FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended June 30, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 1-4982

PARKER-HANNIFIN CORPORATION

(Exact name of registrant as specified in its charter)

Ohio
(State or other jurisdiction of
Incorporation or Organization)

6035 Parkland Boulevard, Cleveland, Ohio
(Address of Principal Executive Offices)

34-0451060
(I.R.S. Employer
Identification No.)

44124-4141
(Zip Code)

Registrant's telephone number, including area code (216) 896-3000

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on which Registered
Common Shares, \$.50 par value	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K .

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer: Accelerated Filer:
Non-Accelerated Filer: Smaller Reporting Company:

(Do not check if a smaller reporting company)

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the outstanding common stock held by non-affiliates of the Registrant as of December 31, 2012, excluding, for purpose of this computation only, stock holdings of the Registrant's Directors and Officers: \$12,682,757,883.

The number of Common Shares outstanding on July 31, 2013 was 149,179,343.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the following documents are incorporated by reference:

- (1) Annual Report to Shareholders of the Company for the fiscal year ended June 30, 2013 is incorporated by reference into Parts I and II hereof.
- (2) Definitive Proxy Statement for the Company's 2013 Annual Meeting of Shareholders to be held on October 23, 2013 is incorporated by reference into Part III hereof.

PARKER-HANNIFIN CORPORATION

FORM 10-K

Fiscal Year Ended June 30, 2013

PART I

ITEM 1. Business. Parker-Hannifin Corporation is a leading worldwide diversified manufacturer of motion and control technologies and systems, providing precision engineered solutions for a wide variety of mobile, industrial and aerospace markets. The Company was incorporated in Ohio in 1938. Its principal executive offices are located at 6035 Parkland Boulevard, Cleveland, Ohio 44124-4141, telephone (216) 896-3000. As used in this Annual Report on Form 10-K, unless the context otherwise requires, the term “Company” or “Parker” refers to Parker-Hannifin Corporation and its subsidiaries.

The Company’s investor relations internet website address is www.phstock.com. The Company makes available free of charge on or through its website its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as soon as reasonably practicable after filing or furnishing such material electronically with the Securities and Exchange Commission. The information contained on or accessible through the Company’s website is not part of this Annual Report on Form 10-K.

The Board of Directors has adopted a written charter for each of the committees of the Board of Directors. These charters, as well as the Company’s Code of Conduct, Board of Directors Guidelines on Significant Corporate Governance Issues and Independence Standards for Directors, are posted and available on the Company’s investor relations internet website at www.phstock.com under the Corporate Governance page. Shareholders may request copies of these corporate governance documents, free of charge, by writing to Parker-Hannifin Corporation, 6035 Parkland Boulevard, Cleveland, Ohio 44124-4141, Attention: Secretary, or by calling (216) 896-3000.

The Company’s manufacturing, service, sales, distribution and administrative facilities are located in 40 states within the United States and in 48 other countries. The Company’s products are sold as original and replacement equipment through sales and distribution centers worldwide. The Company markets its products through direct-sales employees, independent distributors and sales representatives. Parker products are supplied to approximately 452,000 customers in virtually every significant manufacturing, transportation and processing industry.

During the fiscal year ended June 30, 2013, the Company’s technologies and systems were used in the products of its three principal business segments: Industrial; Aerospace; and Climate & Industrial Controls. For fiscal year 2013, total net sales were \$13 billion. Industrial Segment products accounted for 76%, Aerospace Segment products accounted for 18% and Climate & Industrial Controls Segment products accounted for 6% of those net sales.

On July 31, 2013, the Company announced that it had consolidated its Climate & Industrial Controls businesses into existing operating groups within the Industrial Segment, effective July 1, 2013. As a result of the consolidation and the resulting change in management structure in connection with strategic divestiture of certain operations in the Climate & Industrial Controls Segment, the Company will have two reporting segments beginning in fiscal year 2014: Diversified Industrial and Aerospace Systems. Beginning with fiscal year 2014, the financial results of all business groups that were formerly part of the Climate & Industrial Controls Segment will be reported in the Diversified Industrial Segment.

This Annual Report on Form 10-K addresses historical fiscal periods completed prior to the consolidation of the Climate & Industrial Controls Segment and, therefore, aggregates business and financial information in accordance with the three reporting segments in existence prior to July 1, 2013. Annual, quarterly and current reports by the Company for the periods after June 30, 2013 will present information in accordance with the reporting segments as described above.

Markets

The Company’s technologies and systems are used throughout various industries and in various applications. The approximately 452,000 customers who purchase the Company’s products are found throughout virtually every significant manufacturing, transportation and processing industry. No single customer accounted for more than 3% of the Company’s total net sales for the fiscal year ended June 30, 2013.

Industrial Segment. Sales of Industrial Segment products are made primarily to original equipment manufacturers and their replacement markets in virtually all major manufacturing, transportation and processing industries. The major markets for products of the Industrial Segment are listed below by Group:

Automation Group:	<ul style="list-style-type: none"> • Automotive • Conveyor and material handling • Factory automation • Food and beverage • Life sciences and medical • Machine tools • Packaging and paper machinery 	<ul style="list-style-type: none"> • Plastics machinery • Primary metals • Renewable energy • Safety and security • Semiconductor and electronics • Transportation and mobile
Filtration Group:	<ul style="list-style-type: none"> • Aerospace • Food and beverage • Industrial machinery • Life sciences • Marine • Mobile equipment 	<ul style="list-style-type: none"> • Oil and gas • Power generation • Renewable energy • Transportation • Water purification
Fluid Connectors Group:	<ul style="list-style-type: none"> • Aerial lift • Agriculture • Bulk chemical handling • Construction machinery • Food and beverage • Fuel and gas delivery • Industrial machinery 	<ul style="list-style-type: none"> • Life sciences • Marine • Mining • Mobile equipment • Oil and gas • Renewable energy • Transportation
Hydraulics Group:	<ul style="list-style-type: none"> • Aerial lift • Agriculture • Construction machinery • Forestry • Industrial machinery • Machine tool • Marine • Material handling 	<ul style="list-style-type: none"> • Mining • Oil and gas • Power generation • Refuse vehicles • Renewable energy • Truck hydraulics • Turf equipment
Instrumentation Group:	<ul style="list-style-type: none"> • Agriculture • Alternative fuels • Bio pharmaceuticals • Chemical and refining • Conscious sedation • Food and beverage • Life sciences • Microelectronics • Mining natural gas 	<ul style="list-style-type: none"> • Nuclear power • Oil and gas • Pharmaceuticals • Power generation • Process • Pulp and paper • Steel • Water/wastewater

- Engineered Materials Group:**
- Aerospace
 - Chemical processing
 - Consumer
 - Fluid power
 - General industrial
 - Information technology
 - Life sciences
 - Microelectronics
 - Military
 - Oil and gas
 - Power generation
 - Renewable energy
 - Telecommunications
 - Transportation

Aerospace Segment. Sales of Aerospace Segment products are made primarily in the commercial and military aerospace markets to both original equipment manufacturers and to end users for spares, maintenance, repair and overhaul. The major markets for products of the Aerospace Segment are listed below:

- Commercial transports
- Engines
- General and business aviation
- Helicopters
- Launch vehicles
- Military aircraft
- Missiles
- Power generation
- Regional transports
- Unmanned aerial vehicles
- Aftermarket services

Climate & Industrial Controls Segment. Sales of Climate & Industrial Controls Segment products are made primarily to original equipment manufacturers and their replacement markets. The major markets for products of the Climate & Industrial Controls Segment are listed below:

- Agriculture
- Air conditioning
- Construction machinery
- Food and beverage
- Industrial and commercial refrigeration
- Industrial machinery
- Life sciences
- Oil and gas
- Precision cooling
- Process
- Transportation

Principal Products and Methods of Distribution

Although the Company offers hundreds of thousands of individual products, no single product contributed more than 1% to the Company's total net sales for the fiscal year ended June 30, 2013. Listed below are some of the Company's principal products.

Industrial Segment. The products produced by the Company's Industrial Segment consist of a broad range of technologies and systems, which are described below by Group:

Automation Group: pneumatic and electromechanical components and systems, including:

- Pneumatic products:
- Air preparation units
 - Manifolds
 - Miniature fluidics
 - Pneumatic actuators and grippers
 - Pneumatic valves and controls
 - Vacuum generators, cups and sensors

Electromechanical products:

- AC/DC drives and systems
- Electric actuators, gantry robots and slides
- Human-machine interfaces
- Inverters
- Rotary actuators
- Stepper motors, servo motors, drives and controls
- Structural extrusions

Filtration Group: filters, systems and diagnostics solutions to monitor and remove contaminants from fuel, air, oil, water and other liquids and gases, including:

- Analytical gas generators
- Compressed air and gas filters and dryers
- Engine air, fuel and oil filtration systems
- Filtration and purification systems
- Fluid condition monitoring systems
- Hydraulic and lubrication filters
- Instrumentation filters
- Membrane and fiber filters
- Nitrogen and hydrogen generators
- Sterile air filtration
- Water desalinization and purification filters/systems

Fluid Connectors Group: connectors which control, transmit and contain fluid, including:

- Check valves
- Connectors for low pressure fluid conveyance
- Deep sea umbilicals
- Diagnostic equipment
- Hose couplings
- Industrial hose
- Mooring systems and power cables
- PTFE hose and tubing
- Quick couplings
- Rubber and thermoplastic hose
- Tube fittings and adapters
- Tubing and plastic fittings

Hydraulics Group: hydraulic components and systems for builders and users of industrial and mobile machinery and equipment, including:

- Accumulators
- Cartridge valves
- Coolers
- Electrohydraulic actuators
- Electronic displays
- Electronic VO controllers
- Fan drives
- Hybrid drives
- Hydraulic cylinders
- Hydraulic motors and pumps
- Hydraulic systems
- Hydraulic valves and controls
- Hydrostatic steering units
- Integrated hydraulic circuits
- Power take-off equipment
- Power units
- Rotary actuators
- Sensors
- Telematic controllers

Instrumentation Group: high quality critical flow components for process instrumentation, healthcare and ultra-high-purity applications, including:

- Analytical instruments
- Analytical sample conditioning products and systems
- Chemical injection fittings and valves
- CNG Dispensers
- Fluoropolymer chemical delivery fittings, valves and pumps
- High pressure fittings, valves, pumps and systems
- High-purity gas delivery fittings, valves, regulators and digital flow controllers
- Industrial mass flow meters/controllers
- Medical devices
- Precision industrial regulators and flow controllers
- Process control double block and bleeds
- Process control fittings, valves, regulators and manifold valves

Engineered Materials Group: static and dynamic sealing devices, including:

- Dynamic seals
- Elastomeric o-rings
- Electro-medical instrument design and assembly
- Electromagnetic interference shielding
- Extruded and precision-cut fabricated elastomeric seals
- High-temperature metal seals
- Homogeneous and inserted elastomeric shapes
- Medical device fabrication and assembly
- Metal and plastic retained composite seals
- Shielded optical windows
- Silicone tubing and extrusions
- Thermal management products
- Vibration dampening

Industrial Segment products include standard products, as well as custom products which are engineered and produced to original equipment manufacturers' specifications for application to particular end products. Both standard and custom products are also used in the replacement of original products. Industrial Segment products are marketed primarily through field sales employees and approximately 11,800 independent distributor locations throughout the world.

Aerospace Segment. The principal products of the Company's Aerospace Segment include flight control, hydraulic, fuel, fluid conveyance, and engine systems and components used on commercial and military airframe and engine programs.

The Aerospace Segment offers primary and secondary flight control systems and components used for precise control of aircraft rudders, elevators, ailerons and other aerodynamic control surfaces, including the following actuation components:

- Hydraulic
- Electrohydraulic
- Electric backup hydraulic
- Electrohydrostatic
- Electro-mechanical

The Aerospace Segment also offers complete hydraulic systems and components, including:

- Accumulators
- Automatic bleed valves
- Electrohydraulic servo valves
- Electronic controllers and software
- Engine-driven pumps
- Filtration manifolds
- Hydraulic power packs
- Integration packages
- Motor pumps
- Power transfer units
- Reservoirs
- Selector valves
- Thrust-reverser systems
- Utility actuators

The Aerospace Segment also designs and manufactures aircraft wheels, brakes and associated hydraulics components for general aviation, rotorcraft and military markets.

The Aerospace Segment also offers complete fuel systems and components, including:

- Fuel tank inerting systems
- Refuel, transfer, and pressurization controls
- In-flight refueling systems
- Fuel pumps and valves
- Fuel measurement and management systems
- Fuel and pneumatic filtration
- Fluid conveyance equipment
- Center of gravity controls
- Engine fuel injection atomization nozzles, manifolds and augmentor controls
- Electronic monitoring computers and controllers
- Lightning-safe flame arresters, fuel caps, and adapters
- Water and waste subsystems

The Aerospace Segment also offers fluid conveyance systems and components, including:

- Rubber, metal, and PTFE hose assemblies
- Rigid tube assemblies
- Couplings, quick disconnects, fittings, joints, and unions
- Valves and regulators

The Aerospace Segment also produces various engine systems and components, including:

- Pneumatic subsystems
- Low-pressure pneumatic controls
- Engine starter systems
- Fuel valves and manifolds
- Heat management
- Engine bleed control and anti-ice systems
- Electronic control and monitoring computers
- Fuel and pneumatic filtration
- Fluid conveyance systems and engine build units
- Motor-driven and hydraulic pumps
- Oil and lubrication pumps and equipment
- Thrust reverser actuation

The Aerospace Segment also offers electronic thermal management heat rejection systems and single-phase and two-phase heat collection systems for radar, ISAR, and power electronics.

Aerospace Segment products are marketed by the Company's regional sales organizations and are sold directly to original equipment manufacturers and end users throughout the world.

Climate & Industrial Controls Segment. The principal products of the Company's Climate & Industrial Controls Segment consist of systems and components for use primarily in the mobile and stationary refrigeration and air conditioning industry, and systems and components for use in fluid control applications in a wide variety of industries, including processing, fuel dispensing, beverage dispensing and mobile emissions. These products include:

- Accumulators
- CO² controls
- Electronic controllers
- Filter driers
- Hand shut-off valves
- Heat exchangers
- Hose and fittings
- Pressure regulating valves
- Refrigerant distributors
- Safety relief valves
- Solenoid valves
- Thermostatic expansion valves

Climate & Industrial Controls Segment products are marketed primarily through field sales employees and independent distributors and wholesalers throughout the world.

Competition

The Company's business operates in highly competitive markets and industries. The Company offers its products over numerous, varied markets through its 139 divisions operating in 49 countries and consequently has hundreds of competitors when viewed across its various markets and product offerings. The Company's competitors include U.S. and non-U.S. companies. These competitors and the degree of competition vary widely by product lines, end markets, geographic scope and/or geographic locations. Although each of the Company's segments has numerous competitors, given the Company's market

and product breadth, no single competitor competes with the Company with respect to all products manufactured and sold by the Company.

In the Industrial Segment, the Company competes on the basis of product quality and innovation, customer service, manufacturing and distribution capability, and price competitiveness. The Company believes that it is one of the market leaders in most of the major markets for its most significant Industrial Segment products. The Company has comprehensive motion and control packages for the broadest systems capabilities. While the Company's primary global competitors include SMC Corporation, Freudenberg-NOK, Festo AG, Bosch Rexroth AG, Swagelok Company, Pall Corporation, Donaldson Company, Inc., Trelleborg AB, IMI/Norgren, and Eaton Corporation, none of these companies compete with every Group and every product line that make up the Company's Industrial Segment.

In the Aerospace Segment, the Company has developed alliances with key customers based on the Company's advanced technological and engineering capabilities, superior performance in quality, delivery, and service, and price competitiveness, which has enabled the Company to obtain significant original equipment business on new aircraft programs for its systems and components and to thereby obtain the follow-on repair and replacement business for these programs. Further, the Aerospace Segment is able to utilize low cost manufacturing techniques from similar product on the Industrial side of the business to achieve a lower cost producer status. Although the Company believes that it is one of the market leaders in most of the major markets for its most significant Aerospace Segment products, the Company's primary global competitors for the most significant Aerospace Segment products include Honeywell Inc., UTC Aerospace Systems (formerly Hamilton Sundstrand), GE Aviation (formerly Smiths Aerospace), Eaton Corporation, Moog Inc., Woodward Governor Company and Zodiac Aerospace SA.

In the Climate & Industrial Controls Segment, the Company competes on the basis of product quality and innovation, customer service, manufacturing and distribution capability, and price competitiveness. Although the Company believes that it is one of the market leaders in most of the major markets for its most significant Climate & Industrial Controls Segment products, the Company's primary global competitors for the most significant Climate & Industrial Controls Segment products include Danfoss A/S, Emerson Climate Technologies, and Emerson/ASCO.

The Company believes that its platform utilizing nine core technologies which consist of aerospace, electromechanical, filtration, fluid handling, hydraulics, pneumatics, process control, refrigeration, and sealing and shielding is a positive factor in its ability to compete effectively with both large and small competitors. For each of its segments, the Company believes that the following factors also contribute to its ability to compete effectively:

- decentralized operating structure that allows each division to focus on its customers and respond quickly at the local level;
- systems solution capabilities that use the Company's core technologies from a variety of its segments;
- global presence; and
- a strong global distribution network.

Research and Product Development

The Company continually researches the feasibility of new products and services through its development laboratories and testing facilities in many of its worldwide manufacturing locations. Its research and product development staff includes chemists, physicists, and mechanical, chemical and electrical engineers.

Total research and development costs relating to the development of new products and services and the improvement of existing products and services amounted to \$406.6 million in fiscal year 2013, \$365.7 million in fiscal year 2012, and \$359.5 million in fiscal year 2011. These amounts include costs incurred by the Company related to independent research and development initiatives as well as costs incurred in connection with research and development contracts. Costs incurred in connection with research and development contracts and included in the total research and development costs reported above for each of the respective fiscal years 2013, 2012 and 2011 were \$58.9 million, \$43.7 million, and \$61.3 million, respectively.

Patents, Trademarks, Licenses

The Company owns a number of patents, trademarks and licenses related to its products and has exclusive and non-exclusive rights to use a number of patents owned by others. In addition, patent applications on certain products are now pending, although there can be no assurance that patents will be issued. The Company is not dependent to any material extent on any single patent or group of patents.

Backlog and Seasonal Nature of Business

The Company's backlog by business segment for the past two fiscal years, as set forth on pages 13-4 to 13-6 of Exhibit 13 to this Annual Report on Form 10-K, is incorporated into this section by reference. The Company's backlog was \$3.7 billion at June 30, 2013 and \$3.8 billion at June 30, 2012. Approximately 82% of the Company's backlog at June 30, 2013 is scheduled for delivery in the succeeding twelve months. The Company's business is generally not seasonal in nature.

Environmental Regulation

Certain of the Company's operations necessitate the use and handling of hazardous materials and, as a result, the Company is subject to United States federal, state, and local laws and regulations as well as non-U.S. laws and regulations designed to protect the environment and regulate the discharge of materials into the environment. These laws impose penalties, fines and other sanctions for non-compliance and liability for response costs, property damage and personal injury resulting from past and current spills, disposals or other releases of, or exposures to, hazardous materials. Among other environmental laws, the Company is subject to the United States federal "Superfund" law, under which the Company has been designated as a "potentially responsible party" and may be liable for cleanup costs associated with various waste sites, some of which are on the United States Environmental Protection Agency's Superfund priority list.

As of June 30, 2013, the Company was involved in environmental remediation at various United States and non-U.S. manufacturing facilities presently or formerly operated by the Company and had been named as a "potentially responsible party," along with other companies, at off-site waste disposal facilities and regional sites.

The Company believes that its policies, practices and procedures are properly designed to prevent unreasonable risk of environmental damage and the consequent financial liability to the Company. Compliance with environmental laws and regulations requires continuing management of efforts and expenditures by the Company. Compliance with environmental laws and regulations has not had in the past, and, the Company believes, will not have in the future, a material adverse effect on the capital expenditures, earnings, or competitive position of the Company.

As of June 30, 2013, the Company had a reserve of \$12.5 million for environmental matters that were probable and reasonably estimable. This reserve was recorded based upon the best estimate of costs to be incurred in light of the progress made in determining the magnitude of remediation costs, the timing and extent of remedial actions required by governmental authorities and the amount of the Company's liability in proportion to other responsible parties.

The Company's estimated total liability for the above mentioned sites ranges from a minimum of \$12.5 million to a maximum of \$80.1 million. The largest range of the estimated total liability for any one site is approximately \$15.1 million. The actual costs to be incurred by the Company will be dependent on final determination of contamination and required remedial action, negotiations with governmental authorities with respect to cleanup levels, changes in regulatory requirements, innovations in investigatory and remedial technologies, effectiveness of remedial technologies employed, the ability of the other responsible parties to pay, and any insurance or other third-party recoveries.

Energy Matters and Sources and Availability of Raw Materials

The Company's primary energy source for each of its business segments is electric power. While the Company cannot predict future costs of electric power, the primary source for production of the required electric power will be coal from substantial, proven coal reserves available to electric utilities. The Company is subject to governmental regulations in regard to energy supplies in the United States and elsewhere. To date, the Company has not experienced any significant disruptions of its operations due to energy curtailments.

Steel, brass, copper, aluminum, nickel, rubber and thermoplastic materials and chemicals are the principal raw materials used by the Company. These materials are available from numerous sources in quantities sufficient to meet the requirements of the Company.

Employees

The Company employed approximately 58,150 persons as of June 30, 2013, of whom approximately 30,250 were employed by foreign subsidiaries.

Business Segment Information

The Company's net sales, segment operating income and assets by business segment and net sales and long-lived assets by geographic area for the past three fiscal years, as set forth on pages 13-15 to 13-16 of Exhibit 13 to this Annual Report on Form 10-K, are incorporated into this section by reference.

Acquisitions

During fiscal year 2013, the Company completed eight acquisitions as set forth on pages 13-22 to 13-23 of Exhibit 13 to this Annual Report on Form 10-K, which is incorporated into this section by reference.

ITEM 1A. Risk Factors.

The following "risk factors" identify what the Company believes to be all of the risks that could materially adversely affect the Company's financial and/or operational performance. These risk factors should be considered and evaluated together with information incorporated by reference or otherwise included elsewhere in this Annual Report on Form 10-K. Additional risks not currently known to the Company or that the Company currently believes are immaterial also may impair the Company's business, financial condition, results of operations and cash flows.

The Company may be subject to risks arising from uncertainty in worldwide and regional economic conditions.

Uncertainty regarding economic conditions and the rate of economic recovery globally and in economic regions in which the Company conducts substantial operations, including Western Europe, which is experiencing long-term economic downturn and uncertainty, may have an adverse effect on the business, results of operations and financial condition of the Company and its distributors, customers and suppliers, and on the general economic activity in many of the industries and markets in which the Company and its distributors, customers and suppliers operate. Among the economic factors which may have such an effect are manufacturing activity, air travel trends, currency exchange rates, difficulties entering new markets and general economic conditions such as inflation, deflation, interest rates and credit availability. These factors may, among other things, negatively impact the level of purchases, capital expenditures and creditworthiness of the Company and its distributors, customers and suppliers, and, therefore, the Company's revenues, operating profits, margins and order rates.

The Company has remained focused on maintaining its financial strength by adjusting its cost structure to reflect changing demand levels, maintaining a strong balance sheet and managing its cash. The Company cannot predict changes in worldwide or regional economic conditions, as such conditions are highly volatile and beyond the Company's control. If these conditions deteriorate, however, the Company's business, results of operations and financial condition could be materially adversely affected.

The Company may be subject to risks relating to its information technology systems.

The Company relies extensively on information technology systems to manage and operate its business. If these systems are damaged, intruded upon, shutdown or cease to function properly (whether by planned upgrades, force majeure, telecommunications failures, hardware or software break-ins or viruses, other cyber-security incidents or otherwise) and the Company suffers any resulting interruption in its ability to manage and operate its business, the Company's results of operations and financial condition could be materially adversely affected.

The Company may be subject to product liability risks.

The Company's businesses expose it to potential product liability risks that are inherent in the design, manufacture and sale of its products and the products of third-party vendors that the Company uses or resells. Significant product liability claims could have a material adverse effect on the Company's financial condition, liquidity and results of operations. Although the Company currently maintains what it believes to be suitable and adequate product liability insurance, there can be no assurance that the Company will be able to maintain its insurance on acceptable terms or that its insurance will provide adequate protection against all potential liabilities.

The Company may be subject to risks arising from litigation, legal and regulatory proceedings and obligations.

From time to time, the Company is subject to litigation or other commercial disputes and other legal and regulatory proceedings relating to its business. Due to the inherent uncertainties of any litigation, commercial disputes or other legal or regulatory proceedings, the Company cannot accurately predict their ultimate outcome, including the outcome of any related appeals. An unfavorable outcome could materially adversely impact the Company's business, financial condition or results of operations.

The Company is subject to national and international laws and regulations, such as the anti-corruption laws of the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act, relating to its business and its employees. Despite the Company's policies, procedures and compliance programs, its internal controls and compliance systems may not be able to protect the Company from prohibited acts willfully committed by its employees, agents or business partners that would violate such applicable laws and regulations. Any such improper acts could damage the Company's reputation, subject it to civil or criminal

judgments, fines or penalties, and could otherwise disrupt the Company's business, and as a result, could materially adversely impact the Company's business, financial condition or results of operations.

The Company may be subject to risks relating to organizational changes.

The Company regularly executes organizational changes such as acquisitions, divestitures and realignments to support its growth and cost management strategies. The Company also commits significant resources to identify, develop and retain key employees to ensure uninterrupted leadership and direction. If the Company is unable to successfully manage these and other organizational changes, its results of operations and financial condition could be materially adversely affected.

The Company may be subject to risks relating to changes in the demand for and supply of its products.

Demand for and supply of the Company's products may be adversely affected by numerous factors, some of which the Company cannot predict or control. Such factors include:

- changes in business relationships with and purchases by or from major customers, suppliers or distributors, including delays or cancellations in shipments, disputes regarding contract terms or significant changes in financial condition, and changes in contract cost and revenue estimates for new development programs;
- changes in product mix;
- changes in the market acceptance of the Company's products;
- increased competition in the markets the Company serves;
- declines in the general level of industrial production; and
- declines in the availability, or increases in the prices, of raw materials.

If any of these factors occur, the demand for and supply of the Company's products could suffer, which could materially adversely affect the Company's results of operations.

The Company may be subject to risks arising from price and supply fluctuations in raw materials used in the Company's production processes and by its suppliers of component parts.

The Company's supply of raw materials for its businesses could be interrupted for a variety of reasons, including availability and pricing. Prices for raw materials necessary for production have fluctuated significantly in the past and significant increases could adversely affect the Company's results of operations and profit margins. Although the Company generally attempts to manage these fluctuations by, among other things, passing along increased raw material prices to its customers in the form of price increases, there may be a time delay between the increased raw material prices and the Company's ability to increase the price of its products, or the Company may be unable to increase the prices of its products due to pricing pressure, contract terms or other factors.

The Company's suppliers of component parts may significantly and quickly increase their prices in response to increases in costs of raw materials that they use to manufacture the component parts. As a result, the Company may not be able to increase its prices commensurately with its increased costs. Consequently, the Company's results of operations or financial condition could be materially adversely affected.

The Company may be subject to risks relating to acquisitions and joint ventures.

The Company expects to continue its strategy of identifying and acquiring businesses with complementary products and services, and entering into joint ventures, that it believes will enhance its operations and profitability. However, there can be no assurance that the Company will be able to continue to find suitable businesses to purchase or joint venture opportunities or that it will be able to acquire such businesses or enter into such joint ventures on acceptable terms. In addition, there is no assurance that the Company will be able to avoid acquiring or assuming unexpected liabilities, that the Company will be able to integrate successfully any businesses that it purchases into its existing business or that any acquired businesses or joint ventures will be profitable. The successful integration of new businesses and the success of joint ventures depends on the Company's ability to manage these new businesses and cut excess costs. If the Company is unable to avoid these risks, its results of operations and financial condition could be materially adversely affected.

The Company may be subject to risks arising from changes in the competitive environment in which it operates.

The Company's operations are subject to competition from a wide variety of global, regional and local competitors, which could adversely affect the Company's results of operations by creating downward pricing pressure and/or a decline in the Company's margins or market shares. To compete successfully, the Company must excel in terms of product quality and innovation, technological and engineering capability, manufacturing and distribution capability, delivery, price competitiveness, and customer service.

The Company may be subject to risks relating to its non-U.S. operations.

The Company's net sales derived from customers outside the United States were approximately 44% in fiscal 2013, 45% in fiscal 2012, and 46% in fiscal 2011. In addition, many of the Company's manufacturing operations and suppliers are located outside the United States. The Company expects net sales from non-U.S. markets to continue to represent a significant portion of its total net sales. The Company's non-U.S. operations are subject to risks in addition to those facing its domestic operations, including:

- fluctuations in currency exchange rates;
- limitations on ownership and on repatriation of earnings;
- transportation delays and interruptions;
- political, social and economic instability and disruptions;
- government embargoes or trade restrictions;
- the imposition of duties and tariffs and other trade barriers;
- import and export controls;
- labor unrest and current and changing regulatory environments;
- the potential for nationalization of enterprises;
- difficulties in staffing and managing multi-national operations;
- limitations on the Company's ability to enforce legal rights and remedies;
- potentially adverse tax consequences; and
- difficulties in implementing restructuring actions on a timely basis.

If the Company is unable to successfully manage the risks associated with expanding its global business or adequately manage operational fluctuations internationally, the risks could have a material adverse effect on the Company's business, results of operations or financial condition.

The Company may be subject to risks relating to changes in its tax rates or exposure to additional income tax liabilities.

The Company is subject to income taxes in the United States and various non-U.S. jurisdictions. Domestic and international tax liabilities are subject to the allocation of income among various tax jurisdictions. The Company's effective tax rate could be affected by changes in the mix among earnings in countries with differing statutory tax rates, changes in the valuation allowance of deferred tax assets or changes in tax laws. The amount of income taxes paid is subject to ongoing audits by United States federal, state and local tax authorities and by non-U.S. tax authorities. If these audits result in assessments different from amounts reserved, future financial results may include unfavorable adjustments to the Company's tax liabilities, which could have a material adverse effect on the Company's results of operations.

The Company may be subject to risks relating to the development of new products and technologies.

The markets the Company operates in are characterized by rapidly changing technologies and frequent introductions of new products and services. The Company's ability to develop new products based on technological innovation can affect its competitive position and often requires the investment of significant resources. Difficulties or delays in research, development or production of new products and services or failure to gain market acceptance of new products and technologies may significantly reduce future revenues and materially adversely affect the Company's competitive position.

The Company may be subject to risks relating to the preservation of its intellectual property.

Protecting the Company's intellectual property is critical to its innovation efforts. The Company owns a number of patents, trade secrets, copyrights, trademarks, trade names and other forms of intellectual property in its products and services throughout the world. The Company also has exclusive and non-exclusive rights to intellectual property owned by others. The Company's intellectual property may be challenged or infringed upon by third parties or the Company may be unable to maintain, renew or enter into new license agreements with third-party owners of intellectual property on reasonable terms. In addition, the global nature of the Company's business increases the risk that the Company's intellectual property may be subject to infringement or other unauthorized use by others. In some cases, the Company's ability to protect its intellectual property rights by legal recourse or otherwise may be limited, particularly in countries where laws or enforcement practices are inadequate or undeveloped. Unauthorized use of the Company's intellectual property rights or the Company's inability to preserve existing intellectual property rights could adversely impact the Company's competitive position and results of operations.

The Company may be subject to risks arising from the impact of environmental regulations.

The Company's operations necessitate the use and handling of hazardous materials and, as a result, it is subject to various United States federal, state and local laws and regulations, as well as non-U.S. laws, designed to protect the environment and to regulate the discharge of materials into the environment. These laws impose penalties, fines and other sanctions for non-compliance and liability for response costs, property damages and personal injury resulting from past and current spills, disposals or other releases of, or the exposure to, hazardous materials. Among other laws, the Company is subject to the United States federal "Superfund" law, under which it has been designated as a "potentially responsible party" and may be liable for clean-up costs associated with various waste sites, some of which are on the United States Environmental Protection Agency's Superfund priority list. The Company could incur substantial costs as a result of non-compliance with or liability for cleanup or other costs or damages under environmental laws, including the Superfund law.

In addition, increased worldwide focus on climate change issues has led to recent legislative and regulatory efforts to limit greenhouse gas emissions, including regulation of such emissions through a "cap-and-trade" system globally. Regulation of greenhouse gas emissions and other climate changes concerns could subject the Company to additional costs and restrictions, including increased energy and raw material costs. Until definitive regulations are adopted, the Company is not able to predict how such regulations would affect the Company's business, operations or financial results.

The Company may be subject to more stringent environmental laws in the future. If more stringent environmental laws are enacted in the future, these laws could have a material adverse effect on the Company's business, results of operations and financial condition.

The Company may be subject to risks relating to increasing costs of certain employee and retiree benefits.

The funding requirements and the amount of expenses recorded for the Company's defined benefit pension plans are dependent on changes in market interest rates and the value of plan assets, which are dependent on actual plan asset returns. Significant changes in market interest rates and decreases in the fair value of plan assets and investment losses on plan assets would increase funding requirements and expenses and may adversely impact the Company's future results of operations.

The Company absorbs a portion of healthcare costs for its employees. If healthcare costs rise significantly and the Company continues to absorb the majority of these costs, these increasing costs may adversely impact the Company's future results of operations.

The Company may be subject to risks arising from regulations applicable to companies doing business with the United States government.

In addition to the risks identified herein, doing business with the United States government subjects the Company to unusual risks, including dependence on the level of government spending and compliance with and changes in governmental procurement regulations. Currently, the U.S. Government is under mandated sequestration, which has resulted in a reduction of funds available to support U.S. governmental operations, including the acquisition of products and services from contractors. The full impact of the sequestration is not fully known, but a material change in the U.S. government's spending could have a material adverse effect on the Company's business, results of operations and financial condition. Agreements relating to the sale of products to government entities may be subject to termination, reduction or modification, either at the convenience of the government or for the Company's failure to perform under the applicable contract. The Company is subject to government investigations of business practices and compliance with government procurement regulations. If the Company were charged with wrongdoing as a result of any such investigation, it could be suspended from bidding on or receiving awards of new government contracts, which could have a material adverse effect on the Company's results of operations.

ITEM 1B. Unresolved Staff Comments. None.

ITEM 1C. Executive Officers of the Registrant.

The Company's Executive Officers as of August 15, 2013 were as follows:

Name	Position	Officer Since(1)	Age as of 8/15/2013
Donald E. Washkewicz	Chairman of the Board, Chief Executive Officer and President	1997	63
Jon P. Marten	Executive Vice President – Finance & Administration and Chief Financial Officer	2008	57
Lee C. Banks	Executive Vice President and Operating Officer	2001	50
Daniel S. Serbin	Executive Vice President – Human Resources	2005	59
Thomas L. Williams	Executive Vice President and Operating Officer	2005	54
Robert W. Bond	Vice President and President – Fluid Connectors Group	2000	55
Yoon “Michael” Chung	Vice President and President – Automation Group	2008	50
Jeffery A. Cullman	Vice President and President – Hydraulics Group	2006	58
John G. Dedinsky, Jr.	Vice President – Global Supply Chain and Procurement	2006	56
William G. Eline	Vice President – Chief Information Officer	2002	57
John R. Greco	Vice President and President – Instrumentation Group	2006	59
Thomas F. Healy	Vice President – Business Services	2006	53
Pamela J. Huggins	Vice President and Treasurer	2003	59
Kurt A. Keller	Vice President and President – Asia Pacific Group	2009	55
M. Craig Maxwell	Vice President – Chief Technology and Innovation Officer	2003	55
Thomas A. Piraino, Jr.	Vice President, General Counsel and Secretary	1998	64
Peter Popoff	Vice President and President – Filtration Group	2008	61
Andrew D. Ross	Vice President and President – Engineered Materials Group	2012	46
Charly Saulnier	Vice President	2008	65
Roger S. Sherrard	Vice President and President – Aerospace Group	2003	47
Catherine A. Suever	Vice President and Controller	2010	54

- (1) Officers of the Company are elected by the Board of Directors to serve for a term of one year or until their respective successors are elected, except in the case of death, resignation or removal. Messrs. Washkewicz, Banks, Williams, Bond, Cullman, Dedinsky, Eline, Greco, Maxwell, Piraino, and Popoff and Ms. Huggins have served in the executive capacities indicated above opposite their respective names during each of the past five years.

Mr. Marten has been Executive Vice President – Finance & Administration and Chief Financial Officer since November 2010. He was Vice President and Controller from August 2008 to December 2010 and Assistant Controller from July 2007 to August 2008.

Mr. Serbin has been Executive Vice President – Human Resources since January 2011. He was Vice President – Human Resources from May 2005 to January 2011.

Mr. Chung has been President of the Automation Group since July 2012 and has been a Vice President since March 2008. He was President of the Asia Pacific Group from March 2008 to July 2012.

Mr. Healy has been Vice President – Business Services since July 2013. He was a Vice President from April 2006 to July 2013 and President of the Climate & Industrial Controls Group from July 2006 to July 2013.

Mr. Keller has been President of the Asia-Pacific Group since July 2012 and has been a Vice President since August 2009. He was President of the Engineered Materials Group from August 2009 to July 2012 and Vice President of Operations of the Engineered Materials Group from July 2005 to August 2009.

Mr. Ross has been a Vice President and President of the Engineered Materials Group since July 2012. He was Vice President of Operations of the Hydraulics Group from July 2011 to July 2012 and General Manager Hydraulic Valve Division from June 2007 to July 2011.

Mr. Saulnier has been a Vice President since September 2008. He was President of the Europe, Middle East and Africa Group from September 2008 to July 2013 and was President of Sales Companies – Europe, Middle East and Africa from January 2008 to September 2008.

Mr. Sherrard has been President of the Aerospace Group since July 2012 and has been a Vice President since November 2003. He was President of the Automation Group from March 2005 to July 2012.

Ms. Suever has been Vice President and Controller since December 2010. She was Vice President and Controller of the Climate & Industrial Controls Group from November 2008 to December 2010 and Assistant Treasurer from July 2007 to November 2008.

ITEM 2. Properties. The Company's corporate headquarters is located in Cleveland, Ohio, and, at June 30, 2013, the Company had 341 manufacturing plants and 268 distribution centers and sales and administrative offices throughout the world, none of which were individually material to its operations. The facilities are situated in 40 states within the United States and in 48 other countries. The Company owns the majority of its manufacturing plants and distribution centers, and its leased properties primarily consist of sales and administrative offices. The number of facilities used by each of the Company's operating segments is summarized by type and geographic location in the tables below:

	Type of Facility		
	Manufacturing Plants	Distribution Centers	Sales and Administrative Offices
Industrial	296	103	129
Aerospace	24	4	15
Climate & Industrial Controls	21	4	13
Total	341	111	157

	Geographic Location			
	North America	Europe	Asia-Pacific	Latin America
Industrial	217	164	112	35
Aerospace	33	5	5	—
Climate & Industrial Controls	31	5	2	—
Total	281	174	119	35

Several facilities are shared among each of the Company's operating segments. To avoid double counting, each shared facility is counted once, primarily in the Industrial Segment.

The Company believes that its properties have been adequately maintained, are in good condition generally and are suitable and adequate for its business as presently conducted. The extent to which the Company uses its properties varies by property and from time to time. The Company believes that its restructuring efforts have brought capacity levels closer to present and anticipated needs. Most of the Company's manufacturing facilities remain capable of handling additional volume increases.

ITEM 3. Legal Proceedings. Parker ITR S.r.l. (Parker ITR), a subsidiary acquired on January 31, 2002, has been the subject of a number of lawsuits and regulatory investigations. The lawsuits and investigations relate to allegations that for a period of up to 21 years, the Parker ITR business unit that manufactures and sells marine hose, typically used in oil transfer, conspired with competitors in unreasonable restraint of trade to artificially raise, fix, maintain or stabilize prices, rig bids and allocate markets and customers for marine oil and gas hose in the United States and in other jurisdictions. Parker ITR and the Company have cooperated with all of the regulatory authorities investigating the activities of the Parker ITR business unit that manufactures and sells marine hose and continue to cooperate with the investigations that remain ongoing. Several of the investigations and all of the lawsuits have concluded. The following investigations remain pending.

Brazilian competition authorities commenced their investigations on November 14, 2007. Parker ITR filed a procedural defense in January 2008. The Brazilian authorities appear to be investigating the period from 1999 through May 2007. In June 2011, the Brazilian competition authorities issued a report and Parker ITR filed a response to that report. The potential outcome of the investigation in Brazil is uncertain and will depend on the resolution of numerous issues not known at this stage of the investigation.

On May 15, 2007, the European Commission issued its initial Request for Information to the Company and Parker ITR. On January 28, 2009, the European Commission announced the results of its investigation of the alleged cartel activities. As part of its decision, the European Commission found that Parker ITR infringed Article 81 of the European Community Treaty from April 1986 to May 2, 2007 and fined Parker ITR 25.61 million euros. The European Commission also determined that the Company was jointly and severally responsible for 8.32 million euros of the total fine which related to the period from January 2002, when the Company acquired Parker ITR, to May 2, 2007, when the cartel activities ceased. Parker ITR and the Company filed an appeal to the General Court of the European Union on April 10, 2009. On May 12, 2013, the court reversed in part the decision of the European Commission, reducing the original fine of 25.61 million euros to 6.40 million euros and holding that the Company and Parker ITR are jointly and severally liable for payment of the fine up to 6.30 million euros. The European Commission has appealed the ruling of the General Court of the European Union.

ITEM 4. Mine Safety Disclosures. Not applicable.

PART II

ITEM 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

- (a) **Market for the Registrant's Common Equity.** The Company's common stock is listed for trading on the New York Stock Exchange. Information regarding stock price and dividend information with respect to the Company's common stock, as set forth on page 13-41 of Exhibit 13 to this Annual Report on Form 10-K, is incorporated into this section by reference. As of July 31, 2013, the number of shareholders of record of the Company was 4,102.
- (b) **Use of Proceeds.** Not Applicable.
- (c) **Purchases of Equity Securities by the Issuer and Affiliated Purchasers.**

ISSUER PURCHASES OF EQUITY SECURITIES

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid Per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	(d) Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
April 1, 2013 through April 30, 2013	202,483	\$ 88.89	202,483	14,410,917
May 1, 2013 through May 31, 2013	174,500	\$ 94.17	174,500	14,236,417
June 1, 2013 through June 30, 2013	168,260	\$ 97.56	168,260	14,068,157
Total:	545,243	\$ 93.26	545,243	14,068,157

- (1) On August 16, 1990, the Company publicly announced that its Board of Directors authorized the repurchase by the Company of up to 3 million shares of its common stock. From time to time thereafter, the Board of Directors has adjusted the overall maximum number of shares authorized for repurchase under this program and imposed an additional limitation on the number of shares authorized for repurchase in any single fiscal year. On January 24, 2013, the Board of Directors approved an increase in the overall maximum number of shares authorized for repurchase under this program so that, beginning on such date, the aggregate number of shares authorized for repurchase was 15 million shares. Such authorization is limited, in any single fiscal year, to the greater of 7.5 million shares or five percent of the shares outstanding as of the end of the prior fiscal year. There is no expiration date for this program.

ITEM 6. Selected Financial Data. The information set forth on page 13-45 of Exhibit 13 to this Annual Report on Form 10-K is incorporated into this section by reference.

ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations. The information set forth on pages 13-2 to 13-12 of Exhibit 13 to this Annual Report on Form 10-K is incorporated into this section by reference.

ITEM 7A. Quantitative and Qualitative Disclosures About Market Risk. The information set forth on page 13-9 of Exhibit 13 to this Annual Report on Form 10-K is incorporated into this section by reference.

ITEM 8. Financial Statements and Supplementary Data. The information set forth on pages 13-13 to 13-41 of Exhibit 13 to this Annual Report on Form 10-K is incorporated into this section by reference.

ITEM 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure. None.

ITEM 9A. Controls and Procedures. The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's principal executive officer and principal financial officer, of the effectiveness of the Company's disclosure controls and procedures as of June 30, 2013. Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that, as of the end of fiscal year 2013, the Company's disclosure controls and procedures were effective.

Management's Report on Internal Control over Financial Reporting set forth on page 13-42 of Exhibit 13 to this Annual Report on Form 10-K is incorporated into this section by reference. The Report of Independent Registered Public Accounting

Firm set forth on pages 13-43 to 13-44 of Exhibit 13 to this Annual Report on Form 10-K is incorporated into this section by reference.

There was no change in the Company's internal control over financial reporting during the quarter ended June 30, 2013 that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. Other Information. None.

PART III

ITEM 10. Directors, Executive Officers and Corporate Governance. Information required with respect to the Directors of the Company is set forth under the caption "Item I – Election of Directors" in the definitive Proxy Statement for the Company's 2013 Annual Meeting of Shareholders, to be held October 23, 2013 (the "2013 Proxy Statement"), and is incorporated herein by reference. Information with respect to the executive officers of the Company is included in Part I, Item 1C hereof under the caption "Executive Officers of the Registrant".

The information set forth under the caption "Section 16(a) Beneficial Ownership Reporting Compliance" in the 2013 Proxy Statement is incorporated herein by reference.

The Company has adopted a Code of Conduct that applies to its Chief Executive Officer, Chief Financial Officer and Controller. The Code of Conduct is posted on the Company's investor relations internet website at www.phstock.com under the Corporate Governance page. Any amendment to, or waiver from, a provision of the Company's Code of Conduct that applies to its Chief Executive Officer, Chief Financial Officer or Controller will also be posted at www.phstock.com under the Corporate Governance page.

The information set forth under the captions "The Audit Committee" and "Report of the Audit Committee" in the 2013 Proxy Statement is incorporated herein by reference.

ITEM 11. Executive Compensation. The information set forth under the captions "Compensation Discussion and Analysis," "Compensation Committee Report," and "Compensation Tables" in the 2013 Proxy Statement is incorporated herein by reference.

ITEM 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters. The information set forth under the caption "Principal Shareholders" in the 2013 Proxy Statement is incorporated herein by reference.

Equity Compensation Plan Information. The following table sets forth certain information regarding the Company's equity compensation plans as of June 30, 2013, unless otherwise indicated.

Plan Category	Column (a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	Column (b) Weighted-average exercise price of outstanding options, warrants and rights	Column (c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	10,414,432 (1)	\$63.51	13,326,919 (2)
Equity compensation plans not approved by security holders(3)	16,663	\$42.34	—
Total	10,431,095	\$63.48	13,326,919

(1) Includes the maximum future payouts of common stock that may be issued under the calendar year 2011-12-13, 2012-13-14 and 2013-14-15 long term incentive performance awards, or LTIP Awards. For these LTIP Awards, payouts will be determined based on our achieving an average return on average equity of 4% or an average free cash flow margin of 4%. If these performance measures are achieved, the participants will be eligible to receive the maximum payout of 200%. The Human Resources and Compensation Committee will then compare our performance to that of a group of our peers and, if appropriate, apply its discretion to reduce the final payouts based on any performance measures that the Committee determines to be appropriate. Also includes 50,320 phantom shares held in an account pursuant to the Stock Option Deferral Plan (which plan has not been approved by shareholders). The phantom shares resulted from exercises of stock options granted under the 1990

Employees Stock Option Plan, which was approved by the shareholders. No further deferral elections may be made under the Stock Option Deferral Plan.

- (2) The maximum number of shares of our common stock that may be issued under the Amended and Restated 2009 Omnibus Stock Incentive Plan is 14.7 million. The maximum number of securities that may be issued under the 2003 Stock Incentive Plan is equal to the sum of (i) 13.5 million shares; plus (ii) the amount of any shares that are not delivered to an employee by reason of (A) the expiration, termination, cancellation or forfeiture of an award under the 1993 Stock Incentive Program; and (B) the tendering or withholding of shares to satisfy all or a portion of the exercise price or tax withholding obligations relating to shares issued or distributed under an award under the 1993 Stock Incentive Program. The maximum number of shares that may be issued under the 2003 Stock Incentive Plan as restricted stock is limited to 7.5 million shares. The maximum number of shares that may be issued under the 2004 Non-Employee Directors' Stock Incentive Plan is 375,000 shares. No further awards will be granted under the 2003 Stock Incentive Plan.
- (3) The 1996 Non-Employee Directors Stock Option Plan provides for the issuance of up to 562,500 shares of our common stock pursuant to stock options granted to our Directors who are not current or retired employees. Each option was granted at an exercise price equal to 100% of the fair market value of our common stock on the date the options were granted. Grants have a 10 year term and vest 50% following one year of continued service and the remaining 50% following the second year of continued service from the date granted. No further options will be granted under the 1996 Non-Employee Directors Stock Option Plan.

ITEM 13. Certain Relationships and Related Transactions, and Director Independence. The information set forth under the captions "Certain Relationships and Related Transactions," "Review and Approval of Transactions with Related Persons" and "Director Independence" in the 2013 Proxy Statement is incorporated herein by reference.

ITEM 14. Principal Accountant Fees and Services. The information set forth under the captions "Audit Fees," "Audit-Related Fees," "Tax Fees," "All Other Fees" and "Audit Committee Pre-Approval Policies and Procedures" in the 2013 Proxy Statement is incorporated herein by reference.

ITEM 15. Exhibits and Financial Statement Schedules.

a. The following are filed as part of this report:

1. Financial Statements and Schedule

The financial statements and schedule listed in the accompanying Index to Consolidated Financial Statements and Schedule are filed or incorporated by reference as part of this Annual Report on Form 10-K.

2. Exhibits

The exhibits listed in the accompanying Exhibit Index and required by Item 601 of Regulation S-K (numbered in accordance with Item 601 of Regulation S-K) are filed, furnished or incorporated by reference as part of this Annual Report on Form 10-K.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Year ended June 30, 2011	\$ 92,799	\$ 102,472	\$ (2,367)	\$ 192,904
Year ended June 30, 2012	\$ 192,904	\$ 10,600	\$ (27,425)	\$ 176,079
Year ended June 30, 2013	\$ 176,079	\$ 97,334	\$ —	\$ 273,413

(A) For allowance for doubtful accounts, net balance is comprised of deductions due to uncollectible accounts charged off, additions due to acquisitions or recoveries, and currency translation adjustments. For deferred tax asset valuation allowance, the balance primarily represents adjustments due to acquisitions and net operating losses.

Exhibit Index

<u>Exhibit No.</u>	<u>Description of Exhibit</u>
	<u>Articles of Incorporation and By-Laws:</u>
(3)(a)	Amended Articles of Incorporation incorporated by reference to Exhibit 3 to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 1997 (Commission File No. 1-4982).
(3)(b)	Code of Regulations, as amended, incorporated by reference to Exhibit 3(ii) to the Registrant's Report on Form 10-Q for the quarterly period ended December 31, 2007 (Commission File No. 1-4982).
	<u>Instruments Defining Rights of Security Holders:</u>
(4)(a)	Shareholder Protection Rights Agreement, dated as of February 8, 2007, between the Registrant and Wells Fargo Bank, N.A. (as successor to National City Bank), as Rights Agent, incorporated by reference to Exhibit 1 to the Registrant's Form 8-A filed on February 8, 2007 (Commission File No. 1-4982).
(4)(b)	First Amendment to Shareholder Protection Rights Agreement, dated as of July 6, 2009, between the Registrant and Wells Fargo Bank, N.A. (as successor to National City Bank), as Rights Agent, incorporated by reference to Exhibit 4(a) to the Registrant's Report on Form 10-K for the fiscal year ended June 30, 2009 (Commission File No. 1-4982).
	The Registrant is a party to other instruments, copies of which will be furnished to the Commission upon request, defining the rights of holders of its long-term debt identified in Note 9 of the Notes to Consolidated Financial Statements on page 13-29 of Exhibit 13 hereto, which Note is incorporated herein by reference.
	<u>Material Contracts:</u>
(10)(a)	Form of Parker-Hannifin Corporation Amended and Restated Change in Control Severance Agreement entered into by the Registrant and executive officers incorporated by reference to Exhibit 10(a) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2008 (Commission File No. 1-4982).
(10)(b)	Parker-Hannifin Corporation Amended and Restated Change in Control Severance Plan incorporated by reference to Exhibit 10(b) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2008 (Commission File No. 1-4982).
(10)(c)	Form of Indemnification Agreement entered into by the Registrant and its directors and executive officers incorporated by reference to Exhibit 10(c) to the Registrant's Report on Form 10-K for the fiscal year ended June 30, 2003 (Commission File No. 1-4982).
(10)(d)	Description of the Parker-Hannifin Corporation Officer Life Insurance Plan incorporated by reference to Exhibit 10(h) to the Registrant's Report on Form 10-K for the fiscal year ended June 30, 2005 (Commission File No. 1-4982).
(10)(e)	Parker-Hannifin Corporation Amended and Restated Supplemental Executive Retirement Benefits Program incorporated by reference to Exhibit 10(a) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2009 (Commission File No. 1-4982).
(10)(f)	Amendment to Parker-Hannifin Corporation Amended and Restated Supplemental Executive Retirement Benefits Program, effective April 15, 2010, incorporated by reference to Exhibit 10.1 to the Registrant's Report on Form 8-K filed with the Commission on April 21, 2010 (Commission File No. 1-4982).
(10)(g)	Amendment to Parker-Hannifin Corporation Amended and Restated Supplemental Executive Retirement Benefits Program, effective January 27, 2011, incorporated by reference to Exhibit 10(a) to the Registrant's Report on Form 10-Q for the quarterly period ended March 31, 2011 (Commission File No. 1-4982).
(10)(h)	Form of Notice of Change to Long Term Disability Benefit and Tax Election Form for certain executive officers incorporated by reference to Exhibit 10(j) to the Registrant's Report on Form 10-K for the fiscal year ended June 30, 2007 (Commission File No. 1-4982).
(10)(i)	Parker-Hannifin Corporation Amended and Restated 1993 Stock Incentive Program incorporated by reference to Exhibit 10(i) to the Registrant's Report on Form 10-K for the fiscal year ended June 30, 2009 (Commission File No. 1-4982).
(10)(j)	Parker-Hannifin Corporation Amended and Restated 2003 Stock Incentive Plan incorporated by reference to Exhibit 10(b) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2010 (Commission File No. 1-4982).

- (10)(k) Parker-Hannifin Corporation Amended and Restated 2009 Omnibus Stock Incentive Plan incorporated by reference to Appendix A to the Registrant's Definitive Proxy Statement filed with the Commission on September 24, 2012 (Commission File No. 1-4982).
- (10)(l) Parker-Hannifin Corporation Amended and Restated 2005 Performance Bonus Plan incorporated by reference to Exhibit 10(a) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2010 (Commission File No. 1-4982).
- (10)(m) Parker-Hannifin Corporation 2010 Performance Bonus Plan incorporated by reference to Exhibit A to the Registrant's Definitive Proxy Statement filed with the Commission on September 27, 2010 (Commission File No. 1-4982).
- (10)(n) Form of 2007 Notice of Grant of Stock Options with Tandem Stock Appreciation Rights for executive officers incorporated by reference to Exhibit 10.3 to the Registrant's Report on Form 8-K filed with the Commission on August 22, 2006 (Commission File No. 1-4982).
- (10)(o) Form of 2008 Notice of Grant of Stock Options with Tandem Stock Appreciation Rights for executive officers incorporated by reference to Exhibit 10.1 to the Registrant's Report on Form 8-K/A filed with the Commission on September 5, 2007 (Commission File No. 1-4982).
- (10)(p) Form of 2009 Notice of Stock Options Award with Tandem Stock Appreciation Rights for executive officers incorporated by reference to Exhibit 10(d) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2008 (Commission File No. 1-4982).
- (10)(q) Form of 2010 Notice of Stock Options with Tandem Stock Appreciation Rights for executive officers incorporated by reference to Exhibit 10(d) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2009 (Commission File No. 1-4982).
- (10)(r) Form of FY2011 Parker-Hannifin Corporation Stock Appreciation Rights Award Agreement for executive officers incorporated by reference to Exhibit 10.2 to the Registrant's Report on Form 8-K filed with the Commission on August 17, 2010 (Commission File No. 1-4982).
- (10)(s) FY2011 Parker-Hannifin Corporation Stock Appreciation Rights Terms and Conditions for executive officers incorporated by reference to Exhibit 10.1 to the Registrant's Report on Form 8-K filed with the Commission on August 17, 2010 (Commission File No. 1-4982).
- (10)(t) Form of Parker-Hannifin Corporation Stock Appreciation Rights Award Agreement for executive officers incorporated by reference to Exhibit 10(a) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2011 (Commission File No. 1-4982).
- (10)(u) Parker-Hannifin Corporation Stock Appreciation Rights Terms and Conditions for executive officers incorporated by reference to Exhibit 10(b) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2011 (Commission File No. 1-4982).
- (10)(v) Parker-Hannifin Corporation Target Incentive Plan incorporated by reference to Exhibit 10(d) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2010 (Commission File No. 1-4982).
- (10)(w) Parker-Hannifin Corporation Target Incentive Plan Subject to Performance Bonus Plan incorporated by reference to Exhibit 10(e) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2010 (Commission File No. 1-4982).
- (10)(x) Form of Notice of FY2010-11-12 Long Term Incentive Performance Award Under the Parker-Hannifin Corporation Performance Bonus Plan incorporated by reference to Exhibit 10(c) to the Registrant's Report on Form 10-Q for the quarterly period ended December 31, 2009 (Commission File No. 1-4982).
- (10)(y) Form of Notice of CY2010-11-12 Long Term Incentive Performance Award Under the Parker-Hannifin Corporation Performance Bonus Plan incorporated by reference to Exhibit 10(w) to the Registrant's Report on Form 10-K for the fiscal year ended June 30, 2010 (Commission File No. 1-4982).
- (10)(z) Parker-Hannifin Corporation Long-Term Incentive Performance Plan Under the Performance Bonus Plan incorporated by reference to Exhibit 10(a) to the Registrant's Report on Form 10-Q for the quarterly period ended March 31, 2013 (Commission File No. 1-4982).
- (10)(aa) Form of Parker-Hannifin Corporation Long-Term Incentive Performance Award Under the Performance Bonus Plan incorporated by reference to Exhibit 10.2 to the Registrant's Report on Form 8-K filed with the Commission on February 1, 2011 (Commission File No. 1-4982).
- (10)(bb) Terms and Conditions of Restricted Stock Issued as a Payout Under the LTI Plan incorporated by reference to Exhibit 10(i) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2010 (Commission File No. 1-4982).

- (10)(cc) Form of Notice of RONA Bonus Award Under the Parker-Hannifin Corporation Performance Bonus Plan incorporated by reference to Exhibit 10(h) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2009 (Commission File No. 1-4982).
- (10)(dd) Parker-Hannifin Corporation RONA Plan Subject to Performance Bonus Plan incorporated by reference to Exhibit 10(f) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2010 (Commission File No. 1-4982).
- (10)(ee) Parker-Hannifin Corporation Summary of RONA Bonus Awards in Lieu of Certain Executive Perquisites incorporated by reference to Exhibit 10(h) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2008 (Commission File No. 1-4982).
- (10)(ff) Parker-Hannifin Corporation Amended and Restated Savings Restoration Plan incorporated by reference to Exhibit 10(i) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2008 (Commission File No. 1-4982).
- (10)(gg) Parker-Hannifin Corporation Amended and Restated Pension Restoration Plan incorporated by reference to Exhibit 10(j) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2008 (Commission File No. 1-4982).
- (10)(hh) Amendment to Parker-Hannifin Corporation Amended and Restated Pension Restoration Plan, effective January 1, 2010, incorporated by reference to Exhibit 10(bb) to the Registrant's Report on Form 10-K for the fiscal year ended June 30, 2010 (Commission File No. 1-4982).
- (10)(ii) Amendment to Parker-Hannifin Corporation Amended and Restated Pension Restoration Plan, effective January 27, 2011, incorporated by reference to Exhibit 10(b) to the Registrant's Report on Form 10-Q for the quarterly period ended March 31, 2011 (Commission File No. 1-4982).
- (10)(jj) Parker-Hannifin Corporation Amended and Restated Executive Deferral Plan incorporated by reference to Exhibit 10(k) to the Registrant's Report on Form 10-Q for the quarterly period ended September 30, 2008 (Commission File No. 1-4982).
- (10)(kk) Parker-Hannifin Corporation Volume Incentive Plan incorporated by reference to Exhibit 10.1 to the Registrant's Report on Form 8-K filed with the Commission on August 18, 2009 (Commission File No. 1-4982).
- (10)(ll) Parker-Hannifin Corporation Claw-back Policy incorporated by reference to Exhibit 10.2 to the Registrant's Report on Form 8-K filed with the Commission on August 18, 2009 (Commission File No. 1-4982).
- (10)(mm) Parker-Hannifin Corporation Non-Employee Directors Stock Option Plan incorporated by reference to Exhibit 10(w) to the Registrant's Report on Form 10-K for the fiscal year ended June 30, 2001 (Commission File No. 1-4982).
- (10)(nn) Parker-Hannifin Corporation Amended and Restated 2004 Non-Employee Directors' Stock Incentive Plan incorporated by reference to Exhibit 10(aa) to the Registrant's Report on Form 10-K for the fiscal year ended June 30, 2009 (Commission File No. 1-4982).
- (10)(oo) Form of Parker-Hannifin Corporation Non-Employee Directors' Restricted Stock Award Agreement incorporated by reference to Exhibit 10(a) to the Registrant's Report on Form 10-Q for the quarterly period ended December 31, 2011 (Commission File No. 1-4982).
- (10)(pp) Parker-Hannifin Corporation Non-Employee Directors' Restricted Stock Award Terms and Conditions incorporated by reference to Exhibit 10(b) to the Registrant's Report on Form 10-Q for the quarterly period ended December 31, 2011 (Commission File No. 1-4982).
- (10)(qq) Amended and Restated Deferred Compensation Plan for Directors of Parker-Hannifin Corporation incorporated by reference to Exhibit 10(b) to the Registrant's Report on Form 10-A for the quarterly period ended September 30, 2008 (Commission File No. 1-4982).
- (10)(rr) Summary of the Compensation of the Non-Employee Members of the Board of Directors, effective October 1, 2010, incorporated by reference to Exhibit 10(c) to the Registrant's Report on Form 10-Q for the quarterly period ended December 31, 2010 (Commission File No. 1-4982).
- (10)(ss) Summary of the Compensation of the Non-Employee Members of the Board of Directors, effective October 24, 2012, incorporated by reference to Exhibit 10(b) to the Registrant's Report on Form 10-Q for the quarterly period ended December 31, 2012 (Commission File No. 1-4982).

Forward-Looking Statements

Forward-looking statements contained in this and other written and oral reports are made based on known events and circumstances at the time of release, and as such, are subject in the future to unforeseen uncertainties and risks. All statements regarding future performance, earnings projections, events or developments are forward-looking statements. It is possible that the future performance and earnings projections of the Company, including its individual segments, may differ materially from current expectations, depending on economic conditions within its mobile, industrial and aerospace markets, and the Company's ability to maintain and achieve anticipated benefits associated with announced realignment activities, strategic initiatives to improve operating margins, actions taken to combat the effects of the current economic environment, and growth, innovation and global diversification initiatives. A change in the economic conditions in individual markets may have a particularly volatile effect on segment performance.

Among other factors which may affect future performance are:

- changes in business relationships with and purchases by or from major customers, suppliers or distributors, including delays or cancellations in shipments, disputes regarding contract terms or significant changes in financial condition, changes in contract cost and revenue estimates for new development programs, and changes in product mix;
- ability to identify acceptable strategic acquisition targets;
- uncertainties surrounding timing, successful completion or integration of acquisitions and similar transactions, including the anticipated closing of the previously announced joint venture with GE Aviation;
- the determination to undertake business realignment activities and the expected costs thereof and, if undertaken, the ability to complete such activities and realize the anticipated cost savings from such activities;
- ability to realize anticipated benefits of the consolidation of the Climate & Industrial Controls Group;
- threats associated with and efforts to combat terrorism;
- uncertainties surrounding the ultimate resolution of outstanding legal proceedings, including the outcome of any appeals;
- competitive market conditions and resulting effects on sales and pricing;
- increases in raw material costs that cannot be recovered in product pricing;
- the Company's ability to manage costs related to insurance and employee retirement and health care benefits; and
- global economic factors, including manufacturing activity, air travel trends, currency exchange rates, difficulties entering new markets and general economic conditions such as inflation, deflation, interest rates and credit availability.

The Company makes these statements as of the date of the filing of its Annual Report on Form 10-K for the year ended June 30, 2013, and undertakes no obligation to update them unless otherwise required by law.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Overview

The Company is a leading worldwide diversified manufacturer of motion and control technologies and systems, providing precision engineered solutions for a wide variety of mobile, industrial and aerospace markets.

The Company's order rates provide a near-term perspective of the Company's outlook particularly when viewed in the context of prior and future order rates. The Company publishes its order rates on a quarterly basis. The lead time between the time an order is received and revenue is realized generally ranges from one day to 12 weeks for mobile and industrial orders and from one day to 18 months for aerospace orders. The Company believes the leading economic indicators of these markets that have a correlation to the Company's future order rates are as follows:

- Purchasing Managers Index (PMI) on manufacturing activity specific to regions around the world with respect to most mobile and industrial markets;
- Global aircraft miles flown and global revenue passenger miles for commercial aerospace markets and Department of Defense spending for military aerospace markets; and
- Housing starts with respect to the North American residential air conditioning market and certain mobile construction markets.

A PMI above 50 indicates that the manufacturing activity specific to a region of the world in the mobile and industrial markets is expanding. A PMI below 50 indicates the opposite. Recent PMI levels for some regions around the world were as follows:

	<u>June 30, 2013</u>	<u>March 31, 2013</u>	<u>June 30, 2012</u>
United States	50.9	51.3	49.7
Eurozone countries	48.8	46.8	45.1
China	48.2	51.6	48.2

Global aircraft miles flown increased one percent from the comparable 2012 level and global revenue passenger miles increased two percent from the comparable 2012 level. The Company anticipates that U.S. Department of Defense spending with regards to appropriations, and operations and maintenance for the U.S. Government's fiscal year 2014 will decrease by one percent from the comparable fiscal 2013 level.

Housing starts in June 2013 were approximately 10 percent higher than housing starts in June 2012 and were approximately 19 percent lower than housing starts in March 2013.

The Company has remained focused on maintaining its financial strength by adjusting its cost structure to reflect changing demand levels, maintaining a strong balance sheet and managing its cash. The Company continues to generate substantial cash flows from operations, has controlled capital spending and has proactively managed working capital. The Company has been able to borrow needed funds at affordable interest rates and had a debt to debt-shareholders' equity ratio of 33.0 percent at June 30, 2013 compared to 35.9 percent at March 31, 2013 and 26.1 percent at June 30, 2012. Net of cash and cash equivalents, the debt to debt-shareholders' equity ratio was 15.4 percent at June 30, 2013 compared to 19.9 percent at March 31, 2013 and 15.4 percent at June 30, 2012.

The Company believes many opportunities for growth are available. The Company intends to focus primarily on business opportunities in the areas of energy, water, food, environment, defense, life sciences, infrastructure and transportation.

The Company believes it can meet its strategic objectives by:

- Serving the customer;
- Successfully executing its Win Strategy initiatives relating to premier customer service, financial performance and profitable growth;
- Maintaining its decentralized division and sales company structure;
- Fostering an entrepreneurial culture;
- Engineering innovative systems and products to provide superior customer value through improved service, efficiency and productivity;
- Delivering products, systems and services that have demonstrable savings to customers and are priced by the value they deliver;
- Acquiring strategic businesses;
- Organizing around targeted regions, technologies and markets;
- Driving efficiency by implementing lean enterprise principles; and
- Creating a culture of empowerment through its values, inclusion and diversity, accountability and teamwork.

During fiscal 2013, the Company completed eight acquisitions whose aggregate sales for their most recent fiscal year prior to acquisition were \$484 million. Acquisitions will continue to be considered from time to time to the extent there is a strong strategic fit, while at the same time maintaining the Company's strong financial position. During fiscal 2013, the Company divested the automotive businesses of the Mobile Climate Systems division and the Turkey refrigeration components business. Both of the divested businesses were part of the Climate & Industrial Controls Segment. The Company recognized a net pre-tax gain of approximately \$18 million related to these divestitures. The Company will continue to assess its existing businesses and initiate efforts to divest businesses that are not considered to be a good long-term strategic fit for the Company. Future business divestitures could have a negative effect on the Company's results of operations.

The discussion below is structured to separately discuss each of the financial statements presented on pages 13-13 to 13-18. All year references are to fiscal years.

Discussion of Consolidated Statement of Income

The Consolidated Statement of Income summarizes the Company's operating performance over the last three fiscal years.

(dollars in millions)	2013	2012	2011
Net sales	\$ 13,016	\$ 13,146	\$ 12,346
Gross profit margin	22.5%	24.2%	24.0%
Selling, general and administrative expenses	\$ 1,555	\$ 1,519	\$ 1,468
Selling, general and administrative expenses, as a percent of sales	11.9%	11.6%	11.9%
Interest expense	\$ 92	\$ 93	\$ 100
Other (income) expense, net	(18)	1	(15)
(Gain) on disposal of assets	(10)	(2)	(8)
Effective tax rate	27.6%	26.7%	25.2%
Net income attributable to common shareholders	\$ 948	\$ 1,152	\$ 1,049

Net sales in 2013 were 1.0 percent lower than 2012. Acquisitions made in the last 12 months contributed approximately \$448 million in sales in 2013 and the effect of currency rate changes decreased net sales in 2013 by approximately \$140 million. Excluding the effect of acquisitions and currency rate changes, net sales in 2013 were 3.3 percent lower than 2012. The decrease in sales in 2013 is primarily due to lower volume experienced in the Industrial Segment.

Net sales in 2012 were 6.5 percent higher than 2011. The increase in sales in 2012 primarily reflects higher volume in the Industrial and Aerospace Segments. Acquisitions contributed approximately \$72 million in sales in 2012. The effect of currency rate changes decreased net sales in 2012 by approximately \$102 million.

Gross profit margin decreased in 2013 primarily due to higher defined benefit costs in all segments, operating inefficiencies in the Industrial Segment and higher engineering development costs in the Aerospace Segment. Gross profit margin was higher in 2012 primarily due to the higher sales volume in the Industrial North American businesses and the Aerospace Segment. Included in gross profit in 2013, 2012 and 2011 were business realignment charges of \$8.4 million, \$12.7 million and \$15.3 million, respectively.

Selling, general and administrative expenses increased 2.3 percent in 2013 and increased 3.5 percent in 2012. The increase in 2013 was primarily due to higher amortization expense and charitable contributions, partially offset by lower net expenses associated with the Company's incentive and deferred compensation programs. The increase in 2012 was primarily due to the higher sales volume as well as higher expenses associated with the Company's incentive and deferred compensation programs.

Interest expense in 2013 decreased primarily due to a lower average interest rate in the debt portfolio during the latter part of 2013 than the debt portfolio during the latter half of 2012 more than offsetting the effect of higher weighted-average borrowings and interest rates on commercial paper borrowings. Interest expense in 2012 decreased primarily due to lower average debt outstanding as well as lower weighted-average interest rates on commercial paper borrowings.

Other (income) expense, net in 2012 included \$8.3 million of expense related to historical tax credits. Other (income) expense, net in 2011 included \$10.9 million of income related to insurance recoveries.

(Gain) on disposal of assets in 2013 includes a net gain of \$14.7 million resulting from business divestiture activity. (Gain) on disposal of assets in 2012 included \$3.7 million of gains from asset sales. (Gain) on disposal of assets in 2011 included income of \$3.8 million related to insurance recoveries for expenses incurred related to a previously divested business, \$3.8 million of expense related to asset writedowns and \$7.5 million of gains from asset sales.

Effective tax rate in 2013 and 2012 was higher primarily due to an unfavorable geographical mix of earnings. Effective tax rate in 2013 was favorably impacted by the enactment of the American Taxpayer Relief Act on January 2, 2013. Effective tax rate in 2012 was favorably impacted by the settlement of tax audits.

Discussion of Business Segment Information

The Business Segment information presents sales, operating income and assets on a basis that is consistent with the manner in which the Company's various businesses are managed for internal review and decision-making. See Note 1 to the Consolidated Financial Statements for a description of the Company's reportable business segments and a discussion of the recent consolidation of the Company's reportable business segments, effective for fiscal periods after June 30, 2013.

Industrial Segment (dollars in millions)

	2013	2012	2011
Sales			
North America	\$ 5,051	\$ 5,041	\$ 4,517
International	4,868	5,034	4,917
Operating income			
North America	845	895	746
International	584	733	754
Operating income as a percent of sales			
North America	16.7%	17.8%	16.5%
International	12.0%	14.6%	15.3%
Backlog	\$ 1,693	\$ 1,814	\$ 1,907
Assets	8,780	7,991	8,414
Return on average assets	17.0%	19.8%	19.1%

Sales in 2013 for the Industrial North American operations increased slightly from 2012 compared to an increase of 11.6 percent from 2011 to 2012. Acquisitions completed within the last 12 months contributed approximately \$217 million in net sales in 2013. Excluding acquisitions, sales in 2013 decreased 4.1 percent from 2012 reflecting lower demand from distributors as well as from end-users in most markets with the largest decline occurring in the construction equipment, oil and gas, mining, heavy-duty truck and machine tool markets.

The increase in sales in 2012 reflects higher demand from distributors and higher end-user demand in a number of markets, particularly in the heavy-duty truck, construction equipment, farm and agriculture equipment, oil and gas and machine tools markets.

Sales in the Industrial International operations decreased 3.3 percent in 2013 following an increase of 2.4 percent from 2011 to 2012. Acquisitions completed within the last 12 months contributed approximately \$231 million in net sales in 2013, most of which related to Europe. The effect of currency rate fluctuations decreased 2013 net sales by approximately \$137 million, half of which related to Europe, a quarter of which related to the Asia Pacific region and a quarter of which related to Latin America. Excluding acquisitions and the effect of currency rate changes, sales in the Industrial International operations decreased 5.2 percent from 2012, primarily due to lower volume across most markets in all regions with the largest decrease equally distributed between Europe and the Asia Pacific region. The sales increase in 2012 is primarily due to higher volume experienced in Europe.

The decrease in operating margins in 2013 in the Industrial North American operations is primarily due to an unfavorable product mix and operating inefficiencies resulting from the decrease in sales volume, partially offset by the favorable effect of lower raw material prices. The decrease in operating margins in 2013 in the Industrial International operations is primarily due to the lower sales volume, resulting in operating inefficiencies, as well as the impact of integration costs related to 2013 acquisitions. Operating margins in 2012 in the Industrial North American operations were higher than the prior year primarily due to the higher sales volume, resulting in manufacturing efficiencies. Industrial International operating margins in 2012 were lower than the prior year primarily due to operating inefficiencies resulting from the decline in the rate of sales growth between 2011 and 2012, especially in Europe and the Asia Pacific region, as well as an unfavorable product mix.

The following business realignment expenses are included in Industrial North America and Industrial International operating income:

(dollars in thousands)	2013	2012	2011
Industrial North America	\$ 2,342	\$ 3,355	\$ 4,223
Industrial International	8,973	9,711	11,204

The business realignment charges consist primarily of severance costs resulting from plant closures as well as general reductions in work force. The Industrial North America business realignment charges for 2012 also include expenses associated with enhanced retirement benefits. The Company does not anticipate that cost savings realized from the work force reductions taken during 2013 will have a material impact on future operating margins. In 2014, the Company expects to take actions necessary to structure appropriately the operations of the Industrial Segment. Such actions are expected to result in approximately \$95 million in business realignment charges in 2014.

The Company anticipates Industrial North American sales for 2014 will range between being flat to increasing 5.0 percent from the 2013 level and Industrial International sales for 2014 will range between being flat to increasing 4.8 percent from the 2013 level. Industrial North American operating margins in 2014 are expected to range from 16.5 percent to 17.1 percent and Industrial International margins are expected to range from 10.3 percent to 10.7 percent. The change in sales and operating margins between 2013 and 2014 include the businesses of the Climate & Industrial Controls Segment, which has been consolidated into the Industrial Segment effective July 1, 2013.

The decline in total Industrial Segment backlog in 2013 is primarily due to lower order rates in both the Industrial North American and Industrial International businesses partially offset by an increase in backlog from acquisitions. The decline in total Industrial Segment backlog in 2012 is primarily due to lower order rates in the Industrial International businesses, especially in Europe and the Asia Pacific region, more than offsetting higher order rates in the Industrial North American businesses.

The increase in assets in 2013 was primarily due to acquisitions as well as increases in plant and equipment, net and cash and cash equivalents, partially offset by the effect of currency fluctuations as well as decreases in inventory and intangible assets, net. The decrease in assets in 2012 was primarily due to the effect of currency fluctuations as well as decreases in cash and cash equivalents, inventory, intangible assets, net and deferred taxes partially offset by an increase in accounts receivable, net.

Aerospace Segment (dollars in millions)

	2013	2012	2011
Sales	\$ 2,268	\$ 2,103	\$ 1,922
Operating income	280	290	247
Operating income as a percent of sales	12.4%	13.8%	12.9%
Backlog	\$ 1,936	\$ 1,862	\$ 1,702
Assets	1,140	1,033	995
Return on average assets	25.8%	28.6%	25.9%

Sales in 2013 increased 7.8 percent compared to an increase of 9.4 percent from 2011 to 2012. The increase in net sales in 2013 is primarily due to higher volume in all businesses with the largest increase being experienced in the commercial and military original equipment manufacturer (OEM) businesses. The increase in net sales in 2012 is primarily due to higher volume in both the commercial and military OEM and aftermarket businesses.

The lower margin in 2013 is primarily due to higher engineering development costs, including fuel cell development, more than offsetting the benefit of the higher sales volume. The higher margin in 2012 is primarily due to the higher sales volume, particularly in the higher margin commercial aftermarket business, partially offset by higher engineering development costs.

The increase in backlog in 2013 is primarily due to higher commercial and military OEM orders and commercial aftermarket orders partially offset by lower military aftermarket orders. The increase in backlog in 2012 is primarily due to higher order rates in the military OEM businesses.

For 2014, sales are expected to range from being flat to increasing 4.0 percent from the 2013 level and operating margins are expected to range from 12.4 percent to 13.4 percent. A higher concentration of commercial OEM volume in future product mix and higher than expected new product development costs could result in lower margins. The change in sales and operating margins between 2013 and 2014 include the impact of the anticipated formation of the previously announced joint venture with GE Aviation.

The increase in assets in 2013 and 2012 was primarily due to increases in accounts receivable, net, inventory and intangible assets, net.

Climate & Industrial Controls Segment

(dollars in millions)

	2013	2012	2011
Sales	\$ 830	\$ 968	\$ 990
Operating income	82	84	76
Operating income as a percent of sales	9.9%	8.7%	7.7%
Backlog	\$ 110	\$ 160	\$ 171
Assets	608	705	725
Return on average assets	12.5%	11.8%	10.7%

Sales in 2013 decreased 14.3 percent compared to a decrease of 2.3 percent from 2011 to 2012. The decrease in sales in 2013 is primarily due to the absence of sales from businesses divested in 2013 as well as lower volume in the commercial refrigeration and air conditioning markets. The decrease in sales in 2012 is primarily due to lower end-user demand in the commercial refrigeration and residential air conditioning markets, partially offset by an increase in volume in the automotive and heavy-duty truck markets. Operating margins in 2013 and 2012 were higher primarily due to spending control efforts and lower material costs more than offsetting the impact of the lower sales volume and an unfavorable product mix.

The decrease in assets in 2013 was primarily due to the absence of assets from businesses divested in 2013. The decrease in assets in 2012 was primarily due to the effect of currency fluctuations as well as decreases in inventory, plant and equipment, net, and intangible assets, net.

Corporate assets increased 39.7 percent in 2013 compared to an increase of 91.3 percent from 2011 to 2012. The change in Corporate assets in 2013 and 2012 was primarily due to fluctuations in the amount of cash and cash equivalents and deferred taxes.

Discussion of Consolidated Balance Sheet

The Consolidated Balance Sheet shows the Company's financial position at year-end, compared with the previous year-end. This discussion provides information to assist in assessing factors such as the Company's liquidity and financial resources.

(dollars in millions)	2013	2012
Cash and cash equivalents	\$ 1,781	\$ 838
Accounts receivable, net	2,063	1,992
Inventories	1,377	1,401
Notes payable and long-term debt payable within one year	1,334	226
Pensions and postretirement benefits	1,372	1,910
Shareholders' equity	5,738	4,897
Working capital	\$ 2,011	\$ 2,012
Current ratio	1.6	1.8

Cash and cash equivalents include \$1,655 million and \$629 million held by the Company's foreign subsidiaries at June 30, 2013 and June 30, 2012, respectively. Generally, cash and cash equivalents held by foreign subsidiaries are not readily available for use in the United States without adverse tax consequences. The Company's principal sources of liquidity are its cash flows provided by operating activities, commercial paper borrowings or borrowings directly from its line of credit. The Company does not believe the level of its non-U.S. cash position will have an adverse effect on working capital needs, planned growth, repayment of maturing debt, benefit plan funding, dividend payments or share repurchases.

Accounts receivable, net are primarily receivables due from customers for sales of product (\$1,841 million at June 30, 2013 and \$1,782 million at June 30, 2012). Days sales outstanding relating to trade receivables for the Company was 49 days in 2013 and 48 days in 2012. The Company believes that its receivables are collectible and appropriate allowances for doubtful accounts have been recorded.

Inventories decreased \$24 million (which includes a decrease of \$7 million from the effect of foreign currency translation) primarily due to a decrease in inventory levels in the Industrial Segment partially offset by acquisitions and an increase in inventory levels in the Aerospace Segment. Days supply of inventory on hand was 62 days in 2013 and 63 days in 2012. Days supply of inventory amount at June 30, 2012 has been revised from the amount previously presented to conform to the current calculation methodology.

Notes payable and long-term debt payable within one year increased primarily due to a higher amount of commercial paper borrowings outstanding at the end of 2013. The Company from time to time will utilize short-term intercompany loans to repay commercial paper borrowings. At times, the short-term intercompany loans are outstanding at the end of a fiscal quarter.

Pensions and postretirement benefits decreased primarily due to an increase in the funded status of the Company's defined benefit pension plans. The change in this amount is further explained in Note 10 to the Consolidated Financial Statements.

Shareholders' equity activity during 2013 included a decrease of \$257 million related to share repurchases, an increase of \$325 million related to pensions and postretirement benefits, and a decrease of \$17 million related to foreign currency translation adjustments.

Discussion of Consolidated Statement of Cash Flows

The Consolidated Statement of Cash Flows reflects cash inflows and outflows from the Company's operating, investing and financing activities.

A summary of cash flows follows:

(dollars in millions)	2013	2012	2011
Cash provided by (used in):			
Operating activities	\$ 1,191	\$ 1,530	\$ 1,167
Investing activities	(810)	(376)	(245)
Financing activities	576	(823)	(916)
Effect of exchange rates	(14)	(150)	76
Net increase in cash and cash equivalents	\$ 943	\$ 181	\$ 82

Cash Flows From Operating Activities decreased from 2012 primarily due to a decrease in net income as well as \$226 million of voluntary cash contributions made to the Company's domestic qualified defined benefit pension plan in 2013. Cash flows from operating activities increased from 2011 primarily due to an increase in net income as well as the absence of voluntary contributions made to the Company's qualified defined benefit plans in 2012. The Company made \$400 million in voluntary cash contributions to the Company's domestic qualified defined benefit plan in 2011.

Cash Flows Used In Investing Activities increased from 2012 and 2011 primarily due to an increase in acquisition activity and capital expenditures. Cash flows used in investing activities in 2013 was favorably impacted by net proceeds from business divestitures.

Cash Flows Used In Financing Activities in 2013 included the repurchase of approximately 3.0 million common shares for \$257 million as compared to the repurchase of 6.4 million common shares for \$455 million in 2012. In both 2013 and 2012, the Company purchased the outstanding shares not previously owned by the Company in majority-owned subsidiaries. Cash flows used in financing activities in 2013 include a higher level of commercial paper borrowings due to the increase in acquisition activity. Cash flows used in financing activities in 2012 included a borrowing and a repayment, each for Japanese Yen (JPY) 6 billion (approximately \$73 million), under the terms of separate credit facilities. Cash flows used in financing activities in 2011 included the issuance of \$300 million aggregate principal amount of medium-term notes and a payment of approximately \$257 million related to Euro bonds, which matured in November 2010.

Dividends have been paid for 252 consecutive quarters, including a yearly increase in dividends for the last 57 fiscal years. The current annual dividend rate is \$1.80.

The Company's goal is to maintain no less than an "A" rating on senior debt to ensure availability and reasonable cost of external funds. As one means of achieving this objective, the Company has established a financial goal of maintaining a ratio of debt to debt-shareholders' equity of no more than 37 percent.

Debt to Debt-Shareholders' Equity Ratio (dollars in millions)	2013	2012
Debt	\$ 2,830	\$ 1,730
Debt & Shareholders' Equity	8,568	6,626
Ratio	33.0%	26.1%

As of June 30, 2013, the Company had a line of credit totaling \$2,000 million through a multi-currency revolving credit agreement with a group of banks, of which \$669 million was available at June 30, 2013. The credit agreement expires in October 2017; however, the Company has the right to request a one-year extension of the expiration date on an annual basis, which request may result in changes to the current terms and conditions of the credit agreement. Advances from the credit agreement can be used for general corporate purposes, including acquisitions, and for the refinancing of existing indebtedness. The revolving credit agreement requires the payment of an annual facility fee, the amount of which would increase in the event the Company's credit ratings are lowered. Although a lowering of the Company's credit ratings would likely increase the cost

of future debt, it would not limit the Company's ability to use the credit agreement nor would it accelerate the repayment of any outstanding borrowings.

The Company is currently authorized to sell up to \$1,850 million of short-term commercial paper notes. As of June 30, 2013, \$1,331 million of commercial paper notes were outstanding and the largest amount of commercial paper notes outstanding during the last quarter of 2013 was \$1,525 million.

The Company's credit agreements and indentures governing certain debt agreements contain various covenants, the violation of which would limit or preclude the use of the applicable agreements for future borrowings, or might accelerate the maturity of the related outstanding borrowings covered by the applicable agreements. Based on the Company's rating level at June 30, 2013, the most restrictive financial covenant contained in the credit agreements and the indentures provides that the ratio of secured debt to net tangible assets be less than 10 percent. However, the Company currently does not have secured debt in its debt portfolio. The Company is in compliance with all covenants and expects to remain in compliance during the term of the credit agreements and indentures.

Contractual Obligations - The total amount of gross unrecognized tax benefits, including interest, for uncertain tax positions was \$112.6 million at June 30, 2013. Payment of these obligations would result from settlements with worldwide taxing authorities. Due to the difficulty in determining the timing of the settlements, these obligations are not included in the following summary of the Company's fixed contractual obligations. References to Notes are to the Notes to the Consolidated Financial Statements.

(dollars in millions)	Payments due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Contractual obligations					
Long-term debt (Note 9)	\$ 1,498	\$ 2	\$ 260	\$ 511	\$ 725
Interest on long-term debt	803	73	140	123	467
Operating leases (Note 9)	281	86	96	38	61
Retirement benefits (Note 10)	200	150	12	12	26
Total	\$ 2,782	\$ 311	\$ 508	\$ 684	\$ 1,279

Quantitative and Qualitative Disclosures About Market Risk

The Company manages foreign currency transaction and translation risk by utilizing derivative and non-derivative financial instruments, including forward exchange contracts, costless collar contracts, cross-currency swap contracts and certain foreign denominated debt designated as net investment hedges. The derivative financial instrument contracts are with major investment grade financial institutions and the Company does not anticipate any material non-performance by any of the counterparties. The Company does not hold or issue derivative financial instruments for trading purposes.

Derivative financial instruments are recognized on the Consolidated Balance Sheet as either assets or liabilities and are measured at fair value. Further information on the fair value of these contracts is provided in Note 15 to the Consolidated Financial Statements. Gains or losses on derivatives that are not hedges are adjusted to fair value through the Consolidated Statement of Income. Gains or losses on derivatives that are hedges are adjusted to fair value through accumulated other comprehensive income (loss) in the Consolidated Balance Sheet until the hedged item is recognized in earnings. The translation of the foreign denominated debt that has been designated as a net investment hedge is recorded in accumulated other comprehensive income (loss) and remains there until the underlying net investment is sold or substantially liquidated.

The Company's debt portfolio contains variable rate debt, inherently exposing the Company to interest rate risk. The Company's objective is to maintain a 60/40 mix between fixed rate and variable rate debt thereby limiting its exposure to changes in near-term interest rates. A 100 basis point increase in near-term interest rates would increase annual interest expense on variable rate debt existing at June 30, 2013 by approximately \$12.3 million.

Off-Balance Sheet Arrangements

The Company does not have off-balance sheet arrangements.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The policies discussed below are considered by management to be more critical than other policies because their application places the most significant demands on management's judgment.

Revenue Recognition - Substantially all of the Industrial Segment and Climate & Industrial Controls Segment revenues are recognized when persuasive evidence of an arrangement exists, product has shipped and the risks and rewards of ownership have transferred or services have been rendered, the price to the customer is fixed and determinable and collectibility is reasonably assured, which is generally at the time the product is shipped. The Aerospace Segment recognizes revenues primarily using the percentage of completion method and the extent of progress toward completion is primarily measured using the units-of-delivery method. The Company estimates costs to complete long-term contracts for purposes of evaluating and establishing contract reserves. The estimation of these costs requires substantial judgment on the part of management due to the duration of the contractual agreements as well as the technical nature of the products involved. Adjustments to cost estimates are made on a consistent basis and a contract reserve is established when the estimated costs to complete a contract exceed the expected contract revenues.

Impairment of Goodwill and Long-lived Assets - Goodwill is tested for impairment, at the reporting unit level, on an annual basis and between annual tests whenever events or circumstances indicate that the carrying value of a reporting unit may exceed its fair value. For the Company, a reporting unit is one level below the operating segment level. Determining whether an impairment has occurred requires the valuation of the respective reporting unit, which the Company has consistently estimated using primarily a discounted cash flow model. The Company believes that the use of a discounted cash flow model results in the most accurate calculation of a reporting unit's fair value since the market value for a reporting unit is not readily available. The discounted cash flow analysis requires several assumptions including future sales growth and operating margin levels as well as assumptions regarding future industry specific market conditions. Each reporting unit regularly prepares discrete operating forecasts and uses these forecasts as the basis for the assumptions used in the discounted cash flow analysis. The Company has consistently used a discount rate commensurate with its cost of capital, adjusted for inherent business risks, and has consistently used a terminal growth factor of 2.5 percent. The Company also reconciles the estimated aggregate fair value of its reporting units as derived from the discounted cash flow analysis to the Company's overall market capitalization.

The results of the Company's fiscal 2013 annual goodwill impairment test performed as of December 31, 2012 indicated that no goodwill impairment existed. The results of the Company's annual goodwill impairment test and rollforward procedures performed as of June 30, 2013 indicated that the following reporting units had an estimated fair value that the Company determined was not significantly in excess of its carrying value (dollars in millions).

Reporting Unit	Goodwill Balance	Fair Value In Excess of Carrying Value
Worldwide Energy Products	\$ 176.0	114.2%
Hiross/Zander	102.3	107.2%
SSD Drives	45.0	104.8%

All of these reporting units are part of the Industrial Segment and the sales growth assumption had the most significant influence on the estimation of fair value.

The sales growth assumption for Worldwide Energy Products was based on future business already secured or highly likely to be secured with existing customers based on current quoting activity and forecasted demand for the oil and gas industry as well as sales initiatives to expand the use of the reporting unit's products in the oil and gas industry.

The sales growth assumption for Hiross/Zander was based on forecasted market data specific to the products this reporting unit currently manufactures as well as new product introductions and sales initiatives to expand market share.

The sales growth assumption for SSD Drives was based on market data research, historical sales trends and new product introductions.

The key uncertainty in the sales growth assumption used in the estimation of the fair value for all these reporting units is actual market demand versus forecasted demand as well as the ability to successfully introduce new products in the marketplace and expand market share.

The Company continually monitors its reporting units for impairment indicators and updates assumptions used in the most recent calculation of the fair value of a reporting unit as appropriate. The Company is unaware of any current market trends that are contrary to the assumptions made in the estimation of the fair value of any of its reporting units. If actual experience is not consistent with the assumptions made in the estimation of the fair value of the reporting units, especially assumptions regarding penetration into new markets and the recovery of the current economic environment, it is possible that the estimated fair value of certain reporting units could fall below their carrying value resulting in the necessity to conduct additional goodwill impairment tests.

Long-lived assets held for use, which primarily includes finite-lived intangible assets and property, plant and equipment, are evaluated for impairment whenever events or circumstances indicate that the undiscounted net cash flows to be generated by their use over their expected useful lives and eventual disposition are less than their carrying value. The long-term nature of these assets requires the estimation of their cash inflows and outflows several years into the future and only takes into consideration technological advances known at the time of the impairment test. During 2013, there were no events or circumstances that indicated that the carrying value of the Company's long-lived assets held for use were not recoverable.

Inventories - Inventories are valued at the lower of cost or market. Cost is determined on the last-in, first-out basis for a majority of domestic inventories and on the first-in, first-out basis for the balance of the Company's inventories. Inventories have been reduced by an allowance for obsolete inventories. The estimated allowance is based on management's review of inventories on hand compared to estimated future usage and sales. Changes in the allowance have not had a material effect on the Company's results of operations, financial position or cash flows.

Pensions and Postretirement Benefits Other Than Pensions - The annual net periodic expense and benefit obligations related to the Company's defined benefit plans are determined on an actuarial basis. This determination requires critical assumptions regarding the discount rate, long-term rate of return on plan assets, increases in compensation levels, amortization periods for actuarial gains and losses and health care cost trends.

Assumptions are determined based on Company data and appropriate market indicators, and are evaluated each year as of the plans' measurement date. Changes in the assumptions to reflect actual experience as well as the amortization of actuarial gains and losses could result in a material change in the annual net periodic expense and benefit obligations reported in the financial statements. For the Company's domestic defined benefit plans, a 50 basis point change in the assumed long-term rate of return on plan assets is estimated to have an \$11 million effect on pension expense and a 50 basis point decrease in the discount rate is estimated to increase pension expense by \$27 million. As of June 30, 2013, \$1,157 million of past years' net actuarial losses related to the Company's domestic qualified defined benefit plans are subject to amortization in the future. These losses will generally be amortized over approximately eight years and will negatively affect earnings in the future. Actuarial gains experienced in future years will help reduce the effect of the actuarial loss amortization.

Further information on pensions and postretirement benefits other than pensions is provided in Note 10 to the Consolidated Financial Statements.

Stock-Based Compensation - The computation of the expense associated with stock-based compensation requires the use of a valuation model. The Company currently uses a Black-Scholes option pricing model to calculate the fair value of its stock options and stock appreciation rights. The Black-Scholes model requires assumptions regarding the volatility of the Company's stock, the expected life of the stock award and the Company's dividend ratio. The Company primarily uses historical data to determine the assumptions to be used in the Black-Scholes model and has no reason to believe that future data is likely to differ materially from historical data. However, changes in the assumptions to reflect future stock price volatility, future dividend payments and future stock award exercise experience could result in a change in the assumptions used to value awards in the future and may result in a material change to the fair value calculation of stock-based awards. Further information on stock-based compensation is provided in Note 12 to the Consolidated Financial Statements.

Income Taxes - Significant judgment is required in determining the Company's income tax expense and in evaluating tax positions. Deferred income tax assets and liabilities have been recorded for the differences between the financial accounting and income tax basis of assets and liabilities. Factors considered by the Company in determining the probability of realizing deferred income tax assets include forecasted operating earnings, available tax planning strategies and the time period over which the temporary differences will reverse. The Company reviews its tax positions on a regular basis and adjusts the balances as new information becomes available. Further information on income taxes is provided in Note 4 to the Consolidated Financial Statements.

Other Loss Reserves - The Company has a number of loss exposures incurred in the ordinary course of business such as environmental claims, product liability, litigation and accounts receivable reserves. Establishing loss reserves for these matters requires management's estimate and judgment with regards to risk exposure and ultimate liability or realization. These loss reserves are reviewed periodically and adjustments are made to reflect the most recent facts and circumstances.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2013, the Financial Accounting Standards Board (FASB) issued new accounting guidance requiring an entity to provide information about the amounts reclassified out of accumulated other comprehensive income (AOCI) by component. For items reclassified out of AOCI in their entirety, the disclosure of the income statement line where those items are reflected is also required. Cross-reference to disclosures providing additional information is required for other items not reclassified in their entirety. The guidance does not change the current requirements for reporting net income or other comprehensive income. The guidance, which must be presented prospectively, is effective for fiscal years, and interim periods within those years, beginning after December 15, 2012.

Consolidated Statement of Income

(Dollars in thousands, except per share amounts)	For the years ended June 30,		
	2013	2012	2011
Net Sales	\$ 13,015,704	\$ 13,145,942	\$ 12,345,870
Cost of sales	10,086,675	9,958,337	9,387,457
Gross profit	2,929,029	3,187,605	2,958,413

The accounting policies of the business segments are the same as those described in the Significant Accounting Policies footnote except that the business segment results are prepared on a basis that is consistent with the manner in which the Company's management disaggregates financial information for internal review and decision-making.

- (a) Corporate assets are principally cash and cash equivalents, domestic deferred income taxes, investments, benefit plan assets, headquarters facilities and the major portion of the Company's domestic data processing equipment.
- (b) Includes the value of net plant and equipment at the date of acquisition of acquired companies (2013 - \$74,439; 2012 - \$28,929; 2011 - \$5,376).
- (c) Net sales are attributed to countries based on the location of the selling unit. North America includes the United States, Canada and Mexico. No country other than the United States represents greater than 10 percent of consolidated sales. Long-lived assets are comprised of plant and equipment based on physical location.

Notes to Consolidated Financial Statements

(Dollars in thousands, except per share amounts)

1. Significant Accounting Policies

The significant accounting policies followed in the preparation of the accompanying consolidated financial statements are summarized below.

Nature of Operations - The Company is a leading worldwide diversified manufacturer of motion and control technologies and systems, providing precision engineered solutions for a wide variety of mobile, industrial and aerospace markets. The Company evaluates performance based on segment operating income before corporate and administrative expenses, interest expense and income taxes.

As of June 30, 2013, the Company operated in three business segments: Industrial, Aerospace and Climate & Industrial Controls. The Industrial Segment is an aggregation of several business units, which manufacture motion-control and fluid power system components for builders and users of various types of manufacturing, packaging, processing, transportation, agricultural, construction, and military vehicles and equipment. Industrial Segment products are marketed primarily through field sales employees and independent distributors. The Industrial North American operations have manufacturing plants and distribution networks throughout the United States, Canada and Mexico and primarily service North America. The Industrial International operations provide Parker products and services to 46 countries throughout Europe, Asia Pacific, Latin America, the Middle East and Africa.

The Aerospace Segment produces hydraulic, fuel, pneumatic and electro-mechanical systems and components, which are utilized on virtually every domestic commercial, military and general aviation aircraft and also performs a vital role in naval vessels and land-based weapons systems. This Segment serves original equipment and maintenance, repair and overhaul customers worldwide. Aerospace Segment products are marketed by field sales employees and are sold directly to manufacturers and end users.

The Climate & Industrial Controls Segment manufactures motion-control systems and components for use primarily in the refrigeration and air conditioning and transportation industries. The products in the Climate & Industrial Controls Segment are marketed primarily through field sales employees and independent distributors. Effective July 1, 2013, the businesses of the Climate & Industrial Controls Segment will be consolidated into various business units of the Industrial Segment. As a result of this consolidation and resulting change in management structure, beginning in fiscal 2014, the Company will have two reporting segments: Diversified Industrial and Aerospace Systems.

See the table of Business Segment Information "By Industry" and "By Geographic Area" on pages 13-15 and 13-16 for further disclosure of business segment information.

There are no individual customers to whom sales are more than three percent of the Company's consolidated sales. Due to the diverse group of customers throughout the world the Company does not consider itself exposed to any concentration of credit risks.

The Company manufactures and markets its products throughout the world. Although certain risks and uncertainties exist, the diversity and breadth of the Company's products and geographic operations mitigate the risk that adverse changes with respect to any particular product and geographic operation would materially affect the Company's operating results.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Basis of Consolidation - The consolidated financial statements include the accounts of all majority-owned domestic and foreign subsidiaries. All intercompany transactions and profits have been eliminated in the consolidated financial statements. The Company does not have off-balance sheet arrangements. Within the Business Segment Information, intersegment and interarea sales have been eliminated.

Revenue Recognition - Revenue is recognized when persuasive evidence of an arrangement exists, product has shipped and the risks and rewards of ownership have transferred or services have been rendered, the price to the customer is fixed and determinable and collectibility is reasonably assured, which is generally at the time the product is shipped. Shipping and handling costs billed to customers are included in net sales and the related costs in cost of sales.

Long-term Contracts - The Company enters into long-term contracts primarily for the production of aerospace products. For financial statement purposes, revenues are primarily recognized using the percentage-of-completion method. The extent of progress toward completion is primarily measured using the units-of-delivery method. Unbilled costs on these contracts are included in inventory. Progress payments are netted against the inventory balances. The Company estimates costs to complete long-term contracts for purposes of evaluating and establishing contract reserves. Adjustments to cost estimates are made on a consistent basis and a contract reserve is established when the estimated costs to complete a contract exceed the expected contract revenues.

Cash - Cash equivalents consist of short-term highly liquid investments, with a three-month or less maturity, carried at cost plus accrued interest, which are readily convertible into cash.

Accounts Receivable - The accounts receivable, net caption in the Consolidated Balance Sheet is comprised of the following components:

June 30,	2013	2012
Accounts receivable, trade	\$ 1,855,644	\$ 1,792,961
Allowance for doubtful accounts	(14,824)	(10,518)
Non-trade accounts receivable	110,394	84,872
Notes receivable	111,531	124,969
Total	\$ 2,062,745	\$ 1,992,284

Accounts receivable are initially recorded at their net collectible amount and are generally recorded at the time the revenue from the sales transaction is recorded. Receivables are written off to bad debt primarily when, in the judgment of the Company, the receivable is deemed to be uncollectible due to the insolvency of the debtor.

Inventories - Inventories are stated at the lower of cost or market. The majority of domestic inventories are valued by the last-in, first-out method and the balance of the Company's inventories are valued by the first-in, first-out method.

Plant, Equipment and Depreciation - Plant and equipment are recorded at cost and are depreciated principally using the straight-line method for financial reporting purposes. Depreciation rates are based on estimated useful lives of the assets, generally 40 years for buildings, 15 years for land improvements and building equipment, seven to 10 years for machinery and equipment, and three to eight years for vehicles and office equipment. Improvements, which extend the useful life of property, are capitalized, and maintenance and repairs are expensed. The Company reviews plant and equipment for impairment whenever events or changes in circumstances indicate that their carrying value may not be recoverable. When plant and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the appropriate accounts and any gain or loss is included in current income.

Investments and Other Assets - Investments in joint-venture companies in which ownership is 50 percent or less and in which the Company does not have operating control are stated at cost plus the Company's equity in undistributed earnings. These investments and the related earnings are not material to the consolidated financial statements. Also included in this balance sheet caption is non-current deferred income taxes of \$319,586 and \$571,039 at June 30, 2013 and June 30, 2012, respectively.

Goodwill - The Company conducts a formal impairment test of goodwill on an annual basis and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value.

Intangible Assets - Intangible assets primarily include patents, trademarks and customer lists and are recorded at cost and amortized on a straight-line method. Patents are amortized over the shorter of their remaining useful or legal life. Trademarks are amortized over the estimated time period over which an economic benefit is expected to be received. Customer lists are amortized over a period based on anticipated customer attrition rates. The Company reviews intangible assets for impairment whenever events or changes in circumstances indicate that their carrying value may not be recoverable.

Income Taxes - Income taxes are provided based upon income for financial reporting purposes. Deferred income taxes arise from temporary differences in the recognition of income and expense for tax purposes. Tax credits and similar tax incentives are applied to reduce the provision for income taxes in the year in which the credits arise. The Company recognizes accrued interest related to unrecognized tax benefits in income tax expense. Penalties, if incurred, are recognized in income tax expense.

Product Warranty - In the ordinary course of business the Company warrants its products against defect in design, materials and workmanship over various time periods. The warranty accrual at June 30, 2013 and 2012 is immaterial to the financial position of the Company and the change in the accrual during 2013, 2012 and 2011 was immaterial to the Company's results of operations and cash flows.

Foreign Currency Translation - Assets and liabilities of most foreign subsidiaries are translated at current exchange rates, and income and expenses are translated using weighted-average exchange rates. The effects of these translation adjustments, as well as gains and losses from certain intercompany transactions, are reported in the accumulated other comprehensive (loss) component of shareholders' equity. Such adjustments will affect net income only upon sale or liquidation of the underlying foreign investments, which is not contemplated at this time. Exchange gains and losses from transactions in a currency other than the local currency of the entity involved, and translation adjustments in countries with highly inflationary economies, are included in net income.

Subsequent Events - The Company has evaluated subsequent events that have occurred through the date of filing of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2013. No subsequent events occurred that required adjustment to these financial statements. In July 2013, final regulatory approval was received for a previously announced agreement to form a joint venture between the Company and GE Aviation. The joint venture is expected to be formed in fiscal 2014.

Recent Accounting Pronouncements - In February 2013, the Financial Accounting Standards Board (FASB) issued new accounting guidance requiring an entity to provide information about the amounts reclassified out of accumulated other comprehensive income (AOCI) by component. For items reclassified out of AOCI in their entirety, the disclosure of the income statement line where those items are reflected is also required. Cross-reference to disclosures providing additional information is required for other items not reclassified in their entirety. The guidance does not change the current requirements for reporting net income or other comprehensive income. The guidance, which must be presented prospectively, is effective for fiscal years, and interim periods within those years, beginning after December 15, 2012.

2. Acquisitions and Divestitures

Acquisitions - During 2013, the Company completed eight acquisitions whose aggregate sales for their most recent fiscal year prior to acquisition were \$484 million. Total purchase price for the eight acquisitions was approximately \$621 million in cash and \$114 million in assumed debt.

During 2012, the Company completed four acquisitions whose aggregate sales for their most recent fiscal year prior to acquisition were \$141 million. Total purchase price for the four acquisitions in 2012 was approximately \$156 million in cash. Also during 2012, the Company purchased the outstanding shares not previously owned by the Company in two majority-owned subsidiaries. Total purchase price for the two majority-owned subsidiaries was \$147 million in cash.

During 2011, the Company completed three acquisition whose aggregate sales for their most recent fiscal year prior to acquisition were \$65 million. Total purchase price for the three acquisitions was approximately \$61 million in cash.

The results of operations for all acquisitions are included as of the respective dates of acquisition. The initial purchase price allocation and subsequent purchase price adjustments for acquisitions in 2013, 2012 and 2011 are presented below. Some of the 2013 acquisitions are still subject to purchase price adjustments.

	2013	2012	2011
Assets:			
Accounts receivable	\$ 91,668	\$ 24,833	\$ 9,332
Inventories	93,915	29,102	7,908
Prepaid expenses	4,672	1,541	69
Deferred income taxes	(1,713)	5,679	468
Plant and equipment	74,439	28,929	5,376
Intangible and other assets	280,001	59,576	35,094
Goodwill	317,879	68,144	8,715
	<u>860,861</u>	<u>217,804</u>	<u>66,962</u>
Liabilities and equity:			
Notes payable	11,920	1,887	—
Accounts payable, trade	46,596	7,189	2,440
Accrued payrolls and other compensation	12,099	3,672	765
Accrued domestic and foreign taxes	7,073	2,882	215
Other accrued liabilities	16,805	5,984	1,500
Long-term debt	102,122	4,365	—
Pensions and other postretirement benefits	2,125	11,396	—
Deferred income taxes	39,214	24,062	1,815
Other liabilities	689	111	—
Noncontrolling interests	1,074	—	—
	<u>239,717</u>	<u>61,548</u>	<u>6,735</u>
Net assets acquired	<u>\$ 621,144</u>	<u>\$ 156,256</u>	<u>\$ 60,227</u>

Divestitures - During 2013, the Company completed several divestitures, the primary ones being the automotive businesses of its Mobile Climate Systems division and its Turkey refrigeration components business. Both of these businesses were part of the Climate & Industrial Control Segment and had combined revenues of approximately \$158 million for their most recent fiscal year. The Company recorded a net pre-tax gain during 2013 of approximately \$18 million related to these divestitures. The gain is reflected in the (gain) on disposal of assets caption in the Consolidated Statement of Income.

3. Charges Related to Business Realignment

To structure its businesses in light of current and anticipated customer demand, the Company incurred business realignment charges in 2013, 2012 and 2011.

Business realignment charges by business segment are as follows:

	2013	2012	2011
Industrial	\$ 11,315	\$ 13,066	\$ 15,427
Aerospace	—	—	1,024
Climate & Industrial Controls	919	1,255	—

Work force reductions by business segment are as follows:

	2013	2012	2011
Industrial	644	496	466
Aerospace	—	—	49
Climate & Industrial Controls	81	25	—

The charges primarily consist of severance costs related to plant closures as well as general work force reductions implemented by various operating units throughout the world. In addition, \$1,918 of severance costs for 98 people have been recognized in connection with the Company's divestiture of its Turkey refrigeration components business and is reflected in the other expense caption in the Business Segment Information for 2013. The business realignment charges in 2012 also included charges related to enhanced retirement benefits. The Company believes the realignment actions taken will positively impact future results of operations, but will have no material effect on liquidity and sources and uses of capital.

The business realignment charges are presented in the Consolidated Statement of Income as follows:

	2013	2012	2011
Cost of sales	\$ 8,354	\$ 12,669	\$ 15,276
Selling, general and administrative expenses	3,880	1,020	1,175
Other (income) expense, net	1,918	632	—

As of June 30, 2013, approximately \$10 million in severance payments had been made relating to charges incurred during 2013, with the majority of the remaining payments expected to be made by March 31, 2014. All required severance payments have been made relating to charges incurred in 2012 and 2011. Additional charges to be recognized in future periods related to the realignment actions described above are not expected to be material.

4. Income Taxes

Income before income taxes was derived from the following sources:

	2013	2012	2011
United States	\$ 653,622	\$ 810,150	\$ 681,910
Foreign	657,379	766,548	731,811
	<u>\$ 1,311,001</u>	<u>\$ 1,576,698</u>	<u>\$ 1,413,721</u>

Income taxes include the following:

	2013	2012	2011
Federal			
Current	\$ 167,350	\$ 255,991	\$ 121,292
Deferred	26,523	(48,252)	34,136
Foreign			
Current	176,739	191,167	193,064
Deferred	(28,472)	(29)	(24,229)
State and local			
Current	19,496	30,500	21,500
Deferred	581	(8,171)	10,808
	<u>\$ 362,217</u>	<u>\$ 421,206</u>	<u>\$ 356,571</u>

A reconciliation of the Company's effective income tax rate to the statutory Federal rate follows:

	2013	2012	2011
Statutory Federal income tax rate	35.0 %	35.0 %	35.0 %
State and local income taxes	1.0	0.9	1.8
Foreign tax rate difference	(5.8)	(5.8)	(8.7)
Cash surrender value of life insurance	(0.7)	0.1	(0.9)
Federal manufacturing deduction	(1.0)	(1.6)	(0.9)
Research tax credit	(1.1)	(0.4)	(1.1)
Other	0.2	(1.5)	—
Effective income tax rate	<u>27.6 %</u>	<u>26.7 %</u>	<u>25.2 %</u>

Deferred income taxes are provided for the temporary differences between the financial reporting basis and the tax basis of assets and liabilities. The differences comprising the net deferred taxes shown on the Consolidated Balance Sheet at June 30 were as follows:

	2013	2012
Retirement benefits	\$ 535,260	\$ 751,676
Other liabilities and reserves	113,257	134,358
Long-term contracts	26,714	27,726
Stock-based incentive compensation	59,274	70,129
Loss carryforwards	286,180	175,571
Unrealized currency exchange gains and losses	14,639	9,057
Inventory	15,570	18,535
Foreign tax credit carryforward	25,195	19,079
Depreciation and amortization	(527,860)	(480,791)
Valuation allowance	(273,413)	(176,079)
Net deferred tax asset	<u>\$ 274,816</u>	<u>\$ 549,261</u>
Change in net deferred tax asset:		
Provision for deferred tax	\$ 1,368	\$ 56,452
Items of other comprehensive (loss)	(194,746)	319,352
Acquisitions and other	(81,067)	(16,160)
Total change in net deferred tax	<u>\$ (274,445)</u>	<u>\$ 359,644</u>

At June 30, 2013, the Company had recorded deferred tax assets of \$286,180 resulting from \$1,012,448 in loss carryforwards. A valuation allowance of \$256,124 related to the loss carryforwards has been established due to the uncertainty of realizing certain deferred tax assets. Of this valuation allowance, \$244,484, relates to non-operating entities whose loss carryforward utilization is considered to be remote. Some of the loss carryforwards can be carried forward indefinitely; others can be carried forward from three to 20 years.

Provision has not been made for additional U.S. or foreign taxes on undistributed earnings of certain international operations as those earnings will continue to be reinvested. It is not practicable to estimate the additional taxes, including applicable foreign withholding taxes, that might be payable on the eventual remittance of such earnings. Accumulated undistributed earnings of foreign operations reinvested in their operations amounted to approximately \$2,700,000 at June 30, 2013.

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

	2013	2012	2011
Balance July 1	\$ 109,735	\$ 81,156	\$ 82,089
Additions for tax positions related to current year	10,285	66,500	8,398
Additions for tax positions of prior years	10,719	11,047	10,015
Reductions for tax positions of prior years	(20,683)	(23,456)	(15,060)
Reductions for settlements	(4,266)	(23,434)	(7,133)
Reductions for expiration of statute of limitations	(437)	(1,636)	—
Effect of foreign currency translation	2,087	(442)	2,847
Balance June 30	\$ 107,440	\$ 109,735	\$ 81,156

The total amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate was \$60,876, \$61,601 and \$78,754 as of June 30, 2013, 2012 and 2011, respectively. If recognized, a significant portion of the gross unrecognized tax benefits as of June 30, 2013 would be offset against an asset currently recorded in the Consolidated Balance Sheet. The accrued interest related to the gross unrecognized tax benefits, excluded from the amounts above, was \$5,184, \$3,676 and \$11,331 as of June 30, 2013, 2012 and 2011, respectively.

The Company and its subsidiaries file income tax returns in the United States and in various foreign jurisdictions. In the normal course of business, the Company's tax returns are subject to examination by taxing authorities throughout the world. The Company is no longer subject to examinations of its federal income tax returns by the United States Internal Revenue Service for fiscal years through 2010. All significant state, local and foreign tax returns have been examined for fiscal years through 2003. The Company does not anticipate that, within the next twelve months, the total amount of unrecognized tax benefits will significantly change due to the settlement of examinations and the expiration of statute of limitations.

5. Earnings Per Share

Basic earnings per share are computed using the weighted-average number of common shares outstanding during the year. Diluted earnings per share are computed using the weighted-average number of common shares and common share equivalents outstanding during the year. Common share equivalents represent the dilutive effect of outstanding stock-based awards. The computation of net income per share was as follows:

	2013	2012	2011
Numerator:			
Net income attributable to common shareholders	\$ 948,427	\$ 1,151,823	\$ 1,049,130
Denominator:			
Basic - weighted-average common shares	149,218,257	151,222,033	161,125,869
Increase in weighted-average common shares from dilutive effect of stock-based awards	2,369,774	3,442,477	3,672,352
Diluted - weighted-average common shares, assuming exercise of stock-based awards	151,588,031	154,664,510	164,798,221
Basic earnings per share	\$ 6.36	\$ 7.62	\$ 6.51
Diluted earnings per share	\$ 6.26	\$ 7.45	\$ 6.37

For 2013, 2012 and 2011, 1.3 million, 0.7 million, and 1.6 million common shares, respectively, subject to stock-based awards were excluded from the computation of diluted earnings per share because the effect of their exercise would be anti-dilutive.

6. Inventories

Inventories valued on the last-in, first-out (LIFO) cost method were approximately 29 percent of total inventories in 2013 and 31 percent of total inventories in 2012. The current cost of these inventories exceeds their valuation determined on the LIFO basis by \$207,277 in 2013 and \$212,033 in 2012. Progress payments of \$42,446 in 2013 and \$36,087 in 2012 are netted against inventories.

7. Goodwill and Intangible Assets

The Company's annual impairment tests performed in 2013, 2012, and 2011 resulted in no impairment loss being recognized.

The changes in the carrying amount of goodwill are as follows:

	Industrial Segment	Aerospace Segment	Climate & Industrial Controls Segment	Total
Balance June 30, 2011	\$ 2,595,989	\$ 98,914	\$ 314,213	\$ 3,009,116
Acquisitions	65,480	(193)	—	65,287
Foreign currency translation and other	(143,348)	(47)	(5,152)	(148,547)
Balance June 30, 2012	\$ 2,518,121	\$ 98,674	\$ 309,061	\$ 2,925,856
Acquisitions	316,857	—	—	316,857
Divestitures	(61)	—	(20,044)	(20,105)
Foreign currency translation and other	(1,588)	(334)	2,829	907
Balance June 30, 2013	\$ 2,833,329	\$ 98,340	\$ 291,846	\$ 3,223,515

Acquisitions represent the original goodwill allocation, purchase price adjustments, and final adjustments to the purchase price allocation for the acquisitions during the measurement period subsequent to the applicable acquisition dates. The Company's previously reported results of operations and financial position would not be materially different had the goodwill adjustments recorded during 2013 and 2012 been reflected in the same reporting period that the initial purchase price allocations for those acquisitions were made.

Divestitures represent goodwill associated with businesses divested during 2013 as more fully discussed in Note 2.

Intangible assets are amortized on a straight-line method over their legal or estimated useful life. The gross carrying value and accumulated amortization for each major category of intangible asset at June 30 are as follows:

	2013		2012	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Patents	\$ 141,160	\$ 75,175	\$ 118,034	\$ 66,303
Trademarks	386,619	148,319	321,019	129,081
Customer lists and other	1,468,243	482,029	1,247,820	396,271
Total	\$ 1,996,022	\$ 705,523	\$ 1,686,873	\$ 591,655

During 2013, the Company acquired intangible assets with an initial purchase price allocation and weighted-average life as follows:

	Purchase Price Allocation	Weighted-Average Life
Patents	\$ 21,616	16 years
Trademarks	65,280	17 years
Customer lists and other	204,461	13 years
Total	\$ 291,357	14 years

Total intangible amortization expense in 2013, 2012 and 2011 was \$118,516, \$107,086 and \$107,701, respectively. Estimated intangible amortization expense for the five years ending June 30, 2014 through 2018 is \$117,556, \$113,034, \$110,292, \$105,602 and \$101,876, respectively.

8. Financing Arrangements

The Company has a line of credit totaling \$2,000,000 through a multi-currency revolving credit agreement with a group of banks, \$668,555 of which was available at June 30, 2013. The credit agreement expires in October 2017; however, the Company has the right to request a one-year extension of the expiration date on an annual basis, which request may result in changes to the current terms and conditions of the credit agreement. Advances from the credit agreement can be used for general corporate purposes, including acquisitions, and for the refinancing of existing indebtedness. The credit agreement requires the payment of an annual facility fee, the amount of which would increase in the event the Company's credit ratings are lowered. Although a lowering of the Company's credit ratings would likely increase the cost of future debt, it would not limit the Company's ability to use the credit agreement nor would it accelerate the repayment of any outstanding borrowings.

The Company is currently authorized to sell up to \$1,850,000 of short-term commercial paper notes. At June 30, 2013, \$1,331,445 of commercial paper notes were outstanding. No commercial paper notes were outstanding at June 30, 2012.

In addition to commercial paper notes, notes payable includes short-term lines of credit and borrowings from foreign banks. At June 30, 2013, the Company had \$83,556 in lines of credit from various foreign banks, all of which was available at June 30, 2013. Most of these agreements are renewed annually. The weighted-average interest rate on notes payable during 2013 and 2012 was 0.3 percent and 0.2 percent, respectively.

The Company's foreign locations in the ordinary course of business may enter into financial guarantees through financial institutions which enable customers to be reimbursed in the event of nonperformance by the Company.

The Company's credit agreements and indentures governing certain debt agreements contain various covenants, the violation of which would limit or preclude the use of the applicable agreements for future borrowings, or might accelerate the maturity of the related outstanding borrowings covered by the applicable agreements. At the Company's present rating level, the most restrictive covenant contained in the credit agreements and the indentures provides that the ratio of secured debt to net tangible assets be less than 10 percent. As of June 30, 2013, the Company does not have any secured debt outstanding. The Company is in compliance with all covenants.

9. Debt

<u>June 30,</u>	<u>2013</u>	<u>2012</u>
Domestic:		
Fixed rate medium-term notes 3.50% to 6.55%, due 2018-2038	\$ 1,175,000	\$ 1,175,000
Fixed rate senior notes 4.875%, due 2013	—	225,000
Foreign:		
Bank loans, including revolving credit 1% to 11.75%, due 2014	2,045	589
Euro bonds 4.125%, due 2016	260,200	253,220
Japanese Yen credit facility JPY Libor plus 55 bps, due 2017	60,540	75,174
Other long-term debt, including capitalized leases	556	552
Total long-term debt	<u>1,498,341</u>	<u>1,729,535</u>
Less long-term debt payable within one year	2,381	225,589
Long-term debt, net	<u>\$ 1,495,960</u>	<u>\$ 1,503,946</u>

Principal amounts of long-term debt payable in the five years ending June 30, 2014 through 2018 are \$2,381, \$215, \$260,205, \$60,540 and \$450,000, respectively.

Lease Commitments - Future minimum rental commitments as of June 30, 2013, under non-cancelable operating leases, which expire at various dates, are as follows: 2014-\$86,145; 2015-\$58,816; 2016-\$37,339; 2017-\$23,067; 2018-\$14,709 and after 2018-\$60,990.

Rental expense in 2013, 2012 and 2011 was \$133,478, \$124,546 and \$118,496, respectively.

10. Retirement Benefits

Pensions - The Company has noncontributory defined benefit pension plans covering eligible employees, including certain employees in foreign countries. Plans for most salaried employees provide pay-related benefits based on years of service. Plans for hourly employees generally provide benefits based on flat-dollar amounts and years of service. The Company also has arrangements for certain key employees which provide for supplemental retirement benefits. In general, the Company's policy is to fund these plans based on legal requirements, tax considerations, local practices and investment opportunities. The Company also sponsors defined contribution plans and participates in government-sponsored programs in certain foreign countries.

A summary of the Company's defined benefit pension plans follows:

	<u>2013</u>	<u>2012</u>	<u>2011</u>
Benefit cost			
Service cost	\$ 107,519	\$ 84,663	\$ 87,676
Interest cost	174,152	185,550	176,081
Expected return on plan assets	(211,694)	(201,845)	(200,303)
Amortization of prior service cost	14,472	14,016	12,636
Amortization of unrecognized actuarial loss	200,849	105,788	109,436
Amortization of initial net obligation (asset)	22	(60)	(63)
Net periodic benefit cost	<u>\$ 285,320</u>	<u>\$ 188,112</u>	<u>\$ 185,463</u>

	2013	2012
Change in benefit obligation		
Benefit obligation at beginning of year	\$ 4,506,521	\$ 3,569,560
Service cost	107,519	84,663
Interest cost	174,152	185,550
Actuarial (gain) loss	(241,674)	847,628
Benefits paid	(157,838)	(152,417)
Plan amendments	11,236	3,475
Acquisitions	1,283	40,324
Foreign currency translation and other	(18,636)	(72,262)
Benefit obligation at end of year	<u>\$ 4,382,563</u>	<u>\$ 4,506,521</u>
Change in plan assets		
Fair value of plan assets at beginning of year	\$ 2,700,050	\$ 2,798,417
Actual gain on plan assets	278,862	4,515
Employer contributions	291,018	68,799
Benefits paid	(157,838)	(152,417)
Acquisitions	285	28,928
Foreign currency translation and other	(15,761)	(48,192)
Fair value of plan assets at end of year	<u>\$ 3,096,616</u>	<u>\$ 2,700,050</u>
Funded status	<u>\$ (1,285,947)</u>	<u>\$ (1,806,471)</u>
Amounts recognized on the Consolidated Balance Sheet		
Other accrued liabilities	\$ (20,643)	\$ (11,448)
Pensions and other postretirement benefits	(1,265,304)	(1,795,023)
Net amount recognized	<u>\$ (1,285,947)</u>	<u>\$ (1,806,471)</u>
Amounts recognized in Accumulated Other Comprehensive (Loss)		
Net actuarial loss	\$ 1,537,549	\$ 2,051,178
Prior service cost	54,630	57,756
Transition obligation	166	230
Net amount recognized	<u>\$ 1,592,345</u>	<u>\$ 2,109,164</u>

The presentation of the amounts recognized on the Consolidated Balance Sheet and in accumulated other comprehensive (loss) is on a debit (credit) basis and excludes the effect of income taxes.

The estimated amount of net actuarial loss, prior service cost and transition obligation that will be amortized from accumulated other comprehensive (loss) into net periodic benefit pension cost in 2014 is \$157,221, \$11,348 and \$20, respectively.

The accumulated benefit obligation for all defined benefit plans was \$3,944,921 and \$4,025,095 at June 30, 2013 and 2012, respectively. The projected benefit obligation, accumulated benefit obligation and fair value of plan assets for pension plans with accumulated benefit obligations in excess of plan assets were \$4,351,955, \$3,920,218 and \$3,070,157, respectively, at June 30, 2013, and \$4,491,415, \$4,012,352 and \$2,684,948, respectively, at June 30, 2012. The projected benefit obligation and fair value of plan assets for pension plans with projected benefit obligations in excess of plan assets were \$4,381,914 and \$3,095,942, respectively, at June 30, 2013, and \$4,499,085 and \$2,691,772, respectively, at June 30, 2012.

The Company expects to make cash contributions of approximately \$144 million to its defined benefit pension plans in 2014, about half of which relate to U.S. qualified benefit plans. Estimated future benefit payments in the five years ending June 30, 2014 through 2018 are \$178,948, \$211,013, \$201,031, \$212,975 and \$217,266, respectively and \$1,314,513 in the aggregate for the five years ending June 30, 2019 through June 30, 2023.

The assumptions used to measure net periodic benefit cost for the Company's significant defined benefit plans are:

	2013	2012	2011
U.S. defined benefit plans			
Discount rate	3.91%	5.45%	5.30%
Average increase in compensation	5.21%	5.21%	5.21%
Expected return on plan assets	8.0%	8.0%	8.5%
Non-U.S. defined benefit plans			
Discount rate	1.75 to 4.7%	2.0 to 5.87%	1.75 to 6.0%
Average increase in compensation	2.0 to 6.0%	2.0 to 5.0%	2.0 to 4.5%
Expected return on plan assets	1.0 to 6.4%	1.0 to 7.5%	1.0 to 8.0%

The assumptions used to measure the benefit obligation for the Company's significant defined benefit plans are:

	2013	2012
U.S. defined benefit plans		
Discount rate	4.52%	3.91%
Average increase in compensation	5.13%	5.21%
Non-U.S. defined benefit plans		
Discount rate	1.5 to 4.59%	1.75 to 4.7%
Average increase in compensation	2.0 to 6.0%	2.0 to 6.0%

The discount rate assumption is based on current rates of high-quality long-term corporate bonds over the same estimated time period that benefit payments will be required to be made. The expected return on plan assets assumption is based on the weighted-average expected return of the various asset classes in the plans' portfolio. The asset class return is developed using historical asset return performance as well as current market conditions such as inflation, interest rates and equity market performance.

The weighted-average allocation of the majority of the assets related to defined benefit plans is as follows:

	2013	2012
Equity securities	57%	54%
Debt securities	30%	34%
Other	13%	12%
	100%	100%

The weighted-average target asset allocation as of June 30, 2013 is 54 percent equity securities, 34 percent debt securities and 12 percent other investments. The investment strategy for the Company's worldwide defined benefit pension plan assets focuses on achieving prudent actuarial funding ratios while maintaining acceptable levels of risk in order to provide adequate liquidity to meet immediate and future benefit requirements. This strategy requires investment portfolios that are broadly diversified across various asset classes and external investment managers. Assets held in the U.S. defined benefit plans account for approximately 74 percent of the Company's total defined benefit plan assets. The Company's overall investment strategy with respect to the Company's U.S. defined benefit plans is to opportunistically migrate from its current mix between growth seeking assets (primarily consisting of global public equities in developed and emerging countries and hedge fund of fund strategies) and income generating assets (primarily consisting of high quality bonds, both domestic and global, emerging market bonds, high yield bonds and Treasury Inflation Protected Securities) to an allocation more heavily weighted toward income generating assets. Over time, long duration fixed income assets are being added to the portfolio. These securities are highly correlated with the Company's pension liabilities and will serve to hedge a portion of the Company's interest rate risk.

The fair values of pension plan assets at June 30, 2013 and at June 30, 2012, by asset class, are as follows.

	Total	Quoted Prices In Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total at June 30, 2012	\$ 2,700,050	\$ 1,353,192	\$ 1,346,858	\$ —

Cash and cash equivalents, which include repurchase agreements and other short-term investments, are valued at cost, which approximates fair value.

Equity securities are valued at the closing price reported on the active market on which the individual securities are traded. U.S. based companies include Company stock with a fair value of \$126,834 as of June 30, 2013 and \$102,212 as of June 30, 2012.

Fixed income securities are valued using both market observable inputs for similar assets that are traded on an active market and the closing price on the active market on which the individual securities are traded.

Mutual funds are valued using both the closing market price reported on the active market on which the fund is traded and market observable inputs for similar assets that are traded on an active market and primarily consist of equity and fixed income funds. The equity funds primarily provide exposure to U.S. and international equities and fixed income securities, real estate and commodities. The fixed income funds primarily provide exposure to high-yield securities and emerging market fixed income instruments.

Common/Collective trusts primarily consist of equity and fixed income funds and are valued using a net asset value per share. Common/Collective trust investments can be redeemed daily and without restriction. Redemption of the entire investment balance generally requires a 30-day notice period. The equity funds provide exposure to large, mid and small cap U.S. equities, international large and small cap equities and emerging market equities. The fixed income fund provides exposure to U.S., international and emerging market debt securities.

Limited Partnerships primarily consist of global equity, small cap equity and hedge funds and are valued using a net asset value per share. Limited Partnership investments can be redeemed daily and without restriction. Redemption of the entire investment balance generally requires a 30-day notice period. Small cap equity funds provide exposure to domestic small cap equities and hedge funds provide exposure to a variety of hedging strategies including long/short equity, relative value, event driven and global macro.

Miscellaneous primarily includes net payables for securities purchased but not settled in the asset portfolio of the Company's U.S. defined benefit pension plans and insurance contracts held in the asset portfolio of the Company's non-U.S. defined benefit pension plans. Insurance contracts are valued at the present value of future cash flows promised under the terms of the insurance contracts.

The primary investment objective of equity securities and equity funds, within both the mutual fund and common/collective trust asset class, is to obtain capital appreciation in an amount that at least equals various market-based benchmarks. The primary investment objective of fixed income securities and fixed income funds, within both the mutual fund and common/collective trust asset class, is to provide for a constant stream of income while preserving capital. The primary investment objective of limited partnerships is to achieve capital appreciation through an investment program focused on specialized investment strategies. The primary investment objective of insurance contracts, included in the miscellaneous asset class, is to provide a stable rate of return over a specified period of time.

Employee Savings Plan - The Company sponsors an employee stock ownership plan (ESOP) as part of its existing savings and investment 401(k) plan. The ESOP is available to eligible domestic employees. Parker Hannifin common stock is used to match contributions made by employees to the ESOP up to a maximum of 4.0 percent of an employee's annual compensation. Company contributions to the ESOP are generally made in the form of cash and are recorded as compensation expense.

	2013	2012	2011
Shares held by ESOP	9,686,238	10,216,738	10,308,032
Company contributions to ESOP	\$ 61,067	\$ 58,067	\$ 52,627

In addition to shares within the ESOP, as of June 30, 2013, employees have elected to invest in 2,739,619 shares of common stock within the company stock fund of the savings and investment 401(k) plan.

The Company has a retirement income account (RIA) within the employee savings plan. The Company makes a contribution to the participant's RIA account each year, the amount of which is based on the participant's age and years of service. Participants do not contribute to the RIA. The Company recognized \$22,046, \$19,372 and \$16,844 in expense related to the RIA in 2013, 2012 and 2011, respectively.

Other Postretirement Benefits - The Company provides postretirement medical and life insurance benefits to certain retirees and eligible dependents. Most plans are contributory, with retiree contributions adjusted annually. The plans are unfunded and pay stated percentages of covered medically necessary expenses incurred by retirees, after subtracting payments by Medicare or other providers and after stated deductibles have been met. For most plans, the Company has established cost maximums to more effectively control future medical costs. The Company has reserved the right to change these benefit plans.

Certain employees are covered under benefit provisions that include prescription drug coverage for Medicare eligible retirees. The impact of the subsidy received under the Medicare Prescription Drug, Improvement and Modernization Act of 2003 on the Company's other postretirement benefits was immaterial.

A summary of the Company's other postretirement benefit plans follows:

	2013	2012	2011
Benefit cost			
Service cost	\$ 825	\$ 728	\$ 675
Interest cost	2,826	3,482	3,579
Net amortization and deferral	1,279	480	524
Net periodic benefit cost	<u>\$ 4,930</u>	<u>\$ 4,690</u>	<u>\$ 4,778</u>

	2013	2012
Change in benefit obligation		
Benefit obligation at beginning of year	\$ 83,654	\$ 73,139
Service cost	825	728
Interest cost	2,826	3,482
Actuarial (gain) loss	(6,752)	11,447
Benefits paid	(5,009)	(5,142)
Benefit obligation at end of year	<u>\$ 75,544</u>	<u>\$ 83,654</u>
Funded status	<u>\$ (75,544)</u>	<u>\$ (83,654)</u>

Amounts recognized on the Consolidated Balance Sheet

Other accrued liabilities	\$ (6,068)	\$ (5,041)
Pensions and other postretirement benefits	(69,476)	(78,613)
Net amount recognized	<u>\$ (75,544)</u>	<u>\$ (83,654)</u>

Amounts recognized in Accumulated Other Comprehensive (Loss)

Net actuarial loss	\$ 13,115	\$ 21,246
Prior service (credit)	(920)	(1,023)
Net amount recognized	<u>\$ 12,195</u>	<u>\$ 20,223</u>

The presentation of the amounts recognized on the Consolidated Balance Sheet and in accumulated other comprehensive (loss) is on a debit (credit) basis and is before the effect of income taxes. The amount of net actuarial loss and prior service (credit) that will be amortized from accumulated other comprehensive (loss) into net periodic postretirement cost in 2014 is \$1,239 and \$(123), respectively.

The assumptions used to measure the net periodic benefit cost for postretirement benefit obligations are:

	2013	2012	2011
Discount rate	3.62%	5.00%	5.01%
Current medical cost trend rate	8.0%	8.0%	8.0%
Ultimate medical cost trend rate	5.0%	5.0%	5.0%
Medical cost trend rate decreases to ultimate in year	2019	2019	2018

The discount rate assumption used to measure the benefit obligation was 4.10 percent in 2013 and 3.62 percent in 2012.

Estimated future benefit payments for other postretirement benefits in the five years ending June 30, 2014 through 2018 are \$6,098, \$6,076, \$6,060, \$6,146 and \$6,108, respectively, and \$26,131 in the aggregate for the five years ending June 30, 2019 through June 30, 2023.

A one percentage point change in assumed health care cost trend rates would have the following effects:

	1% Increase	1% Decrease
Effect on total of service and interest cost components	\$ 158	\$ (135)
Effect on postretirement benefit obligation	2,437	(2,136)

Other - The Company has established nonqualified deferred compensation programs, which permit officers, directors and certain management employees annually to elect to defer a portion of their compensation, on a pre-tax basis, until their retirement. The retirement benefit to be provided is based on the amount of compensation deferred, Company matching contributions, and earnings on the deferrals. During 2013, 2012 and 2011, the Company recorded expense relating to deferred compensation of \$19,182, \$4,499 and \$28,720, respectively.

The Company has invested in corporate-owned life insurance policies to assist in meeting the obligation under these programs. The policies are held in a rabbi trust and are recorded as assets of the Company.

11. Equity

As of July 1, 2012, the Company adopted the provisions of FASB Accounting Standards Update No. 2011-05, "Presentation of Comprehensive Income." As a result of this adoption, the Company has presented total comprehensive income in a separate Statement of Comprehensive Income.

The balance of accumulated other comprehensive (loss) in shareholders' equity is comprised of the following:

	2013	2012
Foreign currency translation	\$ (68,328)	\$ (51,125)
Retirement benefit plans	(1,039,072)	(1,364,138)
Other	(433)	(637)

Share Repurchases - The Company has a program to repurchase its common shares. On January 24, 2013, the Board of Directors of the Company approved an increase in the overall maximum number of shares authorized for repurchase under the program so that, beginning on such date, the aggregate number of shares authorized for repurchase was 15 million. Subject to this limitation, the Company is authorized to repurchase, in any single fiscal year, an amount of common shares equal to the greater of 7.5 million shares or five percent of the shares outstanding as of the end of the prior fiscal year. Repurchases are funded primarily from operating cash flows and commercial paper borrowings, and the shares are initially held as treasury stock. The number of common shares repurchased at the average purchase price follows:

	2013	2012	2011
Shares repurchased	3,006,005	6,395,866	8,008,926
Average price per share	\$ 85.55	\$ 71.20	\$ 86.54

12. Stock Incentive Plans

The Company's 2009 Omnibus Stock Incentive Plan provides for the granting of share-based incentive awards in the form of nonqualified stock options, stock appreciation rights (SARs), restricted stock units (RSUs) and restricted and unrestricted stock to officers and key employees of the Company. The aggregate number of shares authorized for issuance under the 2009 Omnibus Stock Incentive Plan is 14,700,000. The Company satisfies share-based incentive award obligations by issuing shares of common stock out of treasury, which have been repurchased pursuant to the Company's share repurchase program described in Note 11, or through the issuance of previously unissued common stock.

Stock Options/SARs - Stock options allow the participant to purchase shares of common stock at a price not less than 100 percent of the fair market value of the stock on the date of grant. Upon exercise, SARs entitle the participant to receive shares of common stock equal to the increase in value of the award between the grant date and the exercise date. Stock options and SARs are exercisable from one to three years after the date of grant and expire no more than 10 years after grant.

The fair value of each stock option and SAR award granted in 2013, 2012 and 2011 was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions:

	2013	2012	2011
Risk-free interest rate	0.8%	0.9%	1.5%
Expected life of award	4.9 yrs	5.2 yrs	5.2 yrs
Expected dividend yield of stock	1.7%	1.6%	1.5%
Expected volatility of stock	39.0%	37.3%	35.9%
Weighted-average fair value	\$ 24.76	\$ 20.30	\$ 18.70

The risk-free interest rate was based on U.S. Treasury yields with a term similar to the expected life of the award. The expected life of the award was derived by referring to actual exercise and post-vesting employment termination experience. The expected dividend yield was based on the Company's historical dividend rate and stock price over a period similar to the expected life of the award. The expected volatility of stock was derived by referring to changes in the Company's historical common stock prices over a timeframe similar to the expected life of the award.

Stock option and SAR activity during 2013 is as follows (aggregate intrinsic value in millions):

	Number of Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding June 30, 2012	12,798,326	\$ 54.74		
Granted	1,920,863	85.53		
Exercised	(5,246,595)	50.14		
Canceled	(37,421)	58.68		
Outstanding June 30, 2013	9,435,173	\$ 63.48	6.1 years	\$ 302.2
Exercisable June 30, 2013	6,501,971	\$ 56.58	5.1 years	\$ 252.4

A summary of the status and changes of shares subject to stock option and SAR awards and the related average price per share follows:

	Number of Shares	Weighted-Average Grant Date Fair Value
Nonvested June 30, 2012	2,774,590	\$ 18.06
Granted	1,920,863	24.76
Vested	(1,729,322)	17.22
Canceled	(32,929)	20.92
Nonvested June 30, 2013	2,933,202	\$ 22.91

At June 30, 2013, \$24,565 of expense with respect to nonvested stock option and SAR awards has yet to be recognized and will be amortized into expense over a weighted-average period of approximately 12 months. The total fair value of shares vested during 2013, 2012 and 2011 was \$29,777, \$37,885 and \$45,635, respectively.

Information related to stock options and SAR awards exercised during 2013, 2012 and 2011 is as follows:

	2013	2012	2011
Net cash proceeds	\$ 32,204	\$ 10,599	\$ 25,862
Intrinsic value	208,426	57,567	163,752
Income tax benefit	47,659	14,008	42,546

During 2013, 2012 and 2011, the Company recognized stock-based compensation expense of \$33,018, \$26,585 and \$36,617, respectively, relating to stock option and SAR awards. The Company derives a tax deduction measured by the excess of the market value over the grant price at the date stock-based awards are exercised. The related tax benefit is credited to additional capital as the Company is currently in a windfall tax benefit position.

Shares surrendered upon exercise of stock options and SARs: 2013 - 1,947,148; 2012 - 321,266; 2011 - 2,447,908.

RSUs - RSUs constitute an agreement to deliver shares of common stock to the participant at the end of a vesting period. Generally, the RSUs vest and the underlying stock is issued ratably over a three-year graded vesting period. Unvested RSUs may not be transferred and do not have dividend or voting rights. For each unvested RSU, recipients are entitled to receive a dividend equivalent, payable in cash or common shares, equal to the cash dividend per share paid to common shareholders.

The fair value of each RSU award was based on the fair market value of the Company's common stock on the date of grant. A summary of the status and changes of shares subject to RSU awards and the related average price per share follows:

	Number of Shares	Weighted-Average Grant Date Fair Value
Nonvested June 30, 2012	450,941	\$ 65.69
Granted	220,232	81.90
Vested	(193,143)	64.66
Canceled	(11,789)	74.50
Nonvested June 30, 2013	466,241	\$ 73.55

During 2013, 2012 and 2011, the Company recognized stock-based compensation expense of \$17,852, \$12,393 and \$12,243 respectively, relating to RSU awards. At June 30, 2013, \$11,489 of expense with respect to nonvested RSU awards has yet to be recognized and will be amortized into expense over a weighted-average period of approximately 18 months. The total fair value of RSU awards vested during 2013, 2012 and 2011 was \$12,488, \$8,642 and \$20 respectively. The Company recognized a tax benefit of \$976 and \$1,673 relating to the issuance of common stock for RSU awards that vested during 2013 and 2012.

LTIP/Restricted Stock - The Company's Long Term Incentive Plans (LTIP) provide for the issuance of unrestricted stock to certain officers and key employees based on the attainment of certain goals relating to the Company's revenue growth, earnings per share growth and return on invested capital during the 3-year performance period. No dividends or dividend equivalents are paid on unearned shares. For awards granted prior to the 2010-11-12 LTIP, restricted stock was earned and awarded, and an estimated value was accrued, based upon attainment of criteria specified in the LTIP over the cumulative years of each 3-year plan. The shares of restricted stock issued to plan participants after the end of the performance period are entitled to cash dividends and to vote their respective shares, but transferability of the restricted stock is restricted for 3 years following issuance.

Stock issued for LTIP	2013	2012	2011
LTIP 3-year plan	2010-11-12	2009-10-11	2008-09-10
Number of shares issued	792,428	243,266	157,491
Average share value on date of issuance	\$ 83.64	\$ 69.10	\$ 62.35
Total value	\$ 66,278	\$ 16,810	\$ 9,820

Under the Company's 2011-12-13 LTIP, a payout of unrestricted stock will be issued in April 2014.

The fair value of each LTIP award granted in 2013, 2012 and 2011 was based on the fair market value of the Company's common stock on the date of grant. A summary of the status and changes of shares relating to the LTIP and the related average price per share follows:

	Number of Shares	Weighted-Average Grant Date Fair Value
Nonvested June 30, 2012	1,159,842	\$ 68.51
Granted	307,506	92.64
Vested	(460,884)	51.67
Canceled	(5,071)	83.87
Nonvested June 30, 2013	1,001,393	\$ 83.59

During 2013, 2012 and 2011, the Company recorded stock-based compensation expense of \$34,127, \$41,886 and \$24,378, respectively, relating to the LTIP.

Shares surrendered in connection with the LTIP: 2013- 311,110; 2012 - 76,427; 2011 - 126,462.

In 2013, 2012 and 2011, 14,580, 15,010 and 17,820 restricted shares, respectively, were issued to certain non-employee members of the Board of Directors. Transferability of these shares is restricted for one to three years following issuance. In addition, prior to 2012 non-employee members of the Board of Directors were given the opportunity to receive all or a portion of their fees in restricted shares. These shares vest ratably, on an annual basis, over the term of office of the director. In 2011, 2,400 restricted shares were issued in lieu of directors' fees.

During 2013, 2012 and 2011, the Company recognized a tax benefit of \$17,395, \$426, and \$277, respectively, relating to the LTIP and restricted stock issued to non-employee members of the Board of Directors.

At June 30, 2013, the Company had approximately 13 million common shares reserved for issuance in connection with its stock incentive plans.

13. Shareholders' Protection Rights Agreement

On January 25, 2007, the Board of Directors of the Company declared a dividend of one Shareholders' Right for each common share outstanding on February 17, 2007 in relation to the Company's Shareholders Protection Rights Agreement. As of June 30, 2013, 149,288,524 common shares were reserved for issuance under this Agreement. Under certain conditions involving acquisition of, or an offer for, 15 percent or more of the Company's common shares, all holders of Shareholders' Rights would be entitled to purchase one common share at an exercise price currently set at \$160. In addition, in certain circumstances, all holders of Shareholders' Rights (other than the acquiring entity) would be entitled to purchase a number of common shares equal to twice the exercise price, or at the option of the Board, to exchange each Shareholders' Right for one common share. The Shareholders' Rights remain in existence until February 17, 2017, unless extended by the Board of Directors or earlier redeemed (at one cent per Shareholders' Right), exercised or exchanged under the terms of the agreement. In the event of an unfriendly business combination attempt, the Shareholders' Rights will cause substantial dilution to the person attempting the business combination. The Shareholders' Rights should not interfere with any merger or other business combination that is in the best interest of the Company and its shareholders since the Shareholders' Rights may be redeemed.

14. Research and Development

Research and development costs amounted to \$406,613 in 2013, \$365,703 in 2012 and \$359,456 in 2011. These amounts include both costs incurred by the Company related to independent research and development initiatives as well as costs incurred in connection with research and development contracts. Costs incurred in connection with research and development contracts amounted to \$58,916 in 2013, \$43,658 in 2012 and \$61,327 in 2011. These costs are included in the total research and development cost for each of the respective years.

15. Financial Instruments

The Company's financial instruments consist primarily of cash and cash equivalents, long-term investments, and accounts receivable, net as well as obligations under accounts payable, trade, notes payable and long-term debt. Due to their short-term nature, the carrying values for cash and cash equivalents, accounts receivable, net, accounts payable, trade and notes payable approximate fair value. The carrying value of long-term debt (excluding capital leases) and estimated fair value of long-term debt (excluding capital leases) at June 30 are as follows:

	2013	2012
Carrying value of long-term debt (excluding capital leases)	\$ 1,498,025	\$ 1,728,983
Estimated fair value of long-term debt (excluding capital leases)	1,654,886	2,005,887

The fair value of long-term debt was estimated using discounted cash flow analyses based on the Company's current incremental borrowing rate for similar types of borrowing arrangements.

The Company utilizes derivative and non-derivative financial instruments, including forward exchange contracts, costless collar contracts, cross-currency swap contracts and certain foreign denominated debt designated as net investment hedges, to manage foreign currency transaction and translation risk. The derivative financial instrument contracts are with major investment grade financial institutions and the Company does not anticipate any material non-performance by any of the counterparties. The Company does not hold or issue derivative financial instruments for trading purposes.

The Company's Euro bonds and Japanese Yen credit facility have been designated as a hedge of the Company's net investment in certain foreign subsidiaries. The translation of the Euro bonds and Japanese Yen credit facility into U.S. dollars is recorded in accumulated other comprehensive income (loss) and remains there until the underlying net investment is sold or substantially liquidated.

Derivative financial instruments are recognized on the balance sheet as either assets or liabilities and are measured at fair value. Derivatives consist of forward exchange, costless collar and cross-currency swap contracts the fair value of which is calculated using market observable inputs including both spot and forward prices for the same underlying currencies. The fair value of the cross-currency swap contracts is calculated using a present value cash flow model that has been adjusted to reflect the credit risk of either the Company or the counterparty.

Gains or losses on derivatives that are not hedges are adjusted to fair value through the cost of sales caption in the Consolidated Statement of Income. Gains or losses on derivatives that are hedges are adjusted to fair value through accumulated other comprehensive income (loss) in the Consolidated Balance Sheet until the hedged item is recognized in earnings.

The location and fair value of derivative financial instruments reported in the Consolidated Balance Sheet are as follows:

	Balance Sheet Caption	2013	2012
Net investment hedges			
Cross-currency swap contracts	Other liabilities	\$ 22,438	\$ 2,008
Cash flow hedges			
Costless collar contracts	Accounts receivable	1,422	2,466
Forward exchange contracts	Accounts receivable	41	1,887
Costless collar contracts	Other accrued liabilities	953	552

The fair values at June 30, 2013 and 2012 are classified within Level 2 of the fair value hierarchy. There are no other financial assets or liabilities that are marked to market on a recurring basis. Fair values are transferred between levels of the fair value hierarchy when facts and circumstances indicate that a change in the method of estimating the fair value of a financial asset or financial liability is warranted.

The cross-currency swap contracts have been designated as hedging instruments. The forward exchange and costless collar contracts have not been designated as hedging instruments and are considered to be economic hedges of forecasted transactions.

Gains (losses) on derivative financial instruments that were recorded in the Consolidated Statement of Income are as follows:

	2013	2012	2011
Forward exchange contracts	\$ (1,821)	\$ (4,156)	\$ 19,048
Costless collar contracts	502	5,111	(6,624)

Gains (losses) on derivative and non-derivative financial instruments that were recorded in accumulated other comprehensive (loss) in the Consolidated Balance Sheet are as follows:

	2013	2012
Cross-currency swap contracts	\$ (12,622)	\$ 21,359
Foreign denominated debt	4,743	22,039

There was no ineffectiveness of the cross-currency swap contracts or foreign denominated debt, nor were any portion of these financial instruments excluded from the effectiveness testing, during 2013, 2012 and 2011.

16. Contingencies

The Company is involved in various litigation matters arising in the normal course of business, including proceedings based on product liability claims, workers' compensation claims and alleged violations of various environmental laws. The Company is self-insured in the United States for health care, workers' compensation, general liability and product liability up to predetermined amounts, above which third party insurance applies. Management regularly reviews the probable outcome of these proceedings, the expenses expected to be incurred, the availability and limits of the insurance coverage, and the established accruals for liabilities. While the outcome of pending proceedings cannot be predicted with certainty, management believes that any liabilities that may result from these proceedings will not have a material adverse effect on the Company's liquidity, financial condition or results of operations.

Environmental - The Company is currently responsible for environmental remediation at various manufacturing facilities presently or formerly operated by the Company and has been named as a "potentially responsible party," along with other companies, at off-site waste disposal facilities and regional sites.

As of June 30, 2013, the Company had a reserve of \$12,475 for environmental matters, which are probable and reasonably estimable. This reserve is recorded based upon the best estimate of costs to be incurred in light of the progress made in determining the magnitude of remediation costs, the timing and extent of remedial actions required by governmental authorities and the amount of the Company's liability in proportion to other responsible parties.

The Company's estimated total liability for environmental matters ranges from a minimum of \$12.5 million to a maximum of \$80.1 million. The largest range for any one site is approximately \$15.1 million. The actual costs to be incurred by the Company will be dependent on final determination of contamination and required remedial action, negotiations with governmental authorities with respect to cleanup levels, changes in regulatory requirements, innovations in investigatory and remedial technologies, effectiveness of remedial technologies employed, the ability of other responsible parties to pay, and any insurance or other third-party recoveries.

17. **Quarterly Information** (Unaudited)

2013	1st	2nd	3rd	4th	Total

Management's Report On Internal Control Over Financial Reporting

Our management, including the principal executive officer and the principal financial officer, is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)). We assessed the effectiveness of our internal control over financial reporting as of June 30, 2013. We have excluded eight entities from our evaluation of internal control over financial reporting as of June 30, 2013 because the entities were acquired in purchase business combinations during the year ended June 30, 2013. On a combined basis, the entities represent approximately 7.0 percent of total assets and 2.7 percent of total revenues as of and for the fiscal year ended June 30, 2013. In making this assessment, we used the criteria established by the Committee of Sponsoring Organizations of the Treadway Commission in "Internal Control-Integrated Framework (1992 Framework)." We concluded that based on our assessment, the Company's internal control over financial reporting was effective as of June 30, 2013.

Deloitte & Touche LLP, the independent registered public accounting firm that audited the Company's consolidated financial statements, has issued an attestation report on the Company's internal control over financial reporting as of June 30, 2013, which is included herein.

/s/ Donald E. Washkewicz

Chairman, Chief Executive Officer and President

/s/ Jon P. Marten

Executive Vice President - Finance & Administration and Chief Financial Officer

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Parker-Hannifin Corporation:

We have audited the accompanying consolidated balance sheets of Parker-Hannifin Corporation and subsidiaries (the "Company") as of June 30, 2013 and 2012, and the related consolidated statements of income, comprehensive income, equity, and cash flows for each of the three years in the period ended June 30, 2013. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(1). We also have audited the Company's internal control over financial reporting as of June 30, 2013, based on criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on these financial statements and financial statement schedule and an opinion on the Company's internal control over financial reporting based on our audits.

As described in Management's Report on Internal Control Over Financial Reporting, management excluded from its assessment the internal control over financial reporting at eight entities, which were acquired on various dates during the year ended June 30, 2013 and whose financial statements constitute approximately 7.0 percent and 2.7 percent of total assets and revenues, respectively, of the consolidated financial statement amounts as of and for the year ended June 30, 2013. Accordingly, our audit did not include the internal control over financial reporting at the eight entities acquired during the year ended June 30, 2013.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Parker-Hannifin Corporation and subsidiaries as of June 30, 2013 and 2012, and the results of their operations and their cash flows for each of the three years in the period ended June 30, 2013, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of June 30, 2013, based on the criteria established in *Internal Control - Integrated Framework (1992)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

/s/ DELOITTE & TOUCHE LLP

Re: Parker-Hannifin Corporation

Commission File No. 1-4982
Annual Report on Form 10-K
Authorized Representatives

Gentlemen:

Parker-Hannifin Corporation (the "Company") is the issuer of Securities registered under Section 12(b) of the Securities Exchange Act of 1934 (the "Act"). Each of the persons signing his or her name below confirms, as of the date appearing opposite his or her signature, that each of the following "Authorized Representatives" is authorized on his or her behalf to sign and to submit to the Securities and Exchange Commission Annual Reports on Form 10-K and amendments thereto as required by the Act:

Authorized Representatives

Donald E. Washkewicz
Jon P. Marten
Thomas A. Piraino, Jr.

Each person so signing also confirms the authority of each of the Authorized Representatives named above to do and perform, on his or her behalf, any and all acts and things requisite or necessary to assure compliance by the signing person with the Form 10-K filing requirements. The authority confirmed herein shall remain in effect as to each person signing his or her name below until such time as the Commission shall receive from such person a written communication terminating or modifying the authority.

CERTIFICATIONS

I, Donald E. Washkewicz, certify that:

1. I have reviewed this annual report on Form 10-K of Parker-Hannifin Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
4. The Registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

Certification Pursuant to
18 U.S.C. Section 1350,
As Adopted Pursuant to
§ 906 of the Sarbanes-Oxley Act of 2002

Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, in connection with the filing of the Annual Report on Form 10-K of Parker-Hannifin Corporation (the "Company") for the fiscal year ended June 30, 2013, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), each of the undersigned officers of the Company certifies, that, to such officer's knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company as of the dates and for the periods expressed in the Report.
