF CONFERENCE CALL: Parker Hannifin's conference call and slide presentation to discuss its fiscal first-quarter results is available to all interested parties via live webcast today at 10:00 a.m. ET, on the company's investor information web site, www.phstock.com. To access the call, click on the "Live Webcast" link. From this link, users also may complete a pre-call system test and register for e-mail notification of future events and information available from Parker.

With annual sales exceeding \$9 billion, Parker Hannifin is the world's leading diversified manufacturer of motion and control technologies and systems, providing precisionengineered solutions for a wide variety of commercial, mobile, industrial and aerospace markets. The company employs more than 57,000 people in 43 countries around the world. Parker has increased its annual dividends paid to shareholders for 50 consecutive years, among the top five longest-running dividend-increase records in the S\&P 500 index. For more information, visit the company's web site at www.parker.com, or its investor information site at www.phstock.com.

## Forward-Looking Statements:

Forward-looking statements contained in this and other written reports and oral statements are made based on known events and circumstances at the time of release, and as such, are subject in the future to unforeseen uncertainties and risks. All statements regarding future performance, earnings projections, events or developments are forwardlooking statements. It is possible that the Company's future performance and earnings projections of the Company may differ materially from current expectations, depending on economic conditions within both its industrial and aerospace markets, and the Company's ability to maintain and achieve anticipated benefits associated with announced realignment activities, strategic initiatives to improve operating margins and growth and innovation initiatives. A change in economic conditions in individual markets may have a particularly volatile effect on segment performance. Among other factors which may affect future performance are: changes in business relationships with and purchases by or from major customers or suppliers, including delays or cancellations in shipments, or significant changes in financial condition, uncertainties surrounding timing, successful completion or integration of acquisitions, threats associated with and efforts to combat terrorism, competitive market conditions and resulting effects on sales and pricing, increases in raw material costs that cannot be recovered in product pricing, the Company's ability to manage costs related to insurance and employee retirement and health care benefits, and global economic factors, including manufacturing activity, air travel trends, currency exchange rates, difficulties entering new markets and general economic conditions such as interest rates. The Company undertakes no obligation to update or publicly revise these forward-looking statements to reflect events or circumstances that arise after the date of this report.

## Parker Hannifin Corporation

## Quarterly Earnings Release $1^{\text {st }}$ Quarter FY 2007

## October 18, 2006

## Forward-Looking Statements

## Forward-Looking Statements:

Forward-looking statements contained in this and other written and oral reports are made based on known events and circumstances at the time of release, and as such, are subject in the future to unforeseen uncertainties and risks. All statements regarding future performance, earnings projections, events or developments are forward-looking statements. It is possible that the future performance and earnings projections of the company and individual segments may differ materially from current expectations, depending on economic conditions within both its industrial and aerospace markets, and the company's ability to maintain and achieve anticipated benefits associated with announced realignment activities, strategic initiatives to improve operating margins, and growth and innovation initiatives. A change in economic conditions in individual markets may have a particularly volatile effect on segment results. Among the other factors which may affect future performance arechanges in business relationships with and purchases by or from major customers or suppliers, includingdelays or cancellations in shipments or significant changes in financial condition; uncertainties surrounding timing, successful completion or integration of acquisitions; threats associated with and effortso combat terrorism; competitive market conditions and resulting effects on sales and pricing; increasesn raw-material costs that cannot be recovered in product pricing; the company's ability to manage costs related to employee retirement and health care benefits and insurance; and global economic factorsincluding manufacturing activity, air travel trends, currency exchange rates, difficulties entering new markets and general economic conditions such as inflation and interest rates. The company makes these statements as of the date of this disclosure, and undertakes no obligation to update them.

## Non-GAAP Financial Measure

This presentation reconciles sales amounts reported in accordance with U.S. GAAP to sales amounts adjusted to remove the effects of acquisitions made within the prior four quarters as well as the effects of currency exchange rates on sales. The effects of acquisitions and currency exchange rates are removed to allow investors and the company to meaningfully evaluate changes in sales on a comparable basis from period to period.
