PARKER-HANNIFIN CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
Dollars in thousands, except per share amounts

1. Management representation

In the opinion of the management of the Company, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of March 31, 2013, the results of operations for the nine months ended March 31, 2013 and 2012 and cash flows for the nine months then ended. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in the Company's 2012 Annual Report on Form 10-K and previously filed fiscal 2013 Form 10-Q's. Interim period results are not necessarily indicative of the results to be expected for the full fiscal year.

The Company has evaluated subsequent events that have occurred through the date these financial statements were issued. No subsequent events have occurred that required adjustment to or disclosure in these financial statements.

2. New accounting pronouncements

In February 2013, the Financial Accounting Standards Board (FASB) issued new accounting guidance requiring an entity to provide information about the amounts reclassified out of accumulated other comprehensive income (AOCI) by component. For items reclassified out of AOCI in their entirety, the disclosure of the income statement line where those items are reflected is also required. Cross-reference to disclosures providing additional information is required for other items not reclassified in their entirety. The guidance does not change the current requirements for reporting net income or other comprehensive income. The guidance, which must be presented prospectively, is effective for fiscal years, and interim periods within those years, beginning after December 15, 2012.

3. Product warranty

In the ordinary course of business, the Company warrants its products against defects in design, materials and workmanship over various time periods. The warranty accrual as of March 31, 2013 and June 30, 2012 is immaterial to the financial position of the Company and the change in the accrual for the current quarter and first nine months of fiscal 2013 is immaterial to the Company's results of operations and cash flows.

4. Earnings per share

The following table presents a reconciliation of the numerator and denominator of basic and diluted earnings per share for the three and nine months ended March 31, 2013 and 2012.

	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2013	2012	2013	2012
Numerator:				
Net income attributable to common shareholders	\$ 256,560	\$ 312,074	\$ 677,263	\$ 849,858
Denominator:				
Basic - weighted average common shares	149,287,628	151,017,910	149,191,583	151,472,380
Increase in weighted average common shares from dilutive effect of equity-based awards	3,072,984	3,926,336	2,661,939	3,432,169
Diluted - weighted average common shares, assuming exercise of equity-based awards	152,360,612	154,944,246	151,853,522	154,904,549
Basic earnings per share	\$ 1.72	\$ 2.07	\$ 4.54	\$ 5.61
Diluted earnings per share	\$ 1.68	\$ 2.01	\$ 4.46	\$ 5.49

For the three months ended March 31, 2013 and 2012, 345,779 and 74,554 common shares subject to equity-based awards, respectively, were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive. For the nine months ended March 31, 2013 and 2012, 1,160,648 and 764,508 common shares subject to equity-based awards, respectively, were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive.

5. Share repurchase program

The Company has a program to repurchase its common shares. Under the program, the Company is authorized to repurchase an amount of common shares each fiscal year equal to the greater of 7.5 million shares or five percent of the shares outstanding as of the end of the prior fiscal year. Repurchases are funded primarily from operating cash flows and commercial paper borrowings, and the shares are initially held as treasury stock. During the three-month period ended March 31, 2013, the Company repurchased 529,000 shares at an average price, including commissions, of \$92.90 per share. Fiscal year-to-date, the Company repurchased 2,460,762 shares at an average price, including commissions, of \$83.84 per share.

6. Accounts receivable, net

The Accounts receivable, net caption in the Consolidated Balance Sheet is comprised of the following components:

	March 31, 2013	June 30, 2012
Accounts receivable, trade	\$ 1,816,475	\$ 1,792,961
Allowance for doubtful accounts	(13,089)	(10,518)
Non-trade accounts receivable	101,961	84,872
Notes receivable	111,779	124,969
Total	\$ 2,017,126	\$ 1,992,284

Accounts receivable, trade are initially recorded at their net collectible amount and are generally recorded at the time the revenue from the sales transaction is recorded. Receivables are written off to bad debt primarily when, in the judgment of the Company, the receivable is deemed to be uncollectible due to the insolvency of the debtor.

7. Business realignment charges

To structure its businesses in light of current and anticipated customer demand, the Company incurred business realignment charges in fiscal 2013 and fiscal 2012.

Business realignment charges by business segment are as follows:

	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2013	2012	2013	2012
Industrial	\$ 1,688	\$ 3,133	\$ 6,826	\$ 10,031
Climate & Industrial Controls	263	192	630	340

Work force reductions in connection with such business realignment charges by business segment are as follows:

	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2013	2012	2013	2012
Industrial	183	152	501	356
Climate & Industrial Controls	1	8	31	12

The charges primarily consist of severance costs related to plant closures as well as general work force reductions implemented by various operating units throughout the world. In addition, \$1,918 of severance costs for 98 people have been recognized in connection with the Company's divestiture of its Turkey refrigeration components business and is reflected in the other expense caption in the Business Segment Information for the first nine months of fiscal 2013. The realignment charges for the three and nine months ended March 31, 2012 also include charges related to enhanced retirement benefits. The Company believes the realignment actions will positively impact future results of operations but will not have a material effect on liquidity and sources and uses of capital.

The business realignment charges are presented in the Consolidated Statement of Income as follows:

	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2013	2012	2013	2012
Cost of sales	\$ 1,474	\$ 3,314	\$ 5,578	\$ 9,966
Selling, general and administrative expenses	477	11	1,878	405
Other (income) expense, net	—	—	1,918	—

As of March 31, 2013, approximately \$6.5 million in severance payments have been made relating to charges incurred during fiscal 2013, with the majority of the remaining payments expected to be made by September 30, 2013. All required severance payments have been made relating to charges incurred in fiscal 2012. Additional charges to be recognized in future periods related to the realignment actions described above are not expected to be material.

8. Equity

As of July 1, 2012, the Company adopted the provisions of FASB Accounting Standards Update No. 2011-05, "Presentation of Comprehensive Income." As a result of this adoption, the Company has presented total comprehensive income in a separate Statement of Comprehensive Income.

9. Goodwill and intangible assets

The changes in the carrying amount of goodwill for the nine months ended March 31, 2013 are as follows:

	Industrial Segment	Aerospace Segment	Climate & Industrial Controls Segment	Total
Balance at June 30, 2012	\$ 2,518,121	\$ 98,674	\$ 309,061	\$ 2,925,856

Acquisitions represent the original goodwill allocation, purchase price adjustments, and final adjustments to the purchase price allocation for the acquisitions during the measurement period subsequent to the applicable acquisition dates. The Company's previously reported results of operations and financial position would not be materially different had the goodwill adjustments recorded during the first nine months of fiscal 2013 been reflected in the same reporting period in which the initial purchase price allocations for those acquisitions were made.

Divestitures represent goodwill associated with businesses divested during the first nine months of fiscal 2013 as more fully discussed in Note 13.

Intangible assets are amortized on the straight-line method over their legal or estimated useful lives. The following summarizes the gross carrying value and accumulated amortization for each major category of intangible assets:

	March 31, 2013		June 30, 2012	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Patents	\$ 140,610	\$ 72,831	\$ 118,034	\$ 66,303

Total	<u>\$ 1,991,013</u>	<u>\$ 677,023</u>	<u>\$ 1,686,873</u>	<u>\$ 591,655</u>

Total intangible amortization expense for the nine months ended March 31, 2013 was \$88,431. The estimated amortization expense for the five years ending June 30, 2013 through 2017 is \$117,553, \$119,448, \$114,449, \$109,433, and \$105,646, respectively.

Intangible assets are evaluated for impairment whenever events or circumstances indicate that the undiscounted net cash flows to be generated by their use over their expected useful lives and eventual disposition may be less than their net carrying value. No such events or circumstances occurred during the nine months ended March 31, 2013.

10. Retirement benefits

Net pension benefit cost recognized included the following components:

	Three Months Ended March 31,		Nine Months Ended March 31,

Net postretirement benefit cost	<u>\$ 1,361</u>	<u>\$ 1,113</u>	<u>\$ 3,698</u>	<u>\$ 3,495</u>

11. Income taxes

As of March 31, 2013, the Company had gross unrecognized tax benefits of \$109,292. The total amount of gross unrecognized tax benefits that, if recognized, would affect the effective tax rate was \$64,136. If recognized, a significant portion of the gross unrecognized tax benefits would be offset against an asset currently recorded in the Consolidated Balance Sheet. The accrued interest related to the gross unrecognized tax benefits, excluded from the amounts above, was \$2,560.

The Company and its subsidiaries file income tax returns in the United States and in various foreign jurisdictions. In the normal course of business, the Company is subject to examination by taxing authorities throughout the world. The Company is no longer subject to examinations of its federal income tax returns by the United States Internal Revenue Service for fiscal years through 2010. All significant state, local and foreign tax returns have been examined for fiscal years through 2003. The Company does not anticipate that the total amount of gross unrecognized tax benefits will significantly change due to the settlement of examinations and the expiration of statute of limitations within the next twelve months.

12. Financial instruments and fair value measurement

The Company's financial instruments consist primarily of cash and cash equivalents, long-term investments, and accounts receivable as well as obligations under accounts payable, trade, notes payable and long-term debt. Due to their short-term nature, the carrying values for cash and cash equivalents, accounts receivable, accounts payable, trade and notes payable approximate fair value. The carrying value of long-term debt (excluding capital leases) and estimated fair value of long-term debt (excluding capital leases) are as follows:

	March 31, 2013	June 30, 2012
Carrying value of long-term debt (excluding capital leases)	\$ 1,498,550	\$ 1,728,983
Estimated fair value of long-term debt (excluding capital leases)	1,766,208	2,005,887

The fair value of long-term debt was estimated using a discounted cash flow analysis based on the Company's current incremental borrowing rate for similar types of borrowing arrangements.

The Company utilizes derivative and non-derivative financial instruments, including forward exchange contracts, costless collar contracts, cross-currency swap contracts and certain foreign denominated debt designated as net investment hedges, to manage foreign currency transaction and translation risk. The derivative financial instrument contracts are with major investment grade financial institutions and the Company does not anticipate any material non-performance by any of the counterparties. The Company does not hold or issue derivative financial instruments for trading purposes.

The Company's Euro bonds and Japanese Yen credit facility have each been designated as a hedge of the Company's net investment in certain foreign subsidiaries. The translation of the Euro bonds and Japanese Yen credit facility into U.S. dollars is recorded in accumulated other comprehensive income (loss) and remains there until the underlying net investment is sold or substantially liquidated.

Derivative financial instruments are recognized on the Consolidated Balance Sheet as either assets or liabilities and are measured at fair value. Derivatives consist of forward exchange, costless collar and cross-currency swap contracts the fair value of which is calculated using market observable inputs including both spot and forward prices for the same underlying currencies. The fair value of the cross-currency swap contracts is calculated using a present value cash flow model that has been adjusted to reflect the credit risk of either the Company or the counterparty.

The following summarizes the location and fair value of derivative financial instruments reported in the Consolidated Balance Sheet as of March 31, 2013 and June 30, 2012:

	Balance Sheet Caption	March 31, 2013	June 30, 2012
Net investment hedges			
Cross-currency swap contracts	Other liabilities	\$ 11,813	\$ 2,008
Cash flow hedges			
Costless collar contracts	Accounts receivable	1,232	2,466
Forward exchange contracts	Accounts receivable	—	1,887
Costless collar contracts	Other accrued liabilities	3,728	552
Forward exchange contracts	Other accrued liabilities	8,272	—

12. Financial instruments and fair value measurement, cont'd

The fair values at March 31, 2013 and June 30, 2012 are classified within level 2 of the fair value hierarchy. There are no other financial assets or financial liabilities that are marked to market on a recurring basis. Fair values are transferred between levels of the fair value hierarchy when facts and circumstances indicate that a change in the method of estimating the fair value of a financial asset or financial liability is warranted.

Gains or losses on derivatives that are not hedges are adjusted to fair value through the cost of sales caption in the Consolidated Statement of Income. Gains or losses on derivatives that are hedges are adjusted to fair value through accumulated other comprehensive income (loss) in the Consolidated Balance Sheet until the hedged item is recognized in earnings.

The cross-currency swap contracts have been designated as hedging instruments. The costless collar contracts and forward exchange contracts have not been designated as hedging instruments and are considered to be economic hedges of forecasted transactions.

Gains (losses) on derivative financial instruments that were recorded in the Consolidated Statement of Income are as follows:

	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2013	2012	2013	2012
Forward exchange contracts	\$ (5,724)	\$ 11,031	\$ (10,288)	\$ (3,557)
Costless collar contracts	(5,047)	(1,252)	(1,875)	4,598

Gains (losses) on derivative and non-derivative financial instruments that were recorded in accumulated other comprehensive income (loss) in the Consolidated Balance Sheet are as follows:

	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2013	2012	2013	2012
Cross-currency swap contracts	\$ 6,106	\$ (6,633)	\$ (6,057)	\$ 10,682
Foreign denominated debt	8,021	(1,268)	5,165	15,397

There was no ineffectiveness of the cross-currency swap contracts or foreign denominated debt, nor was any portion of these financial instruments excluded from the effectiveness testing, during the nine months ended March 31, 2013 and 2012.

13. Acquisitions and divestitures

Acquisitions - During the first nine months of fiscal 2013, the Company completed eight acquisitions whose aggregate sales for their most recent fiscal year prior to acquisition were \$484 million. Total purchase price for the eight acquisitions was approximately \$621 million in cash and \$114 million in assumed debt.

Divestitures - During the first nine months of fiscal 2013, the Company divested the automotive businesses of its Mobile Climate Systems division and its Turkey refrigeration components business. Both of these businesses were part of the Climate & Industrial Controls Segment and had combined revenues of approximately \$158 million for their most recent fiscal year. The Company recorded a net pre-tax gain in the first nine months of fiscal 2013 of approximately \$17 million related to the divestitures. The gain is reflected in the other (income) expense, net caption in the Consolidated Statement of Income.

PARKER-HANNIFIN CORPORATION
FORM 10-Q
ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS
FOR THE THREE AND NINE MONTHS ENDED MARCH 31, 2013
AND COMPARABLE PERIODS ENDED MARCH 31, 2012

OVERVIEW

The Company is a leading worldwide diversified manufacturer of motion and control technologies and systems, providing precision engineered solutions for a wide variety of mobile, industrial and aerospace markets.

The Company's order rates provide a near-term perspective of the Company's outlook particularly when viewed in the context of prior and future order rates. The Company publishes its order rates on a quarterly basis. The lead time between the time an order is received and revenue is realized generally ranges from one day to 12 weeks for mobile and industrial orders and from one day to 18 months for aerospace orders. The Company believes the leading economic indicators of these markets that have a strong correlation to the Company's future order rates are as follows:

- Purchasing Managers Index (PMI) on manufacturing activity specific to regions around the world with respect to most mobile and industrial markets;
- Global aircraft miles flown and global revenue passenger miles for commercial aerospace markets and Department of Defense spending for military aerospace markets; and
- Housing starts with respect to the North American residential air conditioning market and certain mobile construction markets.

A PMI above 50 indicates that the manufacturing activity specific to a region of the world in the mobile and industrial markets is expanding. A PMI below 50 indicates the opposite. Recent PMI levels for some regions around the world were as follows:

	March 31, 2013	December 31, 2012	June 30, 2012
United States	51.3	50.7	49.7
Eurozone countries	46.8	46.1	45.1
China	51.6	51.5	48.2

Global aircraft miles flown have increased approximately two percent from the comparable fiscal 2012 level and global revenue passenger miles have increased approximately three percent from the comparable fiscal 2012 level. The Company anticipates that U.S. Department of Defense spending with regard to appropriations and operations and maintenance for the U.S. Government's fiscal year 2013 will be slightly up from the comparable fiscal 2012 level.

Housing starts in March 2013 were approximately 47 percent higher than housing starts in March 2012 and were approximately 9 percent higher than housing starts in December 2012.

The Company remains focused on maintaining its financial strength by adjusting its cost structure to reflect changing demand levels, maintaining a strong balance sheet and managing its cash. The Company has been able to borrow funds at affordable interest rates and had a debt to debt-shareholders' equity ratio of 35.9 percent at March 31, 2013 compared to 27.5 percent at December 31, 2012 and 26.1 percent at June 30, 2012. Net of cash and cash equivalents, the debt to debt-shareholders' equity ratio was 19.9 percent at March 31, 2013 compared to 22.2 percent at December 31, 2012 and 15.4 percent at June 30, 2012.

The Company believes many opportunities for profitable growth are available. The Company intends to focus primarily on business opportunities in the areas of energy, water, agriculture, environment, defense, life sciences, infrastructure and transportation.

The Company believes it can meet its strategic objectives by:

- Serving the customer;
- Successfully executing its Win Strategy initiatives relating to premier customer service, financial performance and profitable growth;
- Maintaining its decentralized division and sales company structure;
- Fostering an entrepreneurial culture;
- Engineering innovative systems and products to provide superior customer value through improved service, efficiency and productivity;
- Delivering products, systems and services that have demonstrable savings to customers and are priced by the value they deliver;
- Acquiring strategic businesses;
- Organizing around targeted regions, technologies and markets;
- Driving efficiency by implementing lean enterprise principles; and
- Creating a culture of empowerment through its values, inclusion and diversity, accountability and teamwork.

During the first nine months of fiscal 2013, the Company completed eight acquisitions whose aggregate sales for their most recent fiscal year prior to acquisition were \$484 million. Acquisitions will continue to be considered from time to time to the extent there is a strong strategic fit, while at the same time, maintaining the Company's strong financial position. During the first nine months of fiscal 2013, the Company divested the automotive businesses of the Mobile Climate Systems division and the Turkey refrigeration components business. Both of the divested businesses were part of the Climate & Industrial Controls Segment. The Company recognized a net pre-tax gain of \$17 million related to the divestitures. The Company will continue to assess its existing businesses and initiate efforts to divest businesses that are not considered to be a good long-term strategic fit for the Company. Future business divestitures could have a negative effect on the Company's results of operations.

The discussion below is structured to separately discuss the Consolidated Statement of Income, Results by Business Segment, Consolidated Balance Sheet and Consolidated Statement of Cash Flows.

CONSOLIDATED STATEMENT OF INCOME

(dollars in millions)	Three Months Ended March 31,		Nine Months Ended March 31,	
	2013	2012	2013	2012

Net income, as a percent of sales	7.8%	9.2%	7.1%	8.8%

Net sales for the current-year quarter and first nine months of fiscal 2013 decreased from the comparable prior-year periods primarily due to lower volume experienced in the Industrial International businesses and the Climate & Industrial Controls Segment offsetting slightly higher volume experienced in the Aerospace Segment. Net sales for the first nine months of fiscal 2013 benefited from slightly higher sales in the North American Industrial businesses. Acquisitions made in the last 12 months contributed approximately \$134 million and \$343 million in sales in the current-year quarter and first nine months of fiscal 2013, respectively. The effect of currency rate changes decreased net sales by approximately \$23 million in the current-year quarter and \$133 million for the first nine months of fiscal 2013.

Gross profit margin declined in the current-year quarter and first nine months of fiscal 2013 primarily due to higher defined benefit costs in all Segments, operating inefficiencies in the Industrial Segment and higher engineering development costs in the Aerospace Segment. Gross profit margin for the first nine months of fiscal 2013 was also adversely impacted by an unfavorable product mix in the Aerospace Segment.

Selling, general and administrative expenses increased slightly for the current-year quarter primarily due to an increase in intangible asset amortization expense and acquisition-related expenses as well as higher net expenses associated with the Company's incentive and deferred compensation programs. Selling, general and administrative expenses for the first nine months of fiscal 2013 were higher primarily due to an increase in intangible asset amortization expense partially offset by lower net expenses associated with the Company's incentive and deferred compensations programs.

Interest expense for the current-year quarter and first nine months of fiscal 2013 increased primarily due to higher weighted-average borrowings and higher interest rates on commercial paper borrowings.

Other (income) expense, net for the first nine months of fiscal 2013 includes a net gain of approximately \$17 million related to the divestiture of the automotive businesses of the Mobile Climate Systems division and the Turkey refrigeration components business.

Effective tax rate for the current-year quarter and first nine months of fiscal 2013 was higher than the comparable prior-year rates primarily due to an unfavorable geographical mix of earnings and the settlement of tax audits in the prior-year periods. The effective tax rate for the first nine months of fiscal 2013 was also adversely impacted by the tax effects of business divestitures. The unfavorable impact of these items was partially offset by the enactment of the American Taxpayer Relief Act on January 2, 2013. The Company expects the effective tax rate for fiscal 2013 will be approximately 28 percent.

RESULTS BY BUSINESS SEGMENT

Backlog	\$ 1,714.4	\$ 1,887.8	\$ 1,714.4	\$ 1,887.8

The Industrial Segment operations experienced the following percentage changes in net sales in the current-year period compared to the comparable prior-year period:

	Period ending March 31,	
	Three Months	Nine Months
Industrial North America – as reported	(2.4)%	1.2 %
Acquisitions	5.5 %	4.6 %
Currency	(0.1)%	— %
Industrial North America – without acquisitions and currency	(7.8)%	(3.4)%
Industrial International – as reported	(3.5)%	(5.5)%
Acquisitions	4.8 %	4.6 %
Currency	(1.7)%	(3.4)%
Industrial International – without acquisitions and currency	(6.6)%	(6.7)%
Total Industrial Segment – as reported	(3.0)%	(2.2)%
Acquisitions	5.1 %	4.6 %
Currency	(0.9)%	(1.7)%
Total Industrial Segment – without acquisitions and currency	(7.2)%	(5.1)%

The above presentation reconciles the percentage changes in net sales of the Industrial Segment operations reported in accordance with U.S. GAAP to percentage changes in net sales adjusted to remove the effects of acquisitions made within the prior four fiscal quarters as well as the effects of currency exchange rates. The effects of acquisitions and currency exchange rates are removed to allow investors and the Company to meaningfully evaluate the percentage changes in net sales on a comparable basis from period to period.

Excluding the effects of acquisitions and changes in currency exchange rates, the decrease in Industrial North American sales for the current-year quarter and first nine months of fiscal 2013 is primarily the result of lower demand from distributors as well as from end-users in most markets with the largest sales decline occurring in the construction equipment, oil and gas, mining, automotive and machine tool markets. The decrease in Industrial International sales for the current-year quarter and first nine months of fiscal 2013 is primarily attributable to lower volume across most markets in all regions with the largest decrease equally distributed between Europe and the Asia Pacific region.

The decrease in operating margins in the Industrial North American businesses is primarily due to an unfavorable product mix and operating inefficiencies resulting from the decrease in sales volume partially offset by the favorable effect of lower raw material prices. The decrease in operating margins in the Industrial International businesses is primarily due to the lower sales volume, resulting in operating inefficiencies, as well as the impact of integration costs related to current-year acquisitions.

The following business realignment expenses are included in Industrial North America and Industrial International operating income:

(dollars in millions)	Three Months Ended March 31,		Nine Months Ended March 31,	
	2013	2012	2013	2012
Industrial North America	\$ 0.7	\$ 2.0	\$ 1.1	\$ 3.0
Industrial International	1.0	1.1	5.7	7.0

The business realignment charges consist primarily of severance costs resulting from plant closures as well as general reductions in work force. The Industrial North America business realignment charges for the prior-year quarter also include expenses associated with enhanced retirement benefits. The Company does not anticipate that cost savings realized from the work force reductions taken during the first nine months of fiscal 2013 will have a material impact on future operating margins. The Company expects to continue to take the actions necessary to structure appropriately the operations of the Industrial Segment. Such actions may include the necessity to record additional business realignment charges in the remainder of fiscal 2013, the timing and amount of which has not been finalized.

The decrease in backlog from the prior-year quarter is primarily due to lower order rates in virtually all of the Industrial North American and Industrial International businesses with the decline in backlog split evenly between Industrial North America and Industrial International. The decrease in backlog from the June 30, 2012 amount of \$1,813.7 million is primarily attributable to lower order rates in the Industrial North American businesses. The Company anticipates Industrial North American sales for fiscal 2013 will range from a decrease of 0.1 percent to an increase of 1.9 percent from the fiscal 2012 level and Industrial International sales for fiscal 2013 will decrease between 4.3 percent and 1.5 percent from the fiscal 2012 level. Industrial North American operating margins in fiscal 2013 are expected to range from 16.8 percent to 17.0 percent and Industrial International operating margins are expected to range from 12.4 percent to 12.8 percent. The lower expected sales and operating margin levels in 2013 are primarily due to anticipated weakness in the Industrial Segment markets for the remainder of fiscal 2013.

Aerospace Segment

(dollars in millions)	Three Months Ended March 31,		Nine Months Ended March 31,	
	2013	2012	2013	2012
Net sales	\$ 578.0	\$ 542.8	\$ 1,647.8	\$ 1,536.8
Operating income	\$ 80.1	\$ 65.9	\$ 194.2	\$ 204.8
Operating margin	13.9%	12.1%	11.8%	13.3%
Backlog	\$ 1,944.7	\$ 1,925.7	\$ 1,944.7	\$ 1,925.7

The increase in net sales in the Aerospace Segment for the current-year quarter is primarily due to higher volume in both the commercial and military original equipment manufacturer (OEM) and aftermarket businesses. The increase in net sales for the first nine months of fiscal 2013 is primarily due to higher volume in both the commercial and military OEM businesses as well as the military aftermarket business partially offset by lower volume in the commercial aftermarket business. The higher margins in the current-year quarter were primarily due to the higher sales volume and a favorable product mix. The lower margins for the first nine months of fiscal 2013 were primarily due to higher engineering development costs more than offsetting the benefit of the higher sales volume and the current-year quarter favorable product mix.

The increase in backlog from the prior-year quarter is primarily due to higher order rates in the commercial aftermarket business more than offsetting a decline in order rates in both the commercial and military OEM businesses and the military aftermarket business. The increase in backlog from the June 30, 2012 amount of \$1,862.0 million is primarily due to higher order rates in the military OEM and commercial aftermarket businesses partially offset by a decline in order rates in the commercial OEM and military aftermarket businesses. For fiscal 2013, sales are expected to increase between 7.1 percent and 9.1 percent from the fiscal 2012 level and operating margins are expected to range from 12.3 percent to 12.5 percent. A higher concentration of commercial OEM volume in future product mix and higher than expected new product development costs could result in lower margins.

Climate & Industrial Controls Segment

(dollars in millions)	Three Months Ended March 31,		Nine Months Ended March 31,	
	2013	2012	2013	2012
Net sales	\$ 203.9	\$ 248.7	\$ 605.0	\$ 699.3
Operating income	\$ 21.3	\$ 23.2	\$ 51.2	\$ 52.8
Operating margin	10.5 %	9.3 %	8.5 %	7.6 %
Backlog	\$ 126.5	\$ 178.0	\$ 126.5	\$ 178.0

The Climate & Industrial Controls (CIC) Segment operations experienced the following percentage changes in net sales in the current-year period compared to the comparable prior-year period:

	Period ending March 31,	
	Three Months	Nine Months
CIC Segment – as reported	(18.0)%	(13.5)%
Currency	(0.3)%	(0.6)%
CIC Segment – without currency	(17.7)%	(12.9)%

The above presentation reconciles the percentage changes in net sales of the CIC Segment operations reported in accordance with U.S. GAAP to percentage changes in net sales adjusted to remove the effects of currency exchange rates. The effects of currency exchange rates are removed to allow investors and the Company to meaningfully evaluate the percentage changes in net sales on a comparable basis from period to period.

Excluding the effects of changes in currency exchange rates, the decrease in net sales in the CIC Segment for the current-year quarter and first nine months of fiscal 2013 is primarily due to the absence of sales from businesses divested in fiscal 2013 as well as lower volume in the commercial refrigeration and air conditioning markets. Operating margins in the current-year quarter and first nine months of fiscal 2013 were higher than the prior-year comparable periods primarily due to spending control efforts and lower raw material prices more than offsetting the impact of the decrease in sales volume. Business realignment charges recorded by the CIC Segment in fiscal 2013 and fiscal 2012 were not significant. The Company may take further actions to structure appropriately the operations of the CIC Segment. Such actions may include the necessity to record business realignment charges in the remainder of fiscal 2013, the timing and amount of which has not been finalized.

In fiscal 2013, the Company completed the divestiture of the automotive businesses of the Mobile Climate Systems division and its Turkey refrigeration components business. For fiscal 2013, sales are expected to decrease between 14.8 percent and 12.4 percent from the fiscal 2012 level and operating margins are expected to range from 9.6 percent to 10.0 percent. The expected fiscal 2013 sales and operating margins take into consideration the absence of sales and operating margins of each of the divested businesses for the remainder of fiscal 2013.

Corporate general and administrative expenses

Corporate general and administrative expenses were \$41.4 million in the current-year quarter compared to \$38.4 million in the prior-year quarter and were \$126.6 million for the first nine months of fiscal 2013 compared to \$142.5 million for the first nine months of fiscal 2012. As a percent of sales, corporate general and administrative expenses for the current-year quarter was 1.3 percent compared to 1.1 percent in the prior-year quarter and decreased to 1.3 percent for the first nine months of fiscal 2013 compared to 1.5 percent for the first nine months of fiscal 2012. Net expense associated with the Company's incentive and deferred compensation programs is the primary driver for the fluctuation in corporate general and administrative expenses between periods.

Other expense (in the Results By Business Segment) included the following:

(dollars in millions)	Three Months Ended March 31,		Nine Months Ended March 31,	
	2013	2012	2013	2012
Expense (income)				
Foreign currency transaction	\$ 10.2	\$ 8.4	\$ 21.0	\$ 4.3
Stock-based compensation	9.3	9.5	40.8	37.3
Pensions	35.0	17.8	104.8	53.7

	<u>\$ 59.8</u>	<u>\$ 49.7</u>	<u>\$ 158.4</u>	<u>\$ 109.6</u>

The increase in pension expense in the current-year quarter and first nine months of fiscal 2013 primarily resulted from a higher amount of actuarial losses, primarily related to domestic defined benefit plans, recognized in the current-year quarter and first nine months of fiscal 2013. Divestitures and asset sales and writedowns for the first nine months of fiscal 2013 includes a net gain of approximately \$17 million related to the divestiture of the automotive businesses of the Mobile Climate Systems division and the Turkey refrigeration components business.

CONSOLIDATED BALANCE SHEET

Cash and cash equivalents	\$ 1,677.3	\$ 838.3
Accounts receivable, net	2,017.1	1,992.3
Inventories	1,473.1	1,400.7
Accrued payrolls and other compensation	395.1	463.9
Notes payable and long-term debt payable within one year	1,527.7	225.6
Shareholders' equity	5,409.1	4,896.5
Working capital	\$ 1,790.0	\$ 2,012.1
Current ratio	1.49	1.81

Cash and cash equivalents include \$1,541 million and \$629 million held by the Company's foreign subsidiaries at March 31, 2013 and June 30, 2012, respectively. Generally, cash and cash equivalents held by foreign subsidiaries are not readily available for use in the United States without adverse tax consequences. The Company's principal sources of liquidity are its cash flows provided by operating activities, commercial paper borrowings or borrowings directly from its line of credit. The Company does not believe the level of its non-U.S. cash position will have an adverse effect on working capital needs, planned growth, repayment of maturing debt, benefit plan funding, dividend payments or share repurchases.

Accounts receivable, net is primarily receivables due from customers for sales of product (\$1,803 million at March 31, 2013 and \$1,782 million at June 30, 2012). Days sales outstanding relating to trade accounts receivable was 49 days at March 31, 2013 and 48 days at June 30, 2012. The Company believes that its receivables are collectible and appropriate allowances for doubtful accounts have been recorded.

Inventories increased \$72 million (which includes an increase of \$4 million from the effect of foreign currency translation) primarily due to acquisitions as well as an increase in inventory levels in the Aerospace Segment partially offset by a decrease in inventory levels in the Industrial Segment. Days' supply of inventory was 67 days at March 31, 2013, 63 days at June 30, 2012 and 64 days at March 31, 2012. Day's supply of inventory amounts at June 30, 2012 and March 31, 2012 have been revised from amounts previously presented to conform to the current calculation methodology.

Accrued payrolls and other compensation decreased primarily due to the payment of incentive compensation during fiscal 2013 that had been accrued as of June 30, 2012.

Notes payable and long-term debt payable within one year increased primarily due to a higher amount of commercial paper borrowing outstanding at the end of the current-year quarter. The Company from time to time will utilize short-term intercompany loans to repay commercial paper borrowings. At times, the short-term intercompany loans are outstanding at the end of a fiscal quarter.

Shareholders' equity activity during the first nine months of fiscal 2013 included a decrease of approximately \$206 million related to share repurchases and an increase of approximately \$38 million related to foreign currency translation adjustments.

CONSOLIDATED STATEMENT OF CASH FLOWS

(dollars in millions)	Nine months ended March 31,	
	2013	2012
Cash provided by (used in):		
Operating activities	\$ 718.8	\$ 1,006.4
Investing activities	(747.6)	(185.9)
Financing activities	872.6	(590.8)
Effect of exchange rates	(4.8)	(113.7)
Net increase in cash and cash equivalents	839.0	116.0

Cash flows from operating activities decreased compared to the first nine months of fiscal 2012 primarily due to a decrease in net income as well as \$226 million of voluntary cash contributions made to the Company's domestic qualified defined benefit pension plan during the first nine months of fiscal 2013. The Company continues to focus on managing its inventory and other working capital requirements.

Cash flows used in investing activities increased in fiscal 2013 primarily due to an increase in acquisition activity as well as an increase in capital expenditures partially offset by the net proceeds from businesses divested in fiscal 2013.

Cash flows used in financing activities in fiscal 2013 included the repurchase of 2.5 million common shares for \$206 million as compared to the repurchase of 4.9 million common shares for \$332 million in the prior year. Cash flow activities in the current year include a higher level of borrowings than the prior year due to the increase in acquisition activity. In both the current and prior year, the Company purchased the outstanding shares not previously owned by the Company in majority-owned subsidiaries.

The Company's goal is to maintain no less than an "A" rating on senior debt to ensure availability and reasonable cost of external funds. As a means of achieving this objective, the Company has established a financial goal of maintaining a ratio of debt to debt-shareholders' equity of no more than 37 percent.

(dollars in millions)	March 31, 2013	June 30, 2012
Debt to Debt-Shareholders' Equity Ratio		
Debt	\$ 3,024	\$ 1,730
Debt & Shareholders' equity	\$ 8,433	\$ 6,626
Ratio	35.9%	26.1%

At March 31, 2013, the Company had a line of credit totaling \$2,000 million through a multi-currency revolving credit agreement with a group of banks, of which \$475 million was available. The credit agreement expires in October 2017; however, the Company has the right to request a one-year extension of the expiration date on an annual basis, which request may result in changes to the current terms and conditions of the credit agreement. Advances from the credit agreement can be used for general corporate purposes, including acquisitions, and for the refinancing of existing indebtedness. The credit agreement requires the payment of an annual facility fee, the amount of which would increase in the event the Company's credit ratings are lowered. Although a lowering of the Company's credit ratings would likely increase the cost of future debt, it would not limit the Company's ability to use the credit agreement nor would it accelerate the repayment of any outstanding borrowings.

The Company is currently authorized to sell up to \$1,850 million of short-term commercial paper notes. As of March 31, 2013, \$1,525 million of commercial paper notes were outstanding and the largest amount of commercial paper notes outstanding during the third quarter of fiscal 2013 was \$1,561 million.

The Company's credit agreements and indentures governing certain debt agreements contain various covenants, the violation of which would limit or preclude the use of the credit agreements for future borrowings, or might accelerate the maturity of the related outstanding borrowings covered by the indentures. Based on the Company's rating level at March 31, 2013, the most restrictive financial covenant provides that the ratio of secured debt to net tangible assets be less than 10 percent. However, the Company currently does not have secured debt in its debt portfolio. The Company is in compliance with all covenants and expects to remain in compliance during the term of the credit agreements and indentures.

CRITICAL ACCOUNTING POLICIES

Impairment of Goodwill and Long-Lived Assets - Goodwill is tested for impairment at the reporting unit level on an annual basis and between annual tests whenever events or circumstances indicate that the carrying value of a reporting unit may exceed its fair value. For the Company, a reporting unit is one level below the operating segment level. Determining whether an impairment has occurred requires the valuation of the respective reporting unit, which the Company has consistently estimated using a discounted cash flow model. The Company believes that the use of a discounted cash flow model results in the most accurate calculation of a reporting unit's fair value because the market value for a reporting unit is not readily available. The discounted cash flow analysis requires several assumptions, including future sales growth and operating margin levels, as well as assumptions regarding future industry specific market conditions. Each reporting unit regularly prepares discrete operating forecasts and uses these forecasts as the basis for the assumptions used in the discounted cash flow analysis. The Company has consistently used a discount rate commensurate with its cost of capital, adjusted for inherent business risks and has consistently used a terminal growth factor of 2.5 percent. The Company also reconciles the estimated aggregate fair value of its reporting units as derived from the discounted cash flow analysis to the Company's overall market capitalization.

The result of the Company's fiscal 2013 annual goodwill impairment test performed as of December 31, 2012 indicated that no goodwill impairment existed. However, the Worldwide Energy Products reporting unit had an estimated fair value that the Company has determined was not significantly in excess of its carrying value. Worldwide Energy Products has a goodwill balance as of March 31, 2013 of \$186.4 million and is part of the Industrial Segment. The sales growth assumption had the most significant influence on the estimation of its fair value.

The sales growth assumption for Worldwide Energy Products was based on future business already secured or highly likely to be secured with existing customers based on current quoting activity and forecasted market demand for the oil and gas industry as well as sales initiatives to expand the use of the reporting unit's products in the oil and gas industry. The key uncertainty in the sales growth assumption used in the estimation of the fair value of this reporting unit is the growth of the oil and gas market and the ability to expand the use of the reporting unit's products in the oil and gas industry.

The Company continually monitors its reporting units for impairment indicators and updates assumptions used in the most recent calculation of the fair value of a reporting unit as appropriate. The Company is unaware of any current market trends that are contrary to the assumptions made in the estimation of the fair value of any of its reporting units. If actual experience is not consistent with the assumptions made in the estimation of the fair value of the reporting units, especially assumptions regarding penetration into new markets and the recovery of the current economic environment, it is possible that the estimated fair value of certain reporting units could fall below their carrying value resulting in the necessity to conduct additional goodwill impairment tests.

Long-lived assets held for use, which primarily includes finite-lived intangible assets and property, plant and equipment, are evaluated for impairment whenever events or circumstances indicate that the undiscounted net cash flows to be generated by their use over their expected useful lives and eventual disposition are less than their net carrying value. The long-term nature of these assets requires the estimation of their cash inflows and outflows several years into the future and only takes into consideration technological advances known at the time of the impairment test. During the first nine months of fiscal 2013, there were no events or circumstances that indicated that the net carrying value of the Company's long-lived assets held for use was not recoverable.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Refer to Note 2 to the Consolidated Financial Statements for discussion of recently issued accounting pronouncements.

FORWARD-LOOKING STATEMENTS

Forward-looking statements contained in this and other written and oral reports are made based on known events and circumstances at the time of release, and as such, are subject in the future to unforeseen uncertainties and risks. All statements regarding future performance, earnings projections, events or developments are forward-looking statements. It is possible that the future performance and earnings projections of the Company, including its individual segments, may differ materially from current expectations, depending on economic conditions within its mobile, industrial and aerospace markets, and the Company's ability to maintain and achieve anticipated benefits associated with announced realignment activities, strategic initiatives to improve operating margins, actions taken to combat the effects of the current economic environment, and growth, innovation and global diversification initiatives. A change in the economic conditions in individual markets may have a particularly volatile effect on segment performance.

Among other factors which may affect future performance are:

- changes in business relationships with and purchases by or from major customers, suppliers or distributors, including delays or cancellations in shipments, disputes regarding contract terms or significant changes in financial condition, changes in contract cost and revenue estimates for new development programs, and changes in product mix;
- ability to identify acceptable strategic acquisition targets;
- uncertainties surrounding timing, successful completion or integration of acquisitions;
- ability to realize anticipated cost savings from business realignment activities;
- threats associated with and efforts to combat terrorism;
- uncertainties surrounding the ultimate resolution of outstanding legal proceedings, including the outcome of any appeals;
- competitive market conditions and resulting effects on sales and pricing;
- increases in raw material costs that cannot be recovered in product pricing;
- the Company's ability to manage costs related to insurance and employee retirement and health care benefits; and
- global economic factors, including manufacturing activity, air travel trends, currency exchange rates, difficulties entering new markets and general economic conditions such as inflation, deflation, interest rates and credit availability.

The Company makes these statements as of the date of this disclosure, and undertakes no obligation to update them unless otherwise required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company manages foreign currency transaction and translation risk by utilizing derivative and non-derivative financial instruments, including forward exchange contracts, costless collar contracts and cross-currency swap contracts and certain foreign denominated debt designated as net investment hedges. The derivative financial instrument contracts are with major investment grade financial institutions and the Company does not anticipate any material non-performance by any of the counterparties. The Company does not hold or issue derivative financial instruments for trading purposes.

Derivative financial instruments are recognized on the Consolidated Balance Sheet as either assets or liabilities and are measured at fair value. Further information on the fair value of these contracts is provided in Note 12 to the Consolidated Financial Statements. Gains or losses on derivatives that are not hedges are adjusted to fair value through the Consolidated Statement of Income. Gains or losses on derivatives that are hedges are adjusted to fair value through accumulated other comprehensive income (loss) in the Consolidated Balance Sheet until the hedged item is recognized in earnings. The translation of the foreign denominated debt that has been designated as a net investment hedge is recorded in accumulated other comprehensive income (loss) and remains there until the underlying net investment is sold or substantially liquidated.

The Company's debt portfolio contains variable rate debt, inherently exposing the Company to interest rate risk. The Company's objective is to maintain a 60/40 mix between fixed rate and variable rate debt thereby limiting its exposure to changes in near-term interest rates.

ITEM 4. CONTROLS AND PROCEDURES

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's principal executive officer and principal financial officer, of the effectiveness of the Company's disclosure controls and procedures as of March 31, 2013. Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that, as of March 31, 2013, the Company's disclosure controls and procedures were effective.

There was no change in the Company's internal control over financial reporting during the quarter ended March 31, 2013 that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PARKER-HANNIFIN CORPORATION

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings. Parker ITR S.r.l. (Parker ITR), a subsidiary acquired on January 31, 2002, has been the subject of a number of lawsuits and regulatory investigations. The lawsuits and investigations relate to allegations that for a period of up to 21 years, the Parker ITR business unit that manufactures and sells marine hose, typically used in oil transfer, conspired with competitors in unreasonable restraint of trade to artificially raise, fix, maintain or stabilize prices, rig bids and allocate markets and customers for marine oil and gas hose in the United States and in other jurisdictions. Parker ITR and the Company have cooperated with all of the regulatory authorities investigating the activities of the Parker ITR business unit that manufactures and sells marine hose and continue to cooperate with the investigations that remain ongoing. Several of the investigations and all of the lawsuits have concluded. The following investigations remain pending.

Brazilian competition authorities commenced their investigations on November 14, 2007. Parker ITR filed a procedural defense in January 2008. The Brazilian authorities appear to be investigating the period from 1999 through May 2007. In June 2011, the Brazilian competition authorities issued a report and Parker ITR filed a response to that report. The potential outcome of the investigation in Brazil is uncertain and will depend on the resolution of numerous issues not known at this stage of the investigation.

On May 15, 2007, the European Commission issued its initial Request for Information to the Company and Parker ITR. On January 28, 2009, the European Commission announced the results of its investigation of the alleged cartel activities. As part of its decision, the European Commission found that Parker ITR infringed Article 81 of the European Commission treaty from April 1986 to May 2, 2007 and fined Parker ITR 25.61 million euros. The European Commission also determined that the Company was jointly and severally responsible for 8.32 million euros of the total fine which related to the period from January 2002, when the Company acquired Parker ITR, to May 2, 2007, when the cartel activities ceased. Parker ITR and the Company filed an appeal to the Court of First Instance of the European Communities on April 10, 2009.

Parker-Hannifin Corporation
Long-Term Incentive Performance Plan Under the Performance Bonus Plan
(as Amended and Restated)

1. Effective Date and Purpose. Parker-Hannifin Corporation, an Ohio corporation (the "Company"), adopted this Parker-Hannifin Corporation Long-Term Incentive Performance Plan Under the Performance Bonus Plan (the "Plan") effective as of January 26, 2011, and the Plan is amended and restated as set forth herein, effective as of January 23, 2013. The purpose of the Plan is to attract and retain key executives for the Company and to provide such persons with incentives for superior performance in the form of an opportunity to earn an award that qualifies as a Long-Term Incentive Bonus (as defined in the Company's 2010 Performance Bonus Plan), while preserving the ability of the Company to deduct Long-Term Incentive Bonuses paid under this Plan as "performance-based compensation" within the meaning of Section 162(m)(4)(C) of the Code. This Plan and each Award Opportunity granted hereunder shall be subject to the terms and conditions set forth below and the terms and conditions of the Company's Performance Bonus Plan and Stock Incentive Plan. Capitalized terms not defined in this Plan shall have the meanings set forth in the Performance Bonus Plan or the Stock Incentive Plan, as applicable.

2. Eligibility. The Committee shall designate the Participants, if any, for each Performance Period. An Eligible Officer who is designated as a Participant for a given Performance Period is not guaranteed of being selected as a Participant for any other Performance Period.

3. Establishment of Award Opportunities. Not later than the 90th day of each Performance Period and subject to the terms and conditions of Section 5 of the Performance Bonus Plan (including the limits on a Participant's maximum Long-Term Incentive Bonuses with respect to the Performance Period), the Committee shall establish the Maximum Shares and Target Shares for each Participant's Award Opportunity for the Performance Period. The Committee shall provide a Notice of Award to each Participant as soon as practical following the establishment of the Maximum Shares and Target Shares under the Participant's Award Opportunity for the Performance Period.

4. Determination of Amount Payable Under Award Opportunities.

A. Committee Certification of Management Objectives. Subject to potential reduction as set forth in Section 4.B and further subject to the other terms and conditions of this Plan, the full number of Maximum Shares granted to a Participant with respect to a Performance Period shall be earned as of the last day of such Performance Period, provided that (i) following the end of the Performance Period, the Committee has certified that the Company has achieved either (a) average Return on Average Equity of 4% during the Performance Period, or (b) average Free Cash Flow Margin of 4% during the Performance Period; and (ii) the Participant has been continuously employed by the Company and its Affiliates through the last day of the Performance Period.

B. Committee Discretion to Reduce Long-Term Incentive Awards. Notwithstanding Section 4.A, the actual number of shares of Common Stock payable to a Participant with respect to a Performance Period may be reduced (including a reduction to zero) by the Committee in its sole and absolute discretion based on such factors as the Committee determines to be appropriate, including, without limitation, the Company's performance with respect to the performance measures (the "Peer Performance Measures") set out below, with the number of a Participant's Target Shares under an Award Opportunity allocated to each of the Peer Performance Measures in proportion to the percentages set out below. The Peer Performance Measures shall be determined for the Company at the conclusion of the Performance Period, in comparison to the performance of the members of the Company's Peer Group, determined for each member of the Peer Group based on its performance at the conclusion of the three fiscal year period of such company ending with or immediately prior to the conclusion of the Performance Period:

Peer Performance Measure:	Weight:
Revenue Growth	20%
Earnings Per Share Growth	40%
Average Return on Invested Capital	40%

It is the intention of the Committee that the Committee will exercise its discretion as it deems appropriate to reduce the number of shares of Common Stock that may be delivered to a Participant with respect to each Performance Period based upon the Company's percentile ranking among the members of the Peer Group with respect to each Peer Performance Measure in accordance with the following table; provided, however, that the Committee reserves the right to deviate from such approach and may exercise its discretion to reduce the number shares of Common Stock that may be delivered to a Participant with respect to each Performance Period, if any, based on such other factors as the Committee in its sole and absolute discretion determines to be appropriate:

Company Percentile Ranking Among Peer Group:	% of Allocable Target Shares Earned:
75th percentile or higher	200%
50th percentile	100% (Target Shares)
35th percentile	50%
lower than 35th percentile	0%

To the extent that the Company's percentile ranking among the members of the Peer Group with respect to a Peer Performance Measure is between the 35th and the 50th percentile, or between the 50th and the 75th percentile, it is currently intended that the Committee will exercise its discretion to determine the appropriate percentage of the allocable Target Shares that are earned by straight-line interpolation between the percentages set out in the table above.

5. Payment of Long-Term Incentive Bonuses. Except as otherwise provided in this Plan, during the fourth month following the end of the applicable Performance Period and following the certification of the achievement of the management objectives in accordance with Section 4.A., the Company shall deliver to each Participant the shares of Common Stock, if any, that the Committee has determined (in accordance with Section 4) to be payable with respect to any Award Opportunity.

6. Terminations. Except as otherwise provided in this Section 6 or Section 7, a Participant must remain continuously employed by the Company and its Affiliates through the last day of a Performance Period in order to be entitled to receive payment of any Long-Term Incentive Bonus pursuant to this Plan for such Performance Period.

A. Qualifying Retirement. Notwithstanding the foregoing, in the event of a Participant's termination of employment during a Performance Period due to a Qualifying Retirement with respect to such Performance Period, the Participant will be entitled to receive the Award Opportunity, if any, that the Committee determines (in accordance with Section 4) to be payable for such Performance Period, as if the Participant had remained continuously employed through the end of the Performance Period. Any such Award Opportunity will be payable at the time provided in Section 5, following the certification of the achievement of the management objectives by the Committee in accordance with Section 4.A.

B. Death, Disability, Termination Without Cause, Other Retirement. Notwithstanding the foregoing, in the event of a Participant's termination of employment during a Performance Period due to death, Disability, termination of employment by the Company without Cause, or Other Retirement, the Participant will be entitled to receive a prorated Long-Term Incentive Bonus for that Performance Period equal to the product of the amount of the Award Opportunity, if any, determined to be payable by the Committee pursuant to Section 4 multiplied by a fraction, the numerator of which is the number of full quarters of continuous employment during the Performance Period and the denominator of which is 12. Any such prorated bonus will be payable at the time provided in Section 5, following the certification of the achievement of the management objectives by the Committee in accordance with Section 4.A.

C. Other Terminations. Except as otherwise provided pursuant to Section 7, in the event of a Participant's termination of employment during a Performance Period for any reason other than Qualifying Retirement, Other Retirement, death, Disability, or termination of employment by the Company without Cause, the Participant will forfeit his or her Award Opportunity for such Performance Period, without any further action or notice.

7. Change in Control.

A. In General. In the event of a Change in Control (as defined in the Stock Incentive Plan) of the Company during a Performance Period, each Participant then holding an outstanding Award Opportunity granted under this Plan for such Performance Period shall receive payment of his or her Award Opportunity as follows: (a) within fifteen (15) days following the date of the Change in Control, each such Participant shall receive a number of shares of Common Stock equal to the number of Target Shares subject to such Award Opportunity; and (b) within forty-five (45) days after the date of such Change in Control, each such Participant shall receive a number of shares of Common Stock equal to the excess, if any, of (i) the number of shares of Common Stock that would be payable in accordance with Section 4 if the Company had achieved the management objectives described in Section 4.A for the Performance Period, the Committee had exercised its discretion to reduce the number of shares of Common Stock payable in accordance with Section 4.B based upon the Company's percentile ranking among the Peer Group with respect to the Peer Performance Measures as described therein, and the Company's percentile ranking among the Peer Group for each of those Peer Performance Measures during the Performance Period through the end of the fiscal quarter immediately preceding the date of the Change in Control continued throughout the Performance Period at the same level; over (ii) the number of Target Shares subject to such Award Opportunity.

B. Anticipatory Termination. Notwithstanding the foregoing, in the event a Change in Control is deemed to occur during the Performance Period under the Stock Incentive Plan as a result of a Participant's termination of employment prior to a Change in Control at the request of a third party who has indicated an intention or taken steps reasonably calculated to effect a Change in Control ("Anticipatory Termination"), such Participant shall receive payment of his or her Award Opportunity with respect to such Performance Period in accordance with the provisions of Section 6.A, applied as if such Participant had terminated employment due to a Qualifying Retirement on the date of such Anticipatory Termination; provided, however, that if a Change in Control occurs after such Anticipatory Termination and prior to payment of such Award Opportunity, such Participant shall receive payment of his or her Award Opportunity as follows: (a) within fifteen (15) days following such Change in Control, such Participant shall receive a number of shares of Common Stock equal to the number of Target Shares subject to such Award Opportunity; and (b) within forty-five (45) days after the date of such Change in Control, such Participant shall receive a number of shares of Common Stock equal to the excess, if any, of (i) the greater of (x) the number of shares of Common Stock that would be payable in accordance with Section 4 if the Company had achieved the management objectives described in Section 4.A for the Performance Period, the Committee had exercised its discretion to reduce the number of shares of Common Stock payable in accordance with Section 4.B based upon the Company's percentile ranking among the Peer Group with respect to the Peer Performance Measures as described therein, and the Company's percentile ranking among the Peer Group for each of those Peer Performance Measures during the Performance Period through the end of the fiscal quarter immediately preceding the Anticipatory Termination had continued throughout the Performance Period at the same level, or (y) the number of shares of Common Stock that would have been payable in accordance with Section 4 if the Company had achieved the management objectives described in Section 4.A for the Performance Period, the Committee had exercised its discretion to reduce the number of shares of Common Stock in accordance with Section 4.B based upon the Company's percentile ranking

among the Peer Group with respect to the Peer Performance Measures as described therein, and the Company's percentile ranking among the Peer Group for each of those Peer Performance Measures during the Performance Period through the end of the fiscal quarter immediately preceding the subsequent Change in Control had continued throughout the Performance Period at the same level; over (ii) the number of Target Shares subject to such Award Opportunity.

8. Promotions and New Hires. With respect to a Participant who is newly hired or is promoted by the Company during a Performance Period, the Committee shall grant an Award Opportunity, or adjust an Award Opportunity previously granted, to such Participant for such Performance Period pursuant to the provisions of this Section 8; provided, however, that no Award Opportunity shall be granted or adjusted in such a manner as to cause any Long-Term Incentive Bonus payable under this Plan to fail to qualify as "performance-based compensation" within the meaning of section 162(m)(4)(C) of the Code and Section 1.162-27 of the Treasury Regulations promulgated thereunder.

A. Pro-Rated Award Opportunities for Newly-Eligible Executives. A Participant who is granted an Award Opportunity more than 90 days after the beginning of the Performance Period, either because the Participant is a newly hired Eligible Officer or is promoted into an Eligible Officer position, will be granted an Award Opportunity under the Plan for such Performance Period based on the number of Maximum Shares and Target Shares established by the Committee during the first 90 days of the Performance Period for the Participant's grade level, with the number of Maximum Shares and Target Shares pro-rated based on the ratio of the number of full quarters remaining in the Performance Period on and after the date of hire or promotion (as applicable) to the total number of quarters in the Performance Period. For any salary grade created between the salary grades for which the Committee has established the number of Maximum Shares and Target Shares as described above, straight-line interpolation shall be used to determine the pro-rated number of Maximum Shares and Target Shares in accordance with this Section 8.A.

B. Adjustments to Outstanding Award Opportunities. If a Participant is promoted after the beginning of a Performance Period, the Participant's outstanding Award Opportunity granted for such Performance Period will be adjusted, effective as of the date of such promotion, based on the number of Maximum Shares and Target Shares established by the Committee during the first 90 days of the Performance Period for the Participant's grade level. The adjustments to each such Participant's Award Opportunity shall be pro-rated on a quarterly basis, with the number of Maximum Shares and Target Shares for the Participant's original position applicable for the number of full quarters preceding the effective date of the promotion and the number of Maximum Shares and Target Shares for the Participant's new position applicable for the remaining number of quarters in the Performance Period. For any salary grade created between the salary grades for which the Committee has established the number of Maximum Shares and Target Shares as described above, straight-line interpolation shall be used to determine the pro-rated number of Maximum Shares and Target Shares in accordance with this Section 8.B.

C. Negative Discretion. Notwithstanding any other provision of this Section 8, the Committee retains the discretion to reduce the amount of any Long-Term Incentive Bonus, including a reduction of such amount to zero. By way of illustration, and not in limitation of the foregoing, the Committee may, in its discretion, determine (i) not to grant a pro-rated Award Opportunity pursuant to Section 8.A above, (ii) not to adjust an outstanding Award Opportunity pursuant to Section 8.B above, (iii) to grant a pro-rated Award Opportunity in a smaller amount than would otherwise be provided by Section 8.A above, or (iv) to adjust an outstanding Award Opportunity to produce a smaller Long-Term Incentive Award than would otherwise be provided by Section 8.B above.

9. Plan Administration. The Committee shall be responsible for administration of the Plan. The Committee is authorized to interpret the Plan, to prescribe, amend and rescind regulations relating to the Plan, and to make all other determinations necessary or advisable for the administration of the Plan, but only to the extent not contrary to the express provisions of the Plan, the Performance Bonus Plan and the Stock Incentive Plan. Determinations, interpretations or other actions made or taken by the Committee pursuant to the provisions of the Plan shall be final, binding and conclusive for all purposes and upon all Participants, Eligible Officers, Beneficiaries and all other persons who have or claim an interest herein. The Committee may, in its discretion, but only to the extent permitted by 162(m) of the Code and applicable law, delegate to one or more directors or employees of the Company any of the Committee's authority under the Plan. The acts of any such delegates shall be treated under this Plan as acts of the Committee with respect to any matters so delegated, and any reference to the Committee in the Plan shall be deemed a reference to any such delegates with respect to any matters so delegated.

10. Tax Withholding. Each Participant is responsible for any federal, state, local, foreign or other taxes with respect to any Long-Term Incentive Bonus payable under the Plan. To the extent the Company is required to withhold any federal, state, local, foreign or other taxes in connection with the delivery of Common Stock under this Plan, then the Company may, in its sole discretion, (a) retain a number of shares of Common Stock otherwise deliverable hereunder with a value equal to the required withholding (based on the Fair Market Value (as defined in the Stock Incentive Plan) of the Common Stock on the applicable date), (b) facilitate a sale of shares of Common Stock payable pursuant to the Award Opportunity to cover such tax withholding obligation, or (c) apply any other withholding method determined by the Company; provided that in no event shall the value of the shares of Common Stock retained exceed the minimum amount of taxes required to be withheld or such other amount that will not result in a negative accounting impact.

11. Unfunded Plan. Each Award Opportunity granted under this Plan represents only a contingent right to receive all or a portion of the number of Maximum Shares granted subject to the terms and conditions of the Notice of Award, the Plan, the Performance Bonus Plan and the Stock Incentive Plan. Nothing in this Plan shall be construed to create a trust or to establish or evidence any Participant's claim of any right to payment of a Long-Term Incentive Bonus other than as an unsecured general creditor with respect to any payment to which he or she may be entitled under this Plan.

12. Rights of Employer. Neither anything contained in this Plan nor any action taken under this Plan shall be construed as a contract of employment or as giving any Participant or Eligible Officer any right to continued employment with the Company or any Affiliate.

13. Nontransferability. Except as otherwise provided in this Plan, the benefits provided under the Plan may not be alienated, assigned, transferred, pledged or hypothecated by or to any person or entity, and these benefits shall be exempt from the claims of creditors of any Participant or other claimants and from all orders, decrees, levies, garnishment or executions against any Participant to the fullest extent allowed by law. Notwithstanding the foregoing, to the extent permitted by the Company, a Participant may designate a Beneficiary or Beneficiaries (both primary and contingent) to receive, in the event of the Participant's death, any shares of Common Stock remaining to be delivered with respect to the Participant under the Plan. The Participant shall have the right to revoke any such designation and to re-designate a Beneficiary or Beneficiaries in such manner as may be prescribed by the Company.

14. Successors. The rights and obligations of the Company under the Plan shall inure to the benefit of, and shall be binding upon, the successors and assigns of the Company.

15. Governing Law. The Plan and all Award Opportunities shall be construed in accordance with and governed by the laws of the State of Ohio, but without regard to its conflict of law provisions.

16. Amendment or Termination. The Committee reserves the right, at any time, without either the consent of, or any prior notification to, any Participant, Eligible Officer or other person, to amend, suspend or terminate the Plan or any Award Opportunity granted thereunder, in whole or in part, in any manner, and for any reason; provided that any such amendment shall be subject to approval by the shareholders of the Company to the extent required to satisfy the requirements of Section 162(m) of the Code and the Treasury Regulations promulgated thereunder, and provided further that any such amendment shall not, after the end of the 90-day period described in Section 3 of the Plan, cause the amount payable under an Award Opportunity to be increased as compared to the amount that would have been paid in accordance with the terms established as of the end of such period. Notwithstanding the foregoing, no amendment, suspension or termination of the Plan following a Change in Control (as defined in the Stock Incentive Plan) may adversely affect in a material way any Award Opportunity that was outstanding on the date of the Change in Control, without the consent of the affected Participant.

17. Claw-back Policy. Each Award Opportunity granted, and each Long-Term Incentive Bonus paid, pursuant to this Plan shall be subject to the terms and conditions of the Claw-back Policy.

18. Section 409A of the Code. It is the Company's intent that each Long-Term Incentive Bonus payable under this Plan shall be exempt from the requirements of Section 409A of the Code under the "short-term deferral" exception set out in Section 1.409A-1(b)(4) of the Treasury Regulations. The Plan shall be interpreted and administered in a manner consistent with such intent.

19. Plan and Performance Bonus Plan Terms Control. In the event of a conflict between the terms and conditions of any Notice of Award and the terms and conditions of the Plan, the terms and conditions of the Plan shall prevail. In the event of a conflict between the terms and conditions of any Notice of Award or of this Plan and the terms and conditions of the Performance Bonus Plan, the terms and conditions of the Performance Bonus Plan shall prevail to the extent necessary for Long-Term Incentive Bonuses paid under this Plan to qualify as "performance-based compensation" for purposes of Section 162(m) of the Code and Section 1.162-27 of the Treasury Regulations promulgated thereunder. In the event of a conflict between the terms and conditions of any Notice of Award and the terms and conditions of the Stock Incentive Plan, the terms and conditions of the Stock Incentive Plan shall prevail.

20. Severability. If any provision of the Plan is held invalid, void or unenforceable, the same shall not affect, in any respect whatsoever, the validity of any other provisions of the Plan.

21. Waiver. The waiver by the Company of any breach of any provision of the Plan by a Participant shall not operate or be construed as a waiver of any subsequent breach.

22. Captions. The captions of the sections of the Plan are for convenience only and shall not control or affect the meaning or construction of any of its provisions.

23. Consent to Transfer Personal Data. By acknowledging an Award Opportunity, each Participant will voluntarily acknowledge and consent to the collection, use, processing and transfer of personal data as described in this Section 23. Participants are not obliged to consent to such collection, use, processing and transfer of personal data. However, failure to provide the consent may affect the Participant's ability to participate in the Plan. The Company and its Affiliates hold certain personal information about each Participant, that may include name, home address and telephone number, fax number, email address, family size, marital status, sex, beneficiary information, emergency contacts, passport / visa information, age, language skills, drivers license information, date of birth, birth certificate, social security number or other employee identification number, nationality, C.V. (or resume), wage history, employment references, job title, employment or severance contract, current wage and benefit information, personal bank account number, tax related information, plan or benefit enrollment forms and elections, option or benefit statements, any shares of stock or directorships in the Company, details of all options or any other entitlements to shares of Common Stock awarded, canceled, purchased, vested, unvested or outstanding in your favor, for the purpose of managing and administering the Plan ("Data"). The Company and its Affiliates will transfer Data amongst themselves as necessary for the purpose of implementation, administration and management of each Participant's participation in the Plan, and may further transfer Data to any third parties assisting the Company and its Affiliates in the implementation, administration and management of the Plan. These recipients may be located throughout the world, including the United States. By acknowledging an Award Opportunity, each Participant will authorize such third parties to receive, possess, use, retain and transfer the Data, in electronic or other form, for the purposes of implementing, administering and managing the Participant's participation in the Plan, including any requisite transfer of such Data as may be required for the administration of the Plan and/or the subsequent holding of shares of stock on the Participant's behalf to a broker or other third party with whom the Participant may elect to deposit any shares of stock acquired pursuant to the Plan. A Participant may, at any time, review Data, require any necessary amendments to it or withdraw the consents herein in writing by contacting the Company; however, withdrawing such consent may affect the

Participant's ability to participate in the Plan.

24. Notification of Change in Personal Data. If your address or contact information changes prior to the delivery of any shares of Common Stock pursuant to an Award Opportunity, the Company must be notified in order to administer the Plan and such Award Opportunity. Notification of such changes should be provided to the Company as follows:

A. U.S. and Canada Participants (employees who are on the U.S. or Canadian payroll system):

- Active employees: Update your address and contact information directly through your Personal Profile section in the Employee Self-Service site.
- Retired, terminated or family member of deceased Participant: Contact the Benefits Service Center at 1-800-992-5564.

25. Electronic Delivery. By acknowledging an Award Opportunity, each Participant will consent and agree to electronic delivery of any documents that the Company may elect to deliver (including, but not limited to, prospectuses, prospectus supplements, grant or award notifications and agreements, account statements, annual and quarterly reports, and all other forms of communications) in connection with any Award Opportunity granted under the Plan. By acknowledging an Award Opportunity, each Participant will consent to any and all procedures the Company has established or may establish for an electronic signature system for delivery and acceptance of any such documents that the Company may elect to deliver, and each Participant will agree that his or her electronic signature is the same as, and shall have the same force and effect as, his or her manual signature. By acknowledging an Award Opportunity, each Participant will consent and agree that any such procedures and delivery may be effected by a third party engaged by the Company to provide administrative services related to the Plan.

26. Prospectus Notification. Copies of the Stock Incentive Plan, the plan summary and prospectus which describes the Stock Incentive Plan (the "Prospectus") and the most recent Annual Report and Proxy Statement issued by the Company (collectively, the "Prospectus Information") are available for review by Participants on the UBS One Source Web site. Each Participant shall have the right to receive a printed copy of the Prospectus Information, free of charge, upon request by either calling the third party Plan Administrator at 877-742-7471 or by sending a written request to Parker's Benefits Department.
